Remodeling Houses to Convert Them Into Apartments and Storeroom

Remodeling work on the two big brick dwelling houses at 1435-1437 North Second street, to convert them into apartments with a large store-room on the first floor, has been started by Harold A. Hipple, contractor for the owners, Lester G. Holtzman and

the owners. Lester G. Holtzman and Harvey B. Bair.

The total cost of improvements will be at least \$25,000. All alterations and semodeling will be completed within the next four months, so that the building will be ready for occupancy early in the summer.

The owners are planning to use the entire first floor of the two buildings as a large produce and meat market. The floor will be entirely of concrete. An artesian well will be drilled. Other improvements include a large ice and storage plant.

mprovements include a storage plant.
When opened the store will add another business interest to the fast-growing uptown section and will be another convenience for residents in another convenience for residents in that district.

Two of the four apartments, which are to be on the second and third floors, have already been let, and it is expected when improvements are completed all apartments in the building will be taken.

GET READY TO ARM AMERICAN SHIPS

St. Louis to Be First to Leave With Protecting Guns on Deck

By Associated Press
New York, March 3.—The six pasenger ships of the American Line held in this harbor by the German block-ade are ready to take on guns as soon as Congress authorizes the govern ent to arm American merchant ves

ment to arm American merchant vessels. A naval constructor and two ordnance officers from the navy yard continued to-day an inspection of the Imerican Line ships.

These officers yesterday spent the greater part of the day on board the St. Louis, which, it is understood, will be the first of the American fleet to leave if the ship arming bill becomes a law. It was said that the liners could be made ready for if necessary in 48 hours, so far as the installation of guns is concerned.

Inquiries by officers at the navy yard regarding the caliber of guns now carried by French and British steamships for submarine defense show that the French liners are armed with naval 75 millimeters, a little more than 3 inches; the Cunarders carry 4.7's and the White Star liners 6-inch guns.
