NEW INDUSTRIES TO PAY OFF WAR BONDS IN ITALY

Kingdom Said to Be Much Richer Than Strangers

Give Credit For

By Associated Press

Rome, March 8.—Italy will be able to redeem her war bonds to the last lire through the earnings of the new industrial enterprises developed by the war, according to Minister of State Luigi Luzzatti, Italy's best known financier. To a correspondent of The Associated Press he said:

"Italy is far richer than strangers give her credit for. It is a striking fact that we have surprised ourselves during the struggles of this war. In time of danger we have discovered capacities which have astonished us, particularly in our industries. We have now operating more than 2,000 factories for war materials, employing about a half million workers. Americans know how saving are the Italians to go to them. Therefore it may not astonish them to know that in wartime our savings banks are actually increasing their deposits, despite the heavy popular subscriptions to our war loans.

Always Pays Debts

"Among all the new nations, this I wish to declare: Italy in the past has always been the best payer of her debts, punctually; no one more than we have a stricter idea of the day of payment, the keeping of which constitutes the financial honor of a people, an honor which should be as unshaken as that of its military or political honor.

"All the foreign governments that extended us faith and credit when we were Piedmont and later when we were United Italy have been satisfied. We sold them our loans far below par, thereby giving high rates of interest and other profits; afterwards, we were happily able to take up our loans at face value and when our bank bills were the equal of gold money values in every country, even that of the American dollar. We had no difficulty in converting the national bonds to the value of \$1,600,000,000, or \$8,000,000,000 lire.

"In July, 1914, Italian money was quoted at par in New York. The sorrows and hazards of the war came, and to-day our money has depreciated thereby more than thirty per cent.

"Already there are nations seeking to occupy the place in Italy held before the war by Germany. Among these are said to be the United States. We welcome commercial relations

with the United States. We are already a large buyer of her goods. But if the United States wishes to trade with us, would it not be better to show her interest substantially?

"Undoubtedly we are suffering from the old time-worn system of international exchange which permits of fortunes being made through speculation. What we need and what the world needs is an international system of compensation which I have proposed many times, the latest time being at Paris last year, the operation of which would be a great peaceful bond sustained by honest, reciprocal interests.

"Europe just now has too much paper money while the United States has too much gold. The United States not only should, but will have to, restore the gold to the countries which suffer from the lack of it, and the sooner she restores it the sooner will she ameliorate the crisis which always comes to a country too rich in gold.

PLAN MONUMENT

Merida, Yucatan, March 8. — General Salvador Alvarado, governor of this State, has directed a letter to the governors of the other States proposing that all shall join in the erection of a monument on the Isla de Mujeres (Isle of Women) to commemorate the discovery of Mexico by Don Francisco Hernandez de Cordova, March 1, 1517. The island lies in latitude 21 degrees, 14 minutes north and longitude 12 degrees, 10 minutes east. Mexico meridian off the east coast of Yucatan and gained its name because on landing Hernandez de Cordova saw long lines of women in skirts worshipping a goddess of whose temple they evidently were priestesses. General Alvarado announced that as it would be impossible to erect a suitable monument this year on the four hundredth anniversary of discovery, he intended to place on the spot of landing a suitable tablet which would mark it until the larger monument could be placed there.

JAPAN SEEKS TO GAIN ECONOMIC VICTORY IN CHINA

Chinese Newspapers Hostile to Financial Arrangements Made by Neighbors

Peking, March 8.—Chinese newspapers are devoting much space to discussion of the apparent change in Japan's attitude towards China. Papers of all parties and factions share the opinion that Japan has abandoned, at least temporarily, all thought of physical conquest of China, and is devoting itself to an economic conquest. Japan's attitude towards the new American enterprises in China and the renewed efforts of Japanese bankers to increase their influence more thoroughly through loans of various sorts are widely discussed in the Chinese press as well as in parliament. The following statement from the Peking Daily News is representative of the view generally taken by the Chinese press: "At Tokio the belief prevails that Japan will continue her endeavor to increase her political influence in China. The Japanese business men are continually clamoring for a political ascendancy that will not be so abrupt as to endanger peace. What they want is a thorough economic conquest of the neighboring republic.

"The readiness with which the Chinese recently granted American capitalists the concession to build a long railroad and their hesitation in making contracts with the Japanese have awakened the Japanese to the fact that ascendancy in China, to be

successful, must be accompanied by some measure of trust and confidence. The Japanese have tricked the Chinese so many times that the Chinese have lost all confidence in their neighbors, both politically and commercially.

"The situation as it stands between the United States, China and Japan is in its infancy, but it is growing daily and will have to be taken into consideration soon.

Chinese papers throughout the republic show hostility to any financial arrangement in which Japan has a hand. There is a general disposition to discourage joint action between any group of foreign powers and China, if Japan be included in the group. Chinese newspapers are practically unanimous in their expression of the hope that American bankers will invest large sums in the development of China without co-operation with foreign powers. The United States is heralded as the one country which has dealt fairly with China, and has no desire to acquire Chinese territory and exercise undue political pressure on China through financial channels.

How's This?

We offer One Hundred Dollars Reward for any Catearrh that cannot be cured by Hall's Catearrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by him.

For Skin Blistches

There is one remedy that seldom fails to clear away all pimples, blotches and other skin eruptions and that makes the skin soft, clear and healthy.

Any druggist can supply you with zemo, which generally overcomes all skin diseases. Acne, eczema, itch, pimples, rashes, black heads in most cases give way to zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 25c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.
