# PLAN MOBILIZATION **OF NAVY FORCES TO FULL STRENGTH**

Immediate Graduation of the First Class at Annapolis Included in Scheme to Provide Sufficient Number of Officers For American Sea Fighting Machine

# **WOULD ASSEMBLE ALL RESERVES** AS WELL AS MILITIA FOR SERVICE

President Is Urged to Authorize an Active Recruiting Campaign to Bring the Ranks of Enlisted Men Up to the Requirements War Would Make Necessary.

By Associated Press Washington, March 12.-Mobilization of the complete fighting strength of the navy has been recommended by naval officials. The approval of President Wilson is required before orders can be sent calling out the reserves, assembling the naval militia and releasing all active officers now on shore duty for sea service.

Immediate graduation of the first-class at Annapolis would be included in the plan in order to make up, as far as possible, the threatened shortage of officers.

In addition to mobilization of forces already enrolled in the militia or reserve, an active recruiting campaign would be necessary to supply all ships of military value with full complements. Officials believe they would have little difficulty in obtaining the men if mobilization were ordered

By Associated Press London, March 12.—According to a new classification of eggs just adopt-ed by the wholesale trade here eggs will henceforth be sold with directions "These eggs not to be bolled" or "These eggs guaranteed to boll." The unusual label is due to the im-portation of eggs from distant parts, some of the importations being dip-ped in a chemical solution to preserve them, which makes them airtight and causes them to explode if put into hot water.

other neutral governments will admit American armed ships to their ports is a question for them to decide but it is not expected here that objections will be made. Holland is the only neutral known to have barred armed merchantmen from her harbors. State Department officials did not wish to make it clear whether it was mandatory for all American vessels to have arms or whether they might sail without them if they so desire. The Navy Department's position is that it will equip with arms all ships whose owners apply to it.
