

GIRL CLERK WILLED \$38,000 FOR KINDNESS TO WOMAN

By Associated Press
Paterson, N. J., March 8.—For an act of courtesy to an elderly woman, Miss Rose Schampanier, a department store clerk, has been notified that she will receive \$38,000 on her 25th birthday, three years hence. Meanwhile, she will be paid interest every year on

her birthday. It is stipulated only that she shall not marry until she is 25.
Miss Schampanier was at Revere Beach, near Boston, last summer, when she saw Mrs. Catherine Ward, of Grand Rapids, Mich., fall in the sand. The young woman picked up the older and an acquaintanceship developed. Mrs. Ward died recently and her will contained the bequest to the Paterson girl.

ECONOMY HEARING NOT HELD TODAY

Governor Gives Time to Deficiency Bill; Must Act on It Soon

The proposed hearings by the State Economy and Efficiency Commission were sidetracked to-day to permit the Governor to clear up the general deficiency bill on which his time expires to-night. It was planned to quiz heads of departments as to the reasons for the big jumps in some of the estimates of appropriations asked, but although several of them were ready the Governor did not schedule any sessions. Instead he was in consultation with Attorney General Brown and State officials regarding the deficiency measure.

The Governor declined to indicate what he would do about the deficiency bill.

Attorney General Brown had meetings to-day with officials of the department of mines regarding the proposed mine cave bill.

SENATE LEADERS TO PUSH CLOTURE RULE

[Continued From First Page]

statement sent out to the general public.

No Need to Hurry
Senator Sherman said he failed to see any reason to be precipitate in the matter and pointed to the sinking of the Lusitania nearly two years ago and the sinking of other ships since to show that the President had not been in a hurry to demand action.

"I wish to remind the President," said the Senator, "when he seeks to blame the Senate and the Senate rules and a few Senators, that during a large part of this time he has ridiculed preparedness. He has ridiculed it in the army and in the navy."

Mr. Sherman declared there was no doubt in his mind that the armed neutrality bill would give the President the right to arm munition ships and furnish warships to convoy.

Hits At Editors
"When we do that," he said, "we are in de facto war without the formality that precedes the clash of arms. Bear in mind that I will vote for this bill and I am prepared to vote for war when the President exercises the power given in this bill."

He said he hoped war could be avoided and declared himself in favor of conscripting every New York editor who is advocating war in his editorial columns.

Senator Sherman said he opposed the cloture rule because it would be only a question of time if the power of two-thirds to force cloture would be changed so it may be forced by a majority vote. He read extracts from President Wilson's writings declaring that the unlimited debate in the Senate was of great importance to its usefulness as a legislative body.

Senators Too Serious
Senator Hollis, Democrat, of New Hampshire, declared the Senate took itself too seriously. He moved to amend the proposed cloture rule by providing that a majority instead of a two-thirds vote should end debate, but later withdrew the amendment at the suggestion of Senator Smith, of Georgia, one of the five Democratic conferees who framed the proposed rule.

Resolution Placing Senate on Record on Armament is Prepared

By Associated Press
Washington, March 8.—Senator Lewis, Democratic whip, will introduce a resolution declaring it to be the sense of the Senate that the President "by virtue of the power of his office" has the right to protect commerce to foreign nations equally with commerce between the States.

The resolution is not considered to have effect except as an expression of the sentiment of the Senate if it is adopted.

The resolution further declares the President's authority is not related to the power to declare war, but is derived from his right as head civil officer of the federal government to execute the laws fostering commerce.

CENTRAL SENIOR ESSAYS

EXHIBIT GAINS WIDE ATTENTION

Social Workers and Mental Disorder Specialists at Feeble-minded Show

Governor Brumbaugh opened the Feeble-minded Exhibit this afternoon at 4 o'clock, addressing a large gathering composed of prominent social workers, educators, the clergy and specialists in treatment of mental disorders.

The exhibit, which will be held during the next ten days in the Hunter building, 206 Walnut street, is the object lesson staged by the Public Charities Association of Pennsylvania in its campaign to arouse the people and the government of the State to the importance of making adequate provision for the feeble-minded.

Mrs. Edward W. Biddle, president of the Philadelphia Civic Club, and Mrs. Charles Frazier, wife of the president of the State Board of Charities, spoke at the meeting this afternoon. City Commissioner E. Z. Gross presided at the session. To-night at 8 o'clock, Kenneth M. Pray, of the Public Charities Association of Pennsylvania, will speak at the opening session of the Social Workers Club of Dauphin County, which will be held in the exhibit room.

The ten exhibits comprising the exhibit give a vivid and comprehensive view of the various aspects of the feeble-minded problem.

Teuton Plot to Invade India is Being Probed By Federal Grand Jury

New York, March 8.—The federal grand jury to-day began an investigation of the alleged German conspiracy in this country to cause a revolt against British rule in India. Dr. Ernest Sekunna, a German chemist, and Dr. Chandre Chakraderty, a Hindu physician, arrested here Tuesday on charges of violating the neutrality laws are accused of participating in this plot, but the authorities say they expect to trace the ramifications of the conspiracy to others of greater prominence.

The jury had before it all the papers which were confiscated by the government when Wolf von Igel was indicted for an alleged attempt to blow up the Welland canal. Von Igel was permitted to sail with Count Von Bernstorff on the Frederick VIII. The federal authorities say that the names of Sekunna and Chakraderty appear frequently in these papers and that the latter a year ago made a trip to Germany and brought back a letter from Dr. Alfred Zimmermann, the German foreign minister, addressed to von Igel.

The federal district attorney and his assistants have been somewhat mystified by many references in the von Igel papers to "omin," a nerve medicine which Dr. Chakraderty says he compounded and sold in the Orient. They are trying to find also the reasons behind the purchase by Sekunna of a 200-acre tract in the hills back of Fishkill, up the Hudson river. The land occupied an isolated situation, about 1,200 feet high. Sekunna, it has just been learned, bought it only a few days ago.
