

NAVY YARD PLOT SAD TO INVOLVE U. S. NEUTRALITY

Smuggling Charge Only Subterfuge to Hold Alleged Principals Within Grasp

MORE ARRESTS EXPECTED

Removal of German Crews From Philadelphia Planned

by Daniels

Philadelphia, March 13. — Further developments in the alleged plot to smuggle chronometers ashore from the German commerce raiders Kronprinz Wilhelm and Prinz Eitel Friedrich, interned at the Philadelphia navy yard, were expected to-day. In addition to the five persons, including one woman, already under arrest as the result of the investigation being conducted by agents of the Department of Justice, it was reported that a number of others would be taken into custody within 24 hours.

Look For Ciphers

The nineteen chronometers said to have been smuggled from the ships and which are believed to be of vital importance to the investigation were sent yesterday to an expert clock-maker for examination. Prior to their delivery they had been treated to an acid bath to ascertain if the dials contained any secret cipher message or to bring out any symbols that might have been traced on their faces in invisible ink. The examination by the clockmaker was ordered by an effort

LABOR UNIONS TO STAND BY NATION

[Continued From First Page]

workers were represented in the conference, called to determine and announce the part to be claimed by labor in national preparedness plans.

Not Militaristic

A statement formally adopted and issued after the meeting set forth in addition to the offer of services in case of war, various demands which were held to be fundamental in safeguarding the rights of workers in war times as well as in peace. Militarism was protested against; it was held that industrial service should be deemed equally meritorious as military service; that service should conform to trade union standards and that organized labor should have representation on all agencies determining and administering policies of national defense and controlling publicity. The concluding paragraph of the statement, pledging labor's support to the nation follows:

"We, the officers of the national and international trade unions of America in national conference assembled in the capital of our nation, hereby pledge ourselves in peace or in war, in stress or in storm, to stand unreservedly by the standards of liberty and the safety and preservation of the institutions and ideals of our republic.

Pledge Their Aid

"In this solemn hour of our nation's life, it is our earnest hope that our republic may be safeguarded in its unswerving desire for peace; that our

New Senator From Adams County Works Hard at First Session

C. W. Bealls, the new Senator from Adams county, was sworn into office last night by Judge S. J. McCarrill, and took his seat at a desk on which were two large baskets of roses.

Senator Bealls was prevented from taking his seat in January because his term as Congressman had not yet expired. He celebrated his advent into the State's upper legislative chamber by introducing a draft of bills calling for making half a dozen Adams county roads part of the State Highway system, providing for the packing of apples and making an appropriation of \$15,000 for the erection of a monument in the public square at Gettysburg. President Pro Tem. Beidleman appointed Mr. Bealls to a number of important committees.

Bill Abolishing Death Penalty Is Held Back

The bill giving authority to county controllers in counties having less than 150,000 population to appoint solicitors at a salary of \$500 was passed by the Senate last night by a vote of 38 to 2. The bill applies to Dauphin county.

At the request of Senator Tompkins, sponsor in the Senate of the bill to abolish the death penalty for murder in the first degree, the bill was laid over for further consideration when it was reached on the third reading calendar.

Bernstorff Reports on Dealings With Mexico

Copenhagen, via London, March 13. —Count Von Bernstorff, dismissed German ambassador to the United States, prepared a statement on Germany's dealings with Mexico after his arrival here. This statement will be forwarded to the Berlin foreign office and if approved will be made public through the Wolff bureau, the official German news agency. It is understood that the statement deals with the way in which Foreign Secretary Zimmermann's instructions to the German minister in Mexico City fell into the hands of the American government.

Needs of Pupils To Be Discussed

[Continued From First Page]

Subjects for round table discussions at the morning session follow:

Should a choice be offered in the eleventh, or in any other grade between a general course in English and specialized courses in English, such as commercial English?

What special attention should be given to the rural pupil upon entering city schools?

In what courses could the time devoted to Algebra be reduced from two to one year?

What questions should be considered worthy of discussion in teachers' meetings?

Is "teaching how to study" an essential part of the daily recitation?

Training in Morality

When should the assignment of the lesson be made? How?

What is an efficient plan for managing athletics?

How much time should be devoted to formal instruction in penmanship in each of the eight grades?

To what school situations involve moral judgment or offer opportunity for training in morality?

The merits of the "Six and Three-Three plan," the "Six-Two-Four plan."

Should the school board offer special salary to teachers attending summer sessions?

How may a teacher judge the efficiency of her work?

What special problems are found in the Continuation School?

What change in method of teaching, and in curriculum of the daily schools may result from experimentation in the Continuation Schools?

Night school—administration and subjects.

Should a school district provide summer schools for its pupils?

Discuss Length of Day

Afternoon:

How should spelling be taught?

To what extent should supervised study replace the recitation?

History requirements for high school courses of study.

Oval English in the schools—method.

The advantages and disadvantages of State uniformity in school records and in courses of study.

The length of the school day. Of the recitation period.

How secure a spirit of "professionalism" among teachers?

Vocational guidance—how much?

What, in what manner?

Is the emphasis placed upon "vocational courses" at this time justifiable?

Outside of the centers of population, what can be done for pupils that have active tuberculosis?

What is the most effective way of using the blackboard during a recitation in Geometry?

How prevent first year high school pupils from leaving school?

What is accomplished by medical inspection in your district?

What are the purposes of periodical tests?

The use and abuse of notebooks.

What new plans or methods have been used in your schools in order to solve local educational problems?

Method of teaching "originals" in Geometry.

What should be the extent of individual laboratory work in General Science?

The teaching of English Classics. Is it better to have a definite number of days in each week for theme writing and a certain number of days for the study of classics; or should the classics be taught continuously until finished?

MANY TO JOIN LADIES' NEST

The Harrisburg Ladies' Nest, No. 1320, Order of Owls, will take in a large class of new members at its next meeting at Cameron Hall Thursday evening. Special efforts are being made by the organizers and members to raise the membership to two hundred before the charter closes at the end of the present month, and very indication points to the success of the campaign.

The local Ladies' Nest is conducted on similar lines to the men's but holds its charter direct from the Home Nest.

Coughs, Colds and Grip

Are symptoms of a weakness that is shown by inflamed membranes. Peruna helps clear away the waste, restores the appetite, aids digestion, and builds up the strength. Then the new, rich blood removes the inflammation, restores the tone of the membranes, and the cold is gone.

As a tonic following severe colds or influenza it will be found a valuable aid to complete recovery.

In cases of chronic catarrh its regular administration has restored thousands to health.

A few doses at the first symptom of cold—the depression that always starts it—will ward off suffering.

Forty-four Years of Success

Have made Peruna foremost in the preparedness of the American home to meet the ills of the body. Your home might be the better by using Peruna. Tablet or Liquid Form.

Manalin Tablets.

Manalin Tablets are a new form of a time tested laxative. They are delicious to use, safe and effective, restoring action to the bowels and arousing the liver.

By their use the habit of constipation may be overcome.

10 and 25 cents.

Health and How to Have It.

A new book of common sense treatment of many ills, with hints on how to stay well.

Distributed free by druggists, or will be sent direct on application. Read it and profit.

THE PERUNA COMPANY, Columbus, Ohio

Nuxated Iron Should be Used In Every Hospital and Prescribed by Every Physician

Says Dr. Howard James, late of the United States Public Health Service

It quickly enriches the blood, strengthens the nerves and puts most astonishing youthful power and vigor into the veins of both men and women. It often increases the strength and endurance of delicate, nervous, run-down folks 200 per cent. in two weeks' time.

Opinions of Dr. Ferdinand King, New York Medical Author, Dr. T. Alphonus Wallace and other physicians who have tested Nuxated Iron in their own private practice.

In a very interesting and instructive discourse on the great value of plenty of iron in the blood, Dr. Howard James, late of the United States Public Health Service, said:

"A patient of mine remarked to me (after having been on a six weeks' course of Nuxated Iron):

"Say, Doctor, that there stuff is like magic."

"Previous to using Nuxated Iron, I had been prescribing iron in various forms for years, only to meet complaints of discolored teeth, disturbed digestion, tied up, hardened secretions, etc., and I had about reached the conclusion that the only way to supply iron was to get the patient to eat very large quantities of spinach, carrots, and lentils, when I came across Nuxated Iron, elegant, ingenious preparation containing organic iron which has no destructive action on the teeth—no corrosive effect on the stomach, and which is readily assimilated into the blood and quickly makes its presence felt as increased vigor, snap and staying power."

"Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron."

"I have said a hundred times over, organic iron is the greatest of all strength builders. If people would only throw away habit-forming drugs and nauseous concoctions and take simple Nuxated Iron, I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver and heart troubles, etc. The real and true cause which started their disease was nothing more nor less than lack of iron in the blood."

"Thousands of people suffer from iron deficiency and do not know it."

"If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. From my own experience with Nuxated Iron, I feel it is such a valuable remedy that it should be kept in every hospital and prescribed by every physician in this country."

Dr. E. Sauer, a Boston physician, who has studied both in this country and in the great European medical institutions, was asked what he thought of Dr. James' remarks. In reply, he said: "I fully agree with Dr. James. People need iron. There can be no strong, vigorous iron men and beautiful, healthy women without iron. Not long ago a

man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a young boy of 20 and as full of vim and vigor as a young man. In fact, he was not a day over 60, and he was taking his age, he said, in his stride."

Dr. T. Alphonus Wallace, a physician of many years' experience in this country and who has been given many honorary titles in England, was next asked to give an opinion on Nuxated Iron.

Dr. Wallace said:

"I do not make a practice of recommending advertised medical products, but I have found Nuxated Iron so potent in nervous, run-down conditions that I believe all should know of it. The men and women of to-day need more iron in their blood than was the case twenty or thirty years ago. This is because of the demineralized diet which now is served daily in thousands of homes and also because of the demand for greater resistance necessary to offset the greater number of health hazards to be met at every turn."

The next to be consulted was Dr. Ferdinand King, a New York physician and author, who said:

"I heartily concur in all that Dr. James has said only in some respects would go further. Dr. James forgot to mention how foods lose their iron value by improper methods of cooking. In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, degenerated corn meal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods and silly methods of home cooking, by throwing down the waste pipe the water in which our vegetables are cooked is responsible for another grave iron loss. Therefore, if you wish to preserve your youthful vim and vigor to a ripe age, you must supply the iron deficiency in your food by using some form of organic iron—Nuxated Iron, just as you would use salt, when your food has not enough salt."

NOTE—Nuxated Iron which is prescribed and recommended above by physicians in such a great variety of cases is not a patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not upset the stomach; on the contrary, it is a most potent remedy in nearly all forms of indigestion, as well as for nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 200 per cent. or over in four weeks' time provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Croll Keller, G. A. Gorgas, J. Nelson Clark, all good druggists.

Dr. Howard James, late of United States Public Health Service, tells physicians he believes that more Nuxated Iron should be prescribed to meet the great problem of iron deficiency, with its attendant symptoms of weakness, nervousness, lack of vitality, paleness and generally run-down conditions.

WARNS AGAINST USE OF ORDINARY FERRIC IRON

ALIC IRON is commonly taken by most people.

Nuxated Iron had filled him with renewed life. At 30, he was in bad health; at 40 he was careworn and nearly all in—now at 50, after taking Nuxated Iron, a miracle of vitality and his face beaming with the buoyancy of youth."

Dr. A. J. Newman, formerly House Surgeon Jefferson Park Hospital, Chicago, in commenting on the value of Nuxated Iron said: "This remedy has proven through my own test of it to excel any preparation I have ever used for creating red blood, building up the nerves, strengthening the muscles and correcting digestive disorders. The manufacturers are to be congratulated in having given to the public a long felt want, a true tonic supplying iron in an easily digested and assimilated form, a true health builder in every sense of the word."
