

# Saves Eggs

Royal Baking Powder makes it possible to produce appetizing and wholesome cakes, muffins, cornbread, etc., with fewer eggs than are usually required.

In many recipes the number of eggs may be reduced and excellent results obtained by adding an additional quantity of Royal Baking Powder, about a teaspoon, for each egg omitted. The following tested recipe is a practical illustration:

### SPONGE CAKE

- 1 cup sugar
- 3/4 cup water
- 3 eggs
- 2 teaspoons Royal Baking Powder
- 1 cup flour
- 1 teaspoon salt
- 3/4 cup cold water
- 1 teaspoon flavoring

The old method called for 6 eggs and no baking powder

# ROYAL BAKING POWDER

Made from Cream of Tartar, derived from grapes, adds none but healthful qualities to the food.

No Alum No Phosphate

## COUNCIL TO ACT ON ASH SURVEY AND COLLECTIONS

### City Should Do Work, Gross Says; Removal of Garbage Plant May Result

Council will be asked in the near future to act on the proposed survey of ash and garbage collections, and later to pass on the question of municipal collections, City Commissioner E. Z. Gross said today.

Communications have been received from engineers residing outside the city, asking for information concerning the proposed survey. Yesterday Commissioner Gross was authorized to communicate with Farley Cannett, consulting engineer, to get an estimate on the cost of the investigation, together with recommendations for disposal of refuse.

May Remove Plant  
Removal of the present Pennsylvania Reduction Company plant, near Wildwood park, above Cameron and Akeley streets; erection of a city incineration plant to burn all garbage; auto truck collection of ashes, garbage and all other refuse; early morning collections; strict enforcement of present laws as to sites of receptacles, separation of paper, tin cans and other wastes, are only a few of the

questions to be taken up in connection with municipal operation of the work. If municipal collections are approved, the city should be prepared next February to take over all the work. The present contract with the Pennsylvania Reduction Company expires then, and any experience has shown that about the only solution to the question will be to have the city take charge.

"This will mean elimination of the present plant, which is admitted a nuisance, at least during the summer. Erection of an incineration plant will do away with this.

Survey is Needed  
"Although we have received no approximate estimate, I do not believe the cost of municipal collections will be so much greater than by private contract for the work. While I believe the present company is losing money because of the increasing cost of operation, that is no reason why thousands of people all over the city should suffer.

"By careful study of our needs it should not be a difficult matter to arrange short routes for the men, provide bins for the work, and have general satisfaction with no mid-winter tie-ups like the one just experienced.

"A survey will be needed, however, to tell what system will be best. When the city, if it is finally agreed to, takes over the collection work there must be no further trouble because of ignorance of conditions and methods to meet them," Commissioner Gross concluded.

### TO CONFER ON INSURANCE

City Commissioners will confer probably to-morrow or Friday afternoon with City Solicitor John E. Fox on awarding the contract for workmen's compensation insurance. Although a number of similar conferences have been held, Council cannot agree on whether the State insurance fund or a stock company should be given the contract.

### OPEN BIDS FOR PIPE

Bids were opened at noon today by City Commissioner E. Z. Gross for laying an eight-inch sewer, connecting the Reservoir Park golf club with the city sewer in Whitehall street. Bids were received as follows: James H. Frey, \$298; W. H. Opperman, \$247; Stucker Brothers, \$287.

### Hungry and Exhausted He Waits Week at Station For His Delayed Wife

Hungry and almost exhausted from lack of sleep, John Porpotich was taken in charge to-day by David Goldberg, Pennsylvania Railroad interpreter. Porpotich has been watching night and day for a week for his wife, who is expected to come from Lorain, Ohio. She was to have reached Harrisburg on February 29.

The husband had little food during his week of waiting. He was not been working, and his hands are about gone. He boarded in South Ninth street and worked at Steelton. He cannot understand why his wife does not come to Harrisburg.

On Tuesday he wired \$10 to Lorain, Ohio. The money reached the wife, whose name is Mary, and she was to have left immediately. Porpotich started his watch last Thursday night. He has only been away from the station at short intervals since that time. Several times he has fallen asleep and been wakened by his wife's snoring. Today he told Interpreter Goldberg that he was tired and hungry. Arrangements were made to have the wife brought to Harrisburg and the husband will return to work after he has rested up.

### MUCH COFFEE BURNS

By Associated Press  
Amsterdam, March 7. — Twenty thousand kilos of coffee, belonging to the Belgian Relief Commission, were lost in a fire which destroyed a storehouse at Hasselt, according to the Telegraph. A quantity of other foodstuffs was also burned. The Telegraph says that two persons have been deported to Germany in connection with the fire.

## BISURATED MAGNESIA

For Dyspepsia, Indigestion, Heartburn, Belching, Sour Stomach, Gas in Stomach, etc. Take a teaspoonful of Bisurated Magnesia in a half glass of hot water after eating. It is safe, pleasant, and harmless to use and gives instant relief from all forms of stomach disorder. Sold by G. A. Gorgas and druggists everywhere.

### COLONIAL Fri. & Sat.

## SYRUP OF FIGS FOR CROSS, SICK FEVERISH CHILD

### Look, Mother! Is tongue coated, breath hot and stomach sour?

### Harmless "fruit laxative" best to clean tender liver and bowels.

Mothers can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it can't cause injury. No difference what ails your little one — if full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleanser" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

**R. D. PRATT**  
Eyeglass Specialist  
26 N. Third St.

Reliable Service at the same reasonable prices charged at my former location.

## LABOR CAMP PLAN IS DISCUSSED

### Prominent Contractors and Railroad Men Meet With the State Board Today

Representatives of railroad and construction companies maintaining temporary camps for the housing of laborers, are to-day attending a hearing conducted by the State Industrial Board in the Engineers' Club, for the purpose of prescribing minimum standards of sanitation for all such labor camps and accommodations and temporary quarters.

This action is being taken by the industrial board under the act of assembly of June 7, 1915, providing that such camps be inspected at the direction of the Commissioner of Labor and Industry. The inspections are made through the Bureau of Employment of the Department of Labor and Industry.

Commissioner John Price Jackson, chairman of the board, announced last night that the board had ruled that employers must supply approved safety goggles or helmets to all employees engaged in specified operations and that employers must furnish the goggles or helmets while engaged in any of these operations. The penalty for violation of the ruling, by either employer or employee, constitutes a misdemeanor punishable by fine of not more than one hundred dollars or imprisonment of not more than one month, or both.

This action was taken by the industrial board following reports that during single months in 1916 accident reports of more than two thousand eye injuries had been received by workers, many of which caused a partial or total blindness. These rulings are preliminary to a safety code on eye protection for all industrial operations to be formulated immediately by the industrial board. The members of the board participating in the hearing were Chairman John Price Jackson, Mrs. Samuel Semple, Otto T. Malley, William Young and Dr. A. L. Garver.

Whether minors under eighteen may be employed in wholesale liquor establishments is a question that will be considered by the board at a public hearing to be held at Pittsburgh at a date not yet determined. The child labor act of 1915 prohibits employment of minors in retail liquor establishments and further specifies that minors under eighteen may not be employed in any other occupation injurious to health or morals as such occupations shall, from time to time, after public hearing, be determined by the industrial board. The Department of Labor and Industry.

A ruling was also made that no boilers shall be admitted into Pennsylvania after January 1, 1918, which do not conform to the Pennsylvania boiler code. This time limit was set to admit boilers contracted for prior to June 1, 1916, and will not permit the shipment of second-hand boilers into this State.

## PATRIOTISM WATCHWORD AT ROTARY DINNER

### Ladies of Club Are Guests of Members at Delightful Function

The state is the unit of the Nation, the city the unit of the State and the home the unit of the city. Therefore, true patriotism begins, like charity, at home.

As the crash of the Empire rumbles at our gates, we shall put on the armor of Faith, the shield of Righteousness and the sword of Justice.

Then with the motto, "One God, One Country and One Home" we shall take our knightly inspiration from our glorious American womanhood, look grim Destiny squarely in the face and command: "Smile, you Son of a Gun, Smile!"

That was the foreword on the program of the annual Ladies' Night of the Harrisburg Rotary Club last evening and it was carried out in every feature of the elaborate and delightful entertainment, which was, by the way, the most successful in the club's long history of such affairs.

The dinner, with which the evening began, was served at 6.30 in the banquet hall of the Masonic Temple. The big room was decorated in red, white and blue. Hundreds of flags were festooned and draped about the walls and hung from the ceiling. In front was an elevated stage, directly behind the speakers' table screened from the view of the diners by immense American flags as curtains. At a proper time, to the tune of the "Star Spangled Banner" and the cheers of the guests these curtains were swung aside, revealing a beautiful figure of Betsey Ross in the act of making the first American flag. The scene was worked out from a famous historical painting and formed the central figure of the decorative scheme.

The dinner hats of the guests were all in red, white and blue, as were the table decorations, while hundreds of red, white and blue balloons filled with illuminating gas floated above the table half way between floor and ceiling.

"Speeches Barred"  
President Howard C. Fry presided, and the outset informed those present that the speaker would be barred. Nevertheless, C. Floyd Hopkins did manage to work in a few remarks on how delighted the Rotarians were to be entertained by the speaker, and to proceed to give some dinners, excursions, motor trips, picnics and luncheons as the year progresses. The dinner began with an invocation by John Yates.

During the course of the festivities cabaret singers led by a violinist sang patriotic songs, with the guests joining in. The songs were most enjoyed, and received as a souvenir a handsomely engraved silver candlestick. The dinner favors were all of a patriotic nature and the program covers were American flags with the Rotary seal in the lower right hand corner. Rutherford was caterer.

Captain George F. Lumb, in the name of the guests, presented President Fry with very large watch (not gold) suspended from a very, very heavy chain (also not gold) to which was attached a very, very big potato (not gold). Mr. Fry said he was very, very thankful, but if the committee didn't mind would it take back the watch and give him another potato? The proportion of the dinner was very, very good, but if the committee didn't mind would it take back the watch and give him another potato?

After the dinner the room was cleared of tables and President and Mrs. Fry led the guests in a grand march, which was followed by dancing. The arrangements were in charge of the following committee with P. G. Diener as chairman: Andrew Buchanan, Arthur H. Bailey, Presley H. Bailey, Charles M. Forney, C. Floyd Hopkins, Eli Hershey, George F. Lumb, S. S. Rutherford and C. L. Scott.

## Harvester Company Declares It Should Not Be Dissolved

By Associated Press  
Washington, March 7.—Hearings on the government's antitrust suit to dissolve the International Harvester Company were continued to-day by the Supreme Court. Three hours is the time usually allotted by the court for arguments, but in this case, owing to the importance of the issues involved, the time was extended to eight hours.

In opening the case for the so-called "Harvester Trust," Edgar A. Bancroft, of Chicago, contended that the defendants, in their use of control, as compared with competitors, should not cause dissolution unless the defendants exercise actual and harmful repression, which is denied.

## Court Closes All Bars in Coatesville and Downingtown For Cause

West Chester, Pa., March 7.—In an extended opinion covering general type-written pages, Judges Butler and House, of the Chester County Court, issued a decree and order making absolute the rule to close the four hotels in Coatesville and the two in Downingtown for violating the liquor law. The decree says that the rule granting in these cases is made absolute and the retail liquor licenses are revoked as of the time when notice of this order is served upon them, which is directed by the court to be done as soon as possible as he received the orders left for Coatesville and Downingtown and made service.

## Arkansas Suffrage Bill Is Passed Finally

Little Rock, Ark., March 7.—The Arkansas House of Representatives yesterday, by a vote of 54 to 27, finally passed the Riggs suffrage bill, which gives women the right to vote in primary elections. Governor Brough announced that he would sign the bill at a suffrage mass meeting.

## Jewett Wins Republican Nomination For Mayor

By Associated Press  
Indianapolis, Ind., March 7.—Complete but unofficial returns from the 140 precincts in Indianapolis from yesterday's primary show that Charles W. Jewett was nominated for mayor on the Republican ticket by a majority of 906 over Lew Shank. The unofficial vote was Jewett 15,014; Shank 14,108.

Shank announced last night that if he were defeated for the nomination he would run on an independent ticket. Dick Miller, who had no opposition, was nominated for mayor by the Democrats.

## KNIGHTS OF ST. GEORGE INSTALL NEW BRANCH

The officers of the Harrisburg branch, 168, Knights of St. George, returned from Dallas after installing their branch 269, John Czarnicki, district deputy; Joseph Waldschmitt, past director; J. F. Eckenrode, vice-president, and Augustus Waldschmitt, secretary of Harrisburg were the installing officers, assisted by Supreme President Joseph H. Reiman, of Pittsburgh; the Rev. Father Ehrhart, of Dallas; and Lorenz Weidman, of Altoona. The initiation was conferred on a class of thirty-five members.

### TREASURER YOUNG SPEAKS BEFORE STATE SOCIETY

State Treasurer Robert K. Young to-day addressed the luncheon of the State Society at the Harrisburg Club on the State Treasurership and Its Duties. The talk was an interesting one, as Mr. Young was formerly chief of the co-ordinating department of the Auditor General. The society will have a dinner on April 12, at which a portrait of the Governor will be presented to him by Dr. John Price Jackson is chairman of the committee.

## Dr Hibben Who Will Speak at C. of C. Luncheon Is Preparedness Booster

### Dr. John Grier Hibben, president of Princeton University, who will address a membership luncheon meeting of the Harrisburg Chamber of Commerce at noon at the Board of Trade Hall, Friday, is one of the foremost advocates of preparedness.

He is taking much interest in the formation of military units in schools and colleges, and was personally responsible for the formation of a student regiment at Princeton. He was instrumental in securing the services of Captain Hiltzman of the regular army as instructor in military tactics. Dr. Hibben personally announced the assignment of the officer to Princeton and asked for recruits, eight hundred and ninety responded to his first call. Dr. Hibben's talks on preparedness are widely quoted and he has promised to summarize some of his most recent speeches on this subject in Friday's talk.

Former Chambersburg Pastor  
Dr. Hibben was graduated from Princeton in 1882 and later from the Seminary. For a number of years he was pastor of the Falling Spring Presbyterian Church in Chambersburg, and in 1890 was elected to the faculty of Princeton University. While there he taught psychology, logic and philosophy. In 1911 he succeeded Woodrow Wilson as president of the University. During his many years as instructor, professor and later as president of the University he was voted the most popular man on the faculty.

## GERMAN HOSPITAL WORK CONTINUED

### American Unit Returns to Military Base Despite Break in Relations

By Associated Press  
Berlin, via London, March 7.—The American physicians' expedition under the direction of Dr. Edward F. Newport, of Cincinnati, has returned to its base at Deutsch Eylau, where it will continue its work under the direction of the New York committee. The German military authorities were very cordial in their insistence that the American units continue their work and have given a written assurance that the members will be permitted to leave Germany whenever they desire. The American unit stationed at Naumberg has discontinued its work there after donating its model hospital equipment to the municipality.

## U. S. TRANSPORT DAMAGED

### Seattle, Wash., March 7.—The United States transport Dix, which left Seattle last Saturday for Manila, and which suffered an accident to her steering gear when 360 miles southwest of Cape Flattery, is returning to Seattle to-day under her own steam.

## WAR RISK RATES ARE INCREASED

### Jumped Four Per Cent. Despite Added Protection Against German U-Boats

By Associated Press  
New York, March 7.—The steamship Carmania, of the Cunard line, which arrived last night from Liverpool, is equipped with the best submarine defenses carried by any merchant vessel that has reached this port. The Carmania is the first ship here to show the smoke screen apparatus recently invented by the British admiral. In addition to this device she carries a naval 6-inch gun with a range of eight miles.

Scarcity of tonnage and the uncertainties of the submarine situation caused an increase in freight and insurance rates to-day.

According to Rear Admiral Bradley A. Fiske, U. S. N., retired, the sea-going commerce of the United States can hope for no real protection by arming merchantmen. The primary defense effort, he told the trustees of the American Defense Society at a dinner yesterday, should seek development of the power of the United States on the sea. Officers of the United States navy, Admiral Fiske said, were a unit in favor of arming merchantmen, but it must be remembered that submarines operating on the surface were more than a match for merchant ships.
