

NEWS OF THE LEGISLATURE

DIVORCE BILL IS BEFORE THE HOUSE

Strenuous Time in the Committee When Action Is Taken Upon It

The Reynolds bill designed to repeal the 1913 Divorce Act which permitted persons outside the State to establish technical residence and procure a divorce was put on the House Calendar by the Judiciary General Committee of the House after one of the most remarkable meetings held this session. A majority of the Committee was lined up flatly in opposition to the bill and this majority was led by Frederick Beyer, chairman of the Committee. The sponsor was present as a member of the committee. Though the bill was argued for by representative lawyers from Philadelphia and elsewhere recently the first decision made at the committee hearing this afternoon was that the bill should be killed by an unfavorable recommendation to the House.

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

Hurry, Mother! Remove poisons from little stomach, liver, bowels.

Give "California Syrup of Figs" if cross, bilious or feverish.

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given. If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that its little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated, indigestible food and sour bile gently moves out of its little bowels without griping, and you have a well, happy child again.

LOCAL OPTION TO GET FAIR CHANCE

Hearing Will Be Held in Spite of Assertions to the Contrary

Two of the greatest developments in the fight for local option in Pennsylvania for years were uncovered today when it was learned that organized labor through International Business Agent Andrew T. McNamara, of the Machinists, would speak for the Vickersham local option bill in the House hearing next Wednesday and that David Hardy, of McKeesport, a wholesale dealer, was evidently acting for the liquor interests, or at least, the predominating faction among them, and is carrying on the negotiations from the "wet" side of the street and assuring the "drys" that they will not be interfered with in their desire to address the hearing.

GOVERNOR URGES WATER INVENTORY

Declares Pennsylvania Should Protect Itself From Floods in the Future

Governor Brumbaugh late yesterday came out in favor of an immediate inventory of the water resources of the State as a means of enabling the Commonwealth to establish a system of flood control. His address was made at the meeting of the special Water Conservation Committee over which Commissioner of Health Dixon presided and the bills for \$200,000 for the inventory and \$25,000 for the geological survey were approved.

GAME CODE WILL GET A HEARING

Sportsmen Will Be Here Late This Month to Discuss Its Provisions

Many sportsmen of the State are expected here on March 27, when the game committees of the House and Senate will meet in joint session for the purpose of affording a hearing on the new Game Code, known as House bill 187. This will be the only public hearing given by either branch and in addition to the representatives of the various State-wide sportsmen's associations like the Wild Life League, the United Sportsmen and the State Sportsmen, all the smaller clubs and individuals that have objection to any of the provisions of the game code will be invited to be present.

WEATHER POSTPONES SERVICE

Blain, Pa., March 14.—On account of bad weather the Junior Order of United American Mechanics, Blain council, No. 582, did not attend services in the Methodist Episcopal Church, which will deliver a sermon to the order on Sunday.

United American Mechanics, Blain Council, No. 582, did not attend services in the Methodist Episcopal Church, which will deliver a sermon to the order on Sunday.

Special Exhibit This Evening
in our Show Windows

New displays will be shown in our windows every evening of the Fashion Show.

Special daily exhibitions will occur in our store, at which time new models and newest creations will be shown for the first time.

Your Easter Suit or Coat is here Madam—correctly styled and moderately priced.

The Latest Styles in Jewelry

Fashions change in Jewelry as in everything else that is worn for adornment. Styles change more or less—sometimes decidedly—from one season to another.

This year there have been many innovations. Manufacturers have rivaled one another in bringing out new and prettier designs. Many have produced patterns of rare artistic merit.

We are showing representative assortments, including selections from leading manufacturers who have established reputations for supremacy. Many of these lines are exclusive.

Munition Fire Done Much Damage in London Suburb

London, March 12.—Five million dollars damage was done and 100,000 windows broken by the explosion in the east end of London on January 19, according to the current issue of Fire, a technical publication. The building in which the explosion occurred disappeared, and an immense crater 100 feet by 30 feet deep was formed.

Wild Cat Companies Fleece Chinese In Insurance Deals

Shanghai, China, March 12.—Foreign newspapers printed in Shanghai are conducting an energetic campaign against bogus insurance companies, and endeavoring to bring about a regulation of insurance companies by the Chinese government which will protect the public against fraudulent institutions. While there are many reliable Chinese insurance companies, there are also scores of wild cat companies writing fire, life and marine insurance.

Honk! Nature signals the Spring—and brings again the chance to feel the thrill of free and powerful flight

"Brother of the winds," the Indian calls him. With easy flight he outspeeds anything in nature—for all the energy he has is put to work in his rapid, steady impulses of his "power plant."

Grace, elegance, refinement, a motor carriage must have—for it evidences the taste and place of the owner.

But to these essentials the Twin-six adds the thrill of mighty power—smoothest power, ever in perfect control, ready to meet the instant demands of every driving condition.

It's the rapid impulses of its twelve powerful cylinders, overlapping and blending into one steady flow of power, that gives the unparalleled Twin-six its remarkable alertness, safety and economy.

All the man-made trails into the open will soon be calling. Will you be ready?
