Beauty Specialist Endorses Tanlac

Mrs. Hoeffcker Tells How Master Medicine Helped Her Win Back Health

HER PRAISE ENTHUSIASTIC

"If I could meet every nervous, run down, headachy man and woman and tell them personally what Tanlac has done for me, I would do it willingly.

"My eyes were lusterless, my skin was jaundiced and I was losing weight so fast that all my friends were afraid I was in a decline. I could not eat with any satisfaction and could only sleep in short snatches; in fact I was only a shadow of my former self."

"But as soon as I began taking Tanlac I noticed an improvement. I began to have an appetite and soon I could sleep soundly for eight or nine hours and wake up fresh and rested."

"My eyes soon brightened up, I began to regain my lost weight and I now feel as well or better than at any time in my life. Just to show what Tanlac has done for me, I can now eat cabbage and kraut and enjoy it, whereas a short time ago it would have been suicide."

CHILD GETS SICK, CROSS, FEVERISH IF CONSTIPATED

Look at tongue! Then give fruit laxative for stomach, liver, bowels.

"California Syrup of Figs" can't harm children and they love it.

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign the little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's ills; give a teaspoonful, and in a few hours all the foul waste, sour bile and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious fruit laxative, and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages and grown-ups are plainly on the bottle.

DIG IN RUINS OF HOMES FOR DEAD — [Continued From First Page] least a million dollars. Four are known to have been killed in the country districts nearby. Three persons were killed in the suburbs of Cincinnati.

New Castle, Ind., March 12.—The death list from the tornado which swept New Castle yesterday afternoon was 23 early to-day and searchers were still digging in the ruins for other victims. A score or more persons were reported to be missing, while the hospitals were crowded with several hundred patients suffering from more or less serious injuries.

According to the best estimate obtainable the property damage will reach at least \$1,000,000. One hundred homes were demolished and approximately one thousand damaged. Early to-day it was apparent that a complete list of the dead and injured, and the extent of the property damage could not be compiled for several days.

The tornado struck the city from the west after leveling the rolling hills of Blue River Valley. It swept through the entire width of the city from Sixth to Twenty-fifth streets. The first homes in the path of the twister were torn to shreds. The wind apparently raised slightly, taking the roofs from the houses from Tenth to Twentieth streets, where it again dipped, sweeping practically every house before it to Twenty-fifth street. The greatest damage was done in the south part of the city where a great many of the factory employes reside and several thousand were homeless throughout the night. Two hundred special officers were sworn in by Mayor Watkins and a district patrol of the affected districts was maintained.

Tornado Cuts Wide Path — The death loss was all in the southeastern part of the city where the wind apparently struck low. One fire occurred, M. M. Mintch, losing his drug store and later his home as the result of the fire.

The tornado cut a path from 300 to 500 feet in width through the city for a distance of 18 blocks. It entered the city near the southwest boundary line and worked its way in a zigzag manner north for two blocks and then east. It turned south near the eastern limits and left the city in a southeasterly direction.

Most of the dead were taken from homes that were completely demolished. Many persons escaped injury by rushing into cellars as the storm struck the city. On a number of streets every house in one section was leveled to the ground and one block every second house was wrecked and the other homes escaped untouched. Entire roofs were torn from houses and carried for squares and one house was picked up and carried a half square and set down again practically unharmed.

Nearby Towns Suffer — Many persons were away from home at the time of the storm and it was declared that if it had not been for his list of names, probably have reached several hundred.

Communication with nearby villages was broken off, but reports from persons coming into New Castle in automobiles were that at least seven persons had been killed in the vicinity. It was reported there had been killed at New Lisbon; three at Mooreland and three at Mount Summit.

The entire city has responded to Mayor Watkins' call for assistance. Hotels, lodges and private homes and farm houses have been thrown open to the homeless. No church services were held last night and all of the churches were opened to care for the unfortunate.

Three Dead in Wake of Cincinnati Storm — Cincinnati, Ohio, March 12.—The death list resulting from the cyclonic windstorm that leveled numerous houses in Hyde Park, in the east end of this city, last night, had not increased to-day. Three people, two men and a boy, are dead, while hospital authorities are working to save the lives of four others who are known to be dangerously injured.

Communications with nearby villages was broken off, but reports from persons coming into New Castle in automobiles were that at least seven persons had been killed in the vicinity. It was reported there had been killed at New Lisbon; three at Mooreland and three at Mount Summit.

The entire city has responded to Mayor Watkins' call for assistance. Hotels, lodges and private homes and farm houses have been thrown open to the homeless. No church services were held last night and all of the churches were opened to care for the unfortunate.

Three Dead in Wake of Cincinnati Storm — Cincinnati, Ohio, March 12.—The death list resulting from the cyclonic windstorm that leveled numerous houses in Hyde Park, in the east end of this city, last night, had not increased to-day. Three people, two men and a boy, are dead, while hospital authorities are working to save the lives of four others who are known to be dangerously injured.

No estimate of the property damage has been placed early to-day. More than 20 houses were either completely leveled to the ground or damaged to such an extent as to make them uninhabitable. The rescue work was efficient, however, and all of the homeless are being well taken care of by neighbors.

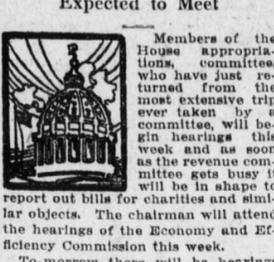

Tornado Kills Four in County District — Richmond, Ind., March 12.—The death toll of yesterday's tornado Wayne county was increased to four early to-day, when it became known that two unidentified laborers on the farm of Clint Millikin, near Hagers-town, had been killed. The two children aged three and five, of Harvey Gray, a farmer of the same neighborhood, were reported killed last night. One Smith, a farmer who was hurled 100 feet through the air, dropping in a pond and sustaining a broken back was not expected to live.

Hagerstown is sixteen miles west of Richmond and the storm that struck there is believed to have been the same one that wrought such havoc at New Castle. The tornado spent its force before reaching Hagerstown, although the wind reached a high velocity and rain fell in torrents.

BLOOD AS A NERVE TONIC — "If people would only attend to their blood, instead of worrying themselves ill," said an eminent nerve specialist, "we doctors would not see our consulting rooms crowded with nervous wrecks. More people suffer from worry than from anything else."

The sort of thing which the specialist spoke of is the nervous run-down condition caused by overwork and the many anxieties of today. Sufferers find themselves tired, morose, low-spirited, unable to keep their mind on anything. Any sudden noise hurts like a blow. They are full of groundless fears and cannot sleep at night.

Doctors of the nerves with poisonous sedatives is a terrible mistake. The only real nerve tonic is a good supply of rich blood. Therefore the treatment for neurasthenia, nervousness, and run-down health is the new rich blood which Dr. Williams' Pink Pills are able to make. The revived appetite, improved spirits and new strength which come after a few days' use of the pills will delight every sufferer.

The free booklet, "Diseases of the Nervous System" will interest you. Write for it today, to the Dr. Williams' Medicine Co., 236 Second Ave., N. Y. Your own druggist sells Dr. Williams' Pink Pills. Price 60 cents per box.
