Wilkes-Barre, Pa., March 14.—Be- sides saying the costs incidental to taking John Pestina, 16, of Duryea, to the Huntingdon Reformatory, Lu- zerne county has also proved that even the word of an incorrigible boy may be regarded in honor. Pestina offered to go alone to the reformatory and to- lay the County Commissioners were notified of his arrival.

**CUBAN REBELS TO FIGHT WITH FIRE**

**Guerrilla Warfare to Consist of Burning Towns and Looting Homes**

By Associated Press  
Santiago, Cuba, March 14. — Ad- ditional evidence tending to show that the liberals have virtually decided to substitute a campaign of fire and pillage for an organized military movement, is contained in a report of a meeting held yesterday at Songo, the headquarters of Major Rigoberto Fernandez, one of the rebel leaders. Although it is certain that Fer- nandez's lieutenants dissented, he in- sisted, according to reports, that the time had come when his forces must be divided and guerilla warfare begun. He urged the sending of bands bearing torches into every cane growing district, it is said, with instructions to burn, loot and bring desolation. The encounter between the govern- ment forces and liberals that has been anticipated at San Luis has not yet taken place, although there was skir- mishing to-day in which a few men were wounded. The Liberals fell back on Los Caminos, replenishing their supplies from the stores of the mer- chants. Most of these merchants are Spanish and fled to Santiago, protest- ing to their consul.

There are two American steamships Algonquin. The one sunk was re- cently transferred from British regis- try. She was vessel 245 feet long and 40 feet of beam. She was built in 1888 at Glasgow and was owned in New York. She was a single screw steamer and was commanded by Cap- tain A. Nordberg. Among the American citizens on board were William T. Holmes, of Chicago, mate, and Charles Schultz, of Brooklyn, chief engineer. Her own- ers agreed to give the officers a bon- us of fifty per cent. in wages and the crew a bonus of 25 per cent. with the provision that in case the vessel was captured or destroyed the men were to be paid the bonus with their wages until they returned to the United States.

McCaleb and Lewis Kunkel assistant manager. Of the basketball team, Herndon Randall will be manager. Although most of last year's players will have gone, it is expected that there will be a bet- ter team than ever before. Frank Sineman was selected to be the assist- ant baseball manager to William Bruce, who was recently appointed manager. The Skull and Bones Club held a meeting after school yesterday after- noon. There were four boys elected to membership. They were William K. Meyers, Theodore Morganthaler, Donald Wren and Paul Good.

**CENTRAL**  
Classes in Red Cross instruction will begin at the City Library to-mor- row evening, and will be held each Thursday thereafter. Students of Central High are especially urged to be present, as the work is both entertain- ing and instructive. The tryouts for the cast of "H. M. S. Pinafore" are being held among the members of the Senior class, under the direction of the principal. Last evening the following positions were announced for candidates: "Little Buttercup," "Josephine," "The Cap- tain" and "The Bo'sun."

Under the training of Eugene Mil- ler, the track candidates are already showing indications of scholastic su- premacy. Workouts are being held on Wednesdays and Saturdays, start- ing at the Y. M. C. A. The follow- ing candidates are reported: Arthur Baturin, Harvey Baturin, Vance But- ler, Harold Gotshall, Benjamin Hill- gas, Lee Kaufman, John McCaleb, Mellinger McClintock, Charles Mutza- baugh, Seymour Nissley, Wayne Sny- der, Ray Rice, Jay Stoll, George Slot- hower, Hugo Rose, Stanley Perrin and Earl Wolfe. The Blue and Gray students will be out in full force, and, as was stated in chapel yesterday, it will probably be a very interesting sight to watch Tech beat Central.

**ADVERTISING DID IT**  
A tribute to newspaper advertising was paid to-day in the success of the special sale of sugar in Kaufman's Bargain Basement. The small space in the store's advertisement for to-day noted the fact that 500 packages con- taining four pounds each would be offered at a special price beginning this morning at 10 o'clock. Despite the inclement weather, a crowd began to form long before the hour set for starting the sale, and from the time the selling started a steady stream of purchasers kept the sales clerks busy. It took just two and one- half hours to sell the 500 packages, an average of more than three a minute being disposed of.

**Circulars Pointing Out Importance of Education to Be Distributed**

Within the next few days, every boy and girl in public schools in the city will be given a circular pointing out the importance and value to take home to parents of better education. Arrangements for the printing and distribution of these circulars were made by the late Samuel Kunkel. The information printed on them is taken from the United States Bureau of Education exhibit at the Panama Pacific Exposition. On one side is given fig- ures showing what four years in school paid, giving a comparison of the average wages for those leaving school at 14, and those leaving at 18 with high school training. The other side is used to prove that each day spent in school pays the nine dollars. The estimate is based on an income of \$500 for uneducated laborers, as average pay for forty years; and \$1,000 a year for high school graduates, as average pay for forty years, and \$1,000 a year for high school graduates, as average pay for forty years. To earn the addi- tional \$20,000 requires 2,160 more days of public school education.
