PLOT WILL OPEN AMERICA'S EYES, BRITISH BELIEVE

"Fantastic Villainy" Branded as German Intrigue Declare English Newspapers

By Associated Press London, March 2. — The disclosure of the German plot in America continues the chief theme in the news and editorial columns of the newspapers. The Westminster Gazette, which brands the plot as "fantastic villainy," says:

"It has all the clumsiness, all the malice and shallow cunning of the other machinations of the same kind that we disclosed in Egypt, India and Ireland. It is thoroughly characteristic of the apostles of Kultur and of the Kaiser, who is the protector of Islam and inciter of holy wars by eastern races against Europeans. It is also characteristic that they are not even able to keep their plots to themselves, but are discovered before they have begun, with the incriminating documents upon them."

The German document, the Gazette says, will show Americans that "Germany's machinations and ambitions are not confined to Europe, Asia and Africa. It shows them what is her real estimate of the Monroe Doctrine and how far she would respect it if victory should give her the opportunity of flouting it."

Clumsy and stupid as this document is there could hardly be more explosive matter packed into the short space, or so much warning offered in a few words to Americans of what is at stake for them in the European war.

It is significant "The wickedness of secret diplomacy" is the moral the Manchester Guardian draws and which it believed most people will draw, from the account of German intrigues in Mexico.

"President Wilson would seem to have drawn it," the newspaper says, and we are inclined to think the publication of the story the most significant thing that has happened between neutrals and Germany since the United States broke off diplomatic relations with Germany."

While the Guardian contends that German methods are worse than those of the diplomacy of other nations it believes the vices "which are nauseous in the Mexican case are inherent in every system of secret diplomacy," and it advocates the cleansing of diplomatic stables after war and a return to candor, integrity and straightforwardness in international affairs.

"One cannot read a story like this," the newspaper adds, "without falling in love with the virtues of candor, simplicity and loyalty in public affairs, and not only loving them as fair virtues, but honoring them for their extraordinary efficiency as instruments of human relationship."

Five-Minute Talks by National Leaders

By DR. J. N. HURTY Indiana Director of Public Health Work. Fully one-half of all taxes go to pay for the results of sickness and disease which in a higher state of civilization we would not have.

Now, there is insanity. Mental disease is the term the doctors now prefer. Where does it come from? Why do we have mental disease? But first as to its cost to Indiana. In round figures we plank down in cash \$2,000,000 annually to care for the insane. But that is not all the cost, for there are 6,000 insane, all adults, and all withdrawn from productive life.

If each one earned \$500 per year—and this is a reasonable estimate—then the loss to the State is \$3,000,000. The total loss due to insanity is, therefore, \$5,000,000 each year.

Now, here is where it comes from, and we are as stupidly indifferent to the cause and the loss as we are to smoke and its loss. Twenty-five per cent. of insanity comes from syphilis, 25 per cent. from alcohol poison, 35 per cent. is hereditary and the remainder is such poisons as typhoid poison, tuberculosis poison, diphtheria poison, scarlet fever poison, food poisons and drugs.

Please observe each cause may be largely controlled. Turn the problem over to the health cranks, keep the practical politicians at bay, and the fearful annual loss would each year grow less.

LOOK AT CHILD'S TONGUE IF SICK, CROSS, FEVERISH

Hurry, Mother! Remove poisons from little stomach, liver, bowels.

Give "California Syrup of Figs" at once if bilious or constipated.

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad; has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of the little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative"; they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeiters sold here. To be sure you get the genuine, ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.
