

**TO SPEAK ON CHINESE**  
 In a lecture to be delivered by Dr. Edgar Shields, of Szechuan Province, China, at the Paxton Presbyterian Church next Sunday evening, an opportunity will be afforded to get a glimpse of the country of western China and Tibet, and of the every-day life and customs of the inhabitants. Dr. Shields has been in this far-away and little-known land for seven years, working under the Foreign Board of the Baptist church as a medical missionary, and has unusual opportunities to observe and study the conditions and life of the people. The lecture will be

illustrated with a large number of lantern slides. At present Dr. Shields is on furlough and is spending some of his vacation at Lewistown, Pa.

**Stars and Stripes to Fly From Steeple of Church**  
 Pittsburgh, March 8.—Trinity Methodist Episcopal Church, North Side, is to have the distinction of flying an American flag from its steeple. The flag will remain permanently on the steeple, which each night will be bathed in a flood of light.  
 The church is so situated that the flag can be observed from nearly every point on the North Side. The pastor believes his church will be the only house of worship in the country to have an American flag fly from its steeple. He declared displaying the flag had no reference to the crisis with Germany, the sole purpose being to create among all churchmen a deeper and more abiding love for the national emblem.

**KNOX SAYS WILSON CAN ARM SHIPS**  
 Pennsylvania Senator Reviews Legal Aspects of Submarine Situation  
 Washington, D. C., March 8.—"I have not the slightest doubt that President Wilson has the power under the Constitution to arm American merchant ships for defensive purposes," said Senator Philander C. Knox yesterday. "The government is not rendered 'helpless and contemptible.' The President has ample authority to arm these merchant ships, and there need be no concern about the pirate laws of 1815 interfering.

**CLERK'S RECOVERY ASTONISHES HARRISBURG**  
 Harrisburg people will marvel at this clerk's recovery. His stomach was so bad he could eat very little. Everything fermented and soured. Had stomach cough. Doctor advised buckthorn bark, glycerine, etc., as mixed in Adler-I-ka. **ONE SPOON-FUL** helped him INSTANTLY. Because Adler-I-ka empties BOTH large and small intestine it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has **QUICKEST** action of anything we ever sold. H. C. Kennedy, Druggist, 321 Market street.

"If the President has the authority to supply arms to merchant ships as he himself said he has, and as I believe he has, Congress could enact no law that would curtail that authority. The constitutional right of the President cannot be infringed by a statute."  
 This succinct statement of his views from a man who has served as Attorney General under two Presidents, as Secretary of State under Taft and during five years of previous service in the United States Senate has a part in much important legislation seems to help clarify the situation.  
 "The suggestion that the commander-in-chief of the army and navy has not the authority under the Constitution to protect American ships and American lives appears to me to be unworthy of argument," he said.  
 "There is no question about that authority. The fact that Congress has enacted certain laws which appear to conflict with that grant of power may be brushed aside as unimportant. We know that Congress cannot limit the constitutional power of the President, and that is all we know. The President is entirely justified in proceeding to arm the ships as he originally proposed."  
 Senator Knox is in favor of the adoption of the cloture rule as agreed upon by the committee representing the Republican and Democratic caucuses; the amendment to the new rule which prohibits amendments to a pending bill after cloture has been invoked applies to him as fair and a proper means of preventing further filibustering after deciding to bring the main question to a vote.  
 "I will support the new rule," said Senator Knox. "I understand it has been agreed to by both Republicans and Democrats and there seems to be a very decided sentiment in favor of providing some way of closing debate in the Senate. This is the same rule as proposed by the Senate Rules Committee last Fall and I think it will commend itself to all Senators. I do not anticipate any filibuster against its adoption, since, with the entire summer before us, a filibuster would have a hard time surviving."

**HIST! OLD NICK SENT ME; HERE'S MY NECKTIE**  
 [Continued From First Page]  
 proceeded forthwith to unlimber his tongue and upon that subject. To him we would tell our story, leaving out everything that might give him knowledge as to who we were and what our connections.  
 On Thursday morning at 10 o'clock we (four of us) agreed to the stunt) should meet in New York at a given place and the one who had the most money in his pocket was to be the winner and the one with the least amount of money must treat the crowd to a big blow-out.  
 Gets Much Fun Out of It  
 "Baltimore was a two-day stay and New York my second. At the latter place a middle-aged lawyer received my message through his stenographer, who told him that I was just there on a social call. As busy as he was, he received me cordially and after learning the game sent his assistant out to rummage in the cash drawer. I have missed several meals but the fun of watching the effect of the series of unusual visits on the one man in each city upon whom we call is an intensely interesting study in psychology."  
 A piece of pie is made warmed the stranger to greater confidences and it leaked out that the four who were on their way to New York were two staff members of the New York Tribune, one minister and one bond salesman. Harvard, Williams, Kenyon, and were the four universities represented. All four are preparedness advocates, the minister having attended the naval cruise for civilians last summer and the other three being lieutenants in the Reserve Officers' Corps of the United States Army. One is a former football captain, Williams 1914, another a former editor on the Harvard Crimson, and all full of the novelty of the adventure and delighted with the reception given wherever they happened to land.

**York County Cases are Appealed for Pardon**  
 Application was filed to-day for pardon of four of the Italians convicted in York county a few years ago on the charge of throwing explosives, writing blackmail letters and intimidation and the case will be heard on March 21. The men are Joe Catalano, Dominick Campanello, Salvatore Di Stefano and Joseph Campanello, the latter rejoicing in the alias of Lew Dumb. It is contended that the sentences of 5 to 10 years were excessive in view of the circumstances of the case.  
 Another York case filed to-day was in behalf of a pardon for Stewart Chilson, who held up William Murphy and his mother near Williams Grove as they were returning from Harrisburg markets and took \$65. He claims that his sentence of five to eight years, dating from August 18, 1915, was too great and that he has been a model prisoner.

**Ship Builders Agree on Daniels' Plan to Get New U.S. Navy Under Way**  
 By Associated Press  
 Washington, March 8.—American ship builders engaged on government work entered into an agreement with Secretary Daniels yesterday to accept new contracts at a flat rate of ten per cent net profit and pledged cooperation to the fullest extent of their ability in rushing to completion of the navy's construction program.

**FIVE-MINUTE TALKS**  
**Offers Self, 21 Children to Wilson For War Duty**  
 Clearfield, Pa., March 8.—Theodore Roosevelt, who offered himself and four sons to his country in the event of war, does not compete with William Albright, 65 years old, a prominent farmer of Boggs township, this county.  
 Mr. Boggs has fourteen sons and himself for army services, he says, and seven daughters for the Red Cross. He has offered their services and his own to President Wilson in case of war. A fifteenth son was killed in an automobile accident at Dubois last fall.  
 The mother of the children is aged 65 years. The Albright home is eight miles from Clearfield. The oldest child is 40 years old.  
**Altoona Violin Has Been Through Three U. S. Wars**  
 Altoona, March 8.—The imminence of war between the United States and Germany has resulted in William Kaylor, a street sweeper, placing on exhibition his violin with a real war record.  
 The instrument was made by Jacques Boquay, in Paris, in 1776, and was carried by Kaylor's grandfather in General Washington's army during the Revolutionary war. Kaylor's father carried it with him in the war of 1812, and a brother played it through the Mexican war. William Kaylor enlisted in Governor Curtin's famous reserve corps, and when he marched South the violin went with him.  
**HOME RULE FOR PART OF ERIN**  
 London, March 8.—During a bitter debate in the house of commons late yesterday Premier Lloyd George declared the government is willing to give immediate home rule to the parts of Ireland demanding it. At the same time he insisted that no attempt will be made to force home rule on Ulster.

**Pronounced Dead, He Comes Back to Life**  
 Memphis, Tenn., March 8.—After having been pronounced dead at a hospital where he had been rushed after being overcome by smoke and fire, Captain Thomas Meredith's body was turned over to an undertaker. The undertaker put the body in the "black room" of his parlors.  
 An attendant thought he observed a spark of life while preparations for embalming were being made. A pulmotor was applied and the dead captain "came back to life."

**How to Be Rid of Disgusting Dandruff**  
 The only way to get rid of disgusting, untidy dandruff is to correct its cause. Shampooing merely cleanses the scalp for a few days then the scales form again as thick as ever.  
 To destroy the dandruff germ and get rid of the dandruff for good, part the hair and apply a little of the genuine Parisian Sage directly on the bare scalp and rub it in with the finger tips until absorbed. You will surely be amazed at the result of even one application, for your hair and scalp will look and feel 100 per cent better.  
 Only a few days' massage with Parisian Sage should be needed to destroy the germs that cause the dandruff to form. The scalp becomes healthy, the hair will grow better and show more life and vitality and you should no longer be troubled by dandruff. Faded, dull or lifeless hair is quickly restored to beauty by this simple process, which is absolutely harmless and will not stain the hair or make it greasy.  
 Parisian Sage can be obtained from H. C. Kennedy and druggists everywhere. It is not expensive.

**DR. J. N. HURTY**  
 Richard D. Kathrens, of Kansas City, is known as one of the most virile writers in the West. Some time ago he created quite a sensation on 'Let's Civilize Marriage Laws.'  
 He is deeply interested in the Chinese problem and in speaking on the questions involved says:  
 "Measured by a military yardstick, China seems to be somewhat outclassed by her Christian rivals, but let's have another look at China: Its statesmen and scholars have ever stood at the forefront with the greatest of the earth. Much of our Western wisdom is but the borrowed and revamped learning of old China. Our much preached, but little practiced, Golden Rule—the very soul of moral life—came to us from Confucian sources.  
 "And take another look at China, my munition-busting friends; let me point you a perspective of this wonderful nation that evidently has never come within range of your observation. For more than 4,000 years China has preserved her geographical integrity practically unchanged, and without a gun!

**Three Generations of Women**  
 The young women of this generation, their mothers and grandmothers have proved from actual experience that Lydia E. Pinkham's Vegetable Compound overcomes the suffering caused by female ills and restores them to a healthy condition. This famous medicine contains no narcotics or habit-forming drugs—but is made from medicinal roots and herbs, nature's remedy for disease. If you are suffering from any form of female ills, it will pay you to give it a trial.

**CHILD SCALDED WHEN VAPORIZING LAMP BOILS OVER**  
 Mother of Babe Out of Room But a Few Minutes.  
 "Baby died this morning. Had been suffering from croup—Vapor Lamp out of it was obtained and used for several hours in an effort to relieve its sufferings. While the mother was absent from the room but for a few minutes, the outfit boiled over and scalding hot water poured over the infant."  
 The above news item appeared in a Rochester, N. Y., paper of recent date. Had the mother known of a preparation called "Porkola," one of the famous Baco's specialties, the child's sufferings might easily have been relieved without any danger whatever. Mothers are strongly advised to get a supply from any first-class druggist. Keep it handy for Croup and Croupy Coughs, Whooping Coughs and All Throat and Chest ailments that the little ones are so subject to. Doctors prescribe and hospitals use Baco's Famous "Porkola," while every druggist in the country guarantees it. Get a Jar today. H. C. Kennedy can supply you.—Adv.
