

ECONOMY BOARD TO SIT MONDAY

Arrangements Made For Important Hearings During the Next Week

Members of the State Economy and Efficiency Commission have invited the legislative appropriations committees to meet with them Monday afternoon to continue the scanning of the estimates of appropriations sought by the various departments of the State government and it is expected that within ten days a budget can be framed which will stand in a measure as a guide for the appropriations committees and for the Governor.

The commission will devote a day later on to the educational branch of the State government which is asking an increase which is generally favored throughout the State and special attention will be given to the Department of Labor and Industry next week. Heads of departments have been getting ready and things will move rapidly next week.

When the commission files its report the Joint Revenue Committee will take up its share of the work of providing the funds as something tangible will then be in hand.

The estimate of the State revenue will run between \$70,000,000 and \$75,000,000 if a few suggested revenue raisers are passed. Recent developments have made necessary increases of estimates for armories.

State Asks Information—Commissioner of Health Dixon has asked the city of Altoona what steps it has taken to provide a permanent method of protecting its water supply system. The State engineers filed a report which was the basis of some suggestions from the commissioner.

Seventy Per Cent. Paid—The State has paid a 70 per cent. dividend in the case of the Pittsburgh Bank for Savings. The Banking and Attorney General's Department took charge of the bank and have been very successful in handling its affairs.

Attended Meeting—L. R. Palmer, chief inspector of the Department of Labor and Industry, presided at the meeting held in Pittsburgh where a branch of the National Safety Council was organized. Mr. Palmer is president of the National Council, which is doing so much for organization of safety associations in industries.

To Be in Philadelphia.—Governor Brumbaugh will be in Philadelphia over the week-end. He will attend the governor's defense meeting tomorrow.

Have Three Weeks.—The Harrisburg jitney men have three weeks in which to file their applications for certificates of public convenience under the arrangement made at the hearing held on Wednesday.

Charles "Pogey" O'Brien, Old-Time Clown, Dies

Sunbury, Pa., March 16.—Charles "Pogey" O'Brien, veteran circus clown, and for more than a half-century a performer under the "big top" died at his home here yesterday, of uraemic poisoning. He had been ill more than a week, and from the first doctors gave up hope. He is survived by his wife.

Although it was his boast that he earned a fortune making hundreds of thousands laugh, he died penniless. O'Brien was more than generous. He never appreciated the value of money and, although he always earned big money, he spent it as freely as though there never was an end to his income. No one ever went hungry or in need when "Pogey" had a dollar. He had been in the amusement business since he was a boy of five, when he played juvenile parts with a troupe of gymnasts in the Royal Lyceum at Toronto, Canada. At the age of eight he was featured with the Alec Robinson circus in a contortions act.

O'Brien was with such old-time circus organizations as those of Col. J. H. Harrington's, now mayor of South Boston, Va.; John H. Murray's, Lenox and Murray's, Bob Huntington, Baird and Howell, O'Brien Brothers, Bard Brothers, Jones Brothers, Robinson and Stoll, Sig, Sautelle, Welsh Brothers and the Ottos. He was twenty-five times across the United States, and twice toured England with a circus act.

Four years ago at Bridgeport, Conn., O'Brien's right arm was torn off an escaped ape. Since that time he has not worked much.
