### GERMANY HOPES PLOT MAY INVOLVE JAPAN AND U.S.

London, March 6. — The German government's plan for involving Mexico and Japan in war with the United State, in event of hostilities between Germany and America, was defended in an address before the Reichstag by the foreign secretary, Dr. Alfred Zimmermann, as quoted in a Reuter dispatch from Amsterdam. Replying to objections raised by a Socialist member to the Mexican proposals, Dr. Zimmermann said:

"We were looking out for all of us, in the event of there being the prospect of war with America. It was a natural and justified precaution. I am not sorry that, through its publication in America, it also became known in Japan.

"For the dispatch of these instructions at present is at Germany's disposal. How the Americans came into possession of the text which went to America in special secret code we do not know. That these instructions should have fallen into American into alter the fact that the step was necessary for our particular interests. "Least of all are they in America justified in being excited about our action. It would be erroneous to suppose that the step made a particularly deep impression abroad. It is regarded as what it is—justifiable defensive action in the event of war."

An official of the Wallis Coal Company stated that while no official announcement has been made regarding the price of coal this spring, he does not anticipate any change in the domestic coal market, although steam coal would be uncertain in price as it has been all winter. ## A MAN OF THE OUTO' DOORS---

He's a red-blood man of the Out o' Doors Where he lives all alone with his God He hasn't a thing but the heart of a king An' a dog an' a gun an' a rod!

He will build a hot fire in the darkness When there's only one match he kin spare, With the ground soppin' wet an' the sky all afret, An' a dry twig the devil knows where!

He'll set a hare snare in the briars While he's gettin' a hot bed o' coals, An' go get a rabbit from pure force of habit When they oughta be tight in their holes:

An' he'll cook yuh a meal in a jiffy That's more'n a feast fer a king; Yuh swear that buck hare when he hands yuh yer share Is the tip of a hummin' bird's wing!

He knows every possum and squirrel hole Ten miles away from his hut An' any old pheasant had better look pleasant If he squints at 'im one eye tight shut!

Why he'll call fer a turkey so nat'ral
A gobbler'll perk up his ears
An' swear in his sleep that hurried "Peep-Peep!"
Is a hen that he's scratched with fer years!
An' say, if yuh wanta go fishin'
An' don't want no fisherman's luck
Get him to point out a brook where there's trout
An' yuh'll land all the law lets yuh truck!

Do yuh know sometimes when I'm dreamin' Of joys on those faraway shores, I hear the King say, in a kind sort o' way— 'Up here yuh kin live Out o' Doors!

Parisian Sage is a delicately perfumed liquid, antiseptic and scientifically prepared, which when massaged into the scalp goes right down to the hair roots, where most hair worries begin, and furnishes the famished roots with the nourishment that is lacking to make the hair grow better and show more life and vitality. Parisian Sage not only stimulates hair growth but beautifies it so that it is a favore in beautiful hair that can be easily arranged and appear much heavier that it really is.
