

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

Look, Mother! Is tongue coated, breath feverish and stomach sour?

"California Syrup of Figs" can't harm tender stomach, liver, bowels.

A laxative to-day saves a sick child to-morrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

POSLAM HEALS WORST ITCHING SKIN HUMORS

What is it worth to you to be entirely rid of that distressing skin trouble? To drive away those pimples? To have a fair, clear, skin again; to secure permanent relief from that aggravating, itching Eczema?

It should be worth the very little trouble merely to obtain and try Poslam. That is your safe remedy because it carries a healing power intense, active, quick to assert its control over distressed skin.

Sold everywhere. For free sample write to Emergency Laboratories, 243-5 West 47th St., New York City.

Urge your skin to become clearer, brighter, better by the daily use of Poslam Soap, medicated with Poslam.

A DAGGER IN THE BACK

That's the woman's dread when she gets up in the morning to start the day's work. "Oh! how my back aches."

GOLD MEDAL Haarlem Oil Capsules taken ten or fifteen every day ends the backache for all time. Don't delay. What's the use of suffering? Begin taking GOLD MEDAL Haarlem Oil Capsules to-day and be relieved to-morrow. Take three or four every day and be permanently free from wrenching, distressing back pain. But be sure to get GOLD MEDAL Haarlem Oil Capsules. Since 1896 GOLD MEDAL Haarlem Oil Capsules, the National Remedy of Holland, the Government of the Netherlands having granted a special charter authorizing its preparation and sale. The housewife of Holland would almost as soon be without bread as she would without her "real Dutch Drops" as she quaintly calls GOLD MEDAL Haarlem Oil Capsules. This is the one reason why you will find the women and children of Holland so sturdy and robust.

GOLD MEDAL Haarlem Oil Capsules, original Haarlem Oil Capsules imported direct from the laboratories in Haarlem, Holland. But be sure to get GOLD MEDAL. Look for the name on every box. Sold by reliable druggists in sealed packages at 50c, 50c and \$1.00. Money refunded if they do not help you. Accept only the GOLD MEDAL. All others are imitations.—Advertisement.

COAL RATE CASE DON'T APPLY HERE

Harrisburg Is Governed by Separate Propositions Say People at Capitol

In spite of many beliefs to the contrary the anthracite rate case which is now before the Public Service Commission for final action, after appeals pending in the Dauphin county court are withdrawn, does not apply to Harrisburg. The case was brought primarily against the rates for hauling coal between the anthracite region and Philadelphia and naturally governed the immediate vicinity of that city. The impression has gained ground that it applied to all rates for hauling coal.

At the Capitol it was learned to-day that the rates between the coal fields and Harrisburg and its surrounding towns were a different proposition and that they would have to be taken up as a separate proposition if any relief is sought. Harrisburg lies close to the Lykens valley region, which produces some of the best coal in the land, but the bulk of the coal sold here is from away up in Luzerne or Schuylkill counties and Lykens coal goes through Harrisburg but does not carry to any extent.

The commission will hardly act on approval of the proposition to settle the Philadelphia rate cases until Monday at latest.

To Discuss Paintings—The Board of Public Grounds and Buildings will meet next Tuesday when the decorations for the north corridor of the Capitol will be discussed and a program mapped out.

Will Follow Up—John Campbell, who resides on the West Shore and filed a complaint against the Riverton Consolidated Water Company's service has given notice of intention to follow up his complaint before the Public Service Commission.

List Is Closed—The State Board of Pardons has closed its list for the meeting of March 21. No more cases will be listed.

Appeal Dismissed—The State Compensation Board in a series of decisions announced to-day affirmed referees and dismissed appeals on the ground that all matters complained of had been fully decided by referees. The decisions included cases of Ward vs. Allegheny county; Blumkin vs. Milgraw, Philadelphia; Picone vs. Erie Malleable Iron Company, in which the referee refused to allow compensation; Olenik vs. American Bridge Company, in which there was a finding against the claimant, and Frank Baker, Greenville, vs. State Insurance Fund, in which a review was refused.

To Take Up Repealers—All of the repealers of obsolete laws which passed the house last week will be brought to the Senate for action when it meets on Monday night. The repealer of certain labor laws, which was postponed, will likely be taken up next week if inquiry into its effect is completed.

Clearing the Books—A series of quo warranto actions will be taken by the attorney general's department this month to clear the State's books of corporations which have not been operating in the last five or six years. In addition, suits against inactive corporations which have not been paying their taxes will be started.

Money Rolling In—The State revenue has been at the rate of a couple of hundred thousand dollars a day this week and the cash balance is now on its annual upward movement. The State always has a lot of money at this time of the year and in the fall when the receiving period is almost over there is a decline which gives a chance for "knockers" to bawl over house-keeping methods. The State suffers from what might be termed "seasonal revenue" and the fiscal officers have their hands full to keep the funds spread out.

Back Survey Bill.—The \$100,000 bill for the geological and topographical survey was given endorsement at a meeting at the Engineers club last night.

Mr. Brown in Philadelphia.—Attorney General Brown is in Philadelphia in conference with lawyers in the Thaw case and will return here on Monday when he will discuss the mine cave proposition.

141,000 Western Union, Postal Telegraph and Bell Men Are Available

Employees of the Western Union Telegraph Company and the Western Electric Company with the Bell Telephone Company men will be included in the new signal corps to be formed as part of the Citizens' Reserve Corps, plans for which are now under consideration in Washington. The announcement was made this morning. The Bell System made the announcement yesterday and the other companies followed.

There is a possibility that the Postal Telegraph Company will fall in line later, although no official announcement has been made.

Gus Catherman, local manager of the Western Union, has not been notified of the action and stated this morning that it is not likely men will be drawn from smaller cities unless the situation becomes very serious.

"I am in favor of the project and think every patriotic citizen should offer his services to the government in times of war," he said.

Manager Clark Diehl, of the Postal Telegraph Company, here, when asked as to whether his company had issued any statement concerning the signal corps project, stated that he had not received any such information, but that he thought the Postal Telegraph Company would fall in line with the others should the occasion demand.

About 12,000 expert telegraphers are employed by the Western Union and 49,000 expert electricians are available for service from the Western Electric Company. These added to 80,000 employees of the telephone companies throughout the United States, will give the government an opportunity to select men best qualified for the most complete signal corps ever organized.

1,500,000 Acres of Land Opened to Homesteaders

Washington, March 9.—More than a million and a half acres of land, mostly non-irrigable, were designated under the enlarged homestead act in February, Secretary Lane announced to-day. Under this act entrymen may acquire a homestead of 320 acres of land. The states, with the approximate number of acres designated in each, are as follows: Arizona, 22,500; Colorado, 249,000; Idaho, 27,700; Kansas, 13,000; Montana, 185,700; New Mexico, 461,800; and North Dakota, 541,500 acres.

Governor Whitman Wants War Census of Men

Albany, N. Y., March 9.—In a formal statement issued to-day Governor Whitman announced that if the Legislature passes the pending bill calling for a war census of the men, wealth and industries of the state, he will sign it. The statement says: "The census and inventory of resources of the state available for use in the event of war would include the women available for service as well as the men, money, the industrial and material resources of the state, munitions and military supplies manufactured or procurable within the state. Military strength depends upon the organization and utilization of such resources. A knowledge of such assets available for use in the event of war would be of undoubted advantage to the Federal and State authorities."

ment indicate that creamery butter held in cold storage March 1 was 3 per cent less than a year ago. Holdings of 14,882,975 pounds were reported by 215 storage houses. The indicated decrease during February was 48.1 per cent, compared with a decrease of 50.4 per cent during February, 1916.

REDUCE STOCK OF BUTTER

Washington, March 9.—Statistics compiled by the agricultural department indicate that creamery butter held in cold storage March 1 was 3 per cent less than a year ago. Holdings of 14,882,975 pounds were reported by 215 storage houses. The indicated decrease during February was 48.1 per cent, compared with a decrease of 50.4 per cent during February, 1916.

DOCTOR SENT TO JAIL Lancaster, Pa., March 9.—Dr. D. Frank Kline, a practicing physician here, was taken to the Eastern Penitentiary yesterday to serve six years for malpractice in causing the death of young Annie Spence. The case caused considerable excitement to-day. When the Supreme Court decision came affirming Kline's conviction he was arrested by the sheriff and subsequently released under \$2,000 bail pending the arrival of Supreme Court papers in spite of the District Attorney's protest.

TO HOLD CUBAN ELECTION Havana, March 9.—President Menocal issued a proclamation last night stating that within ten days after the re-establishment of legal government in Santiago de Cuba he will direct the holding of elections in Oriente province. The present proclamation promises that every guarantee for free voting will be observed.

REFUSE TO WORK Falling to reach an agreement with foundry department heads at the local steel plant yesterday morning, fifty molders walked out. The dispute arose over a price in peace-work. In the afternoon a committee of workmen held a conference with Quincy Bent, manager of the plant, and adjusted the difference. The men returned to work this morning.
