Exposition of Spring Millinery

Large Hats Small Hats Dress Hats Sport Hats

Spring will witness the gayest millinery season in years, due to the influence of high colors and bright trimmings. More than a thousand models, each different and distinctive, grace this Opening Display, and offer an incomparable feast of beautiful styles for all occasions and for all tastes.

Pattern Hats of Parisian Origin

Paris creates the fashions for the world, and this year these famous designers have done their utmost to Americanize their creations as a compliment to the excellent tastes of American women—noted the world over for their fine ideas in dress.

From a score of New York's Pattern Houses, which duplicate the best that Paris evolves, have come a wonderful collection of—

Beautiful Dress Hats at \$10, \$12, \$15 to \$25

Notable ideas expressed, include—

Airy black hair—lace creations with transparent crowns and brims.
Rose crowned hats swathed in tulle.
Wing-trimmed hats.
Turbans of militaristic smartness.

Large lisere hats with brims that essay wonderful lines.
Queenly coronet models.
Fruit and flower trimmed styles.
Oriental trimmed hats.
Extremely smart tailored hats.

Black Is a Strong Factor

Fashion always gives black the homage that is its due, and this spring there is no exception to the rule. Black Hats are in evidence, relieved in many instances by colorful trimmings or facings. The all-black lisere hat with brim turned up or down with smart abandon is shown in many styles at

\$6.50, \$7.50, \$8.50, \$9.00, \$10.00 and \$12.00

Charming Styles at \$4.95 to \$6.50

Hundreds of fine ideas are expressed in this showing of trimmed hats at these moderate prices. The range of shades, shapes, kinds, styles and trimmings are as infinite as the vagaries of fashion demand.

Rengo Belt Corset Supremacy

If you have never worn a Rengo Belt Corset you should have a trial fitting before you purchase corsets again. There is a remarkable scientific principle of tailoring in these corsets which gives comfort to medium and stout figures.

The difference between Rengo Belt Corsets and many others is not noticeable unless you examine the peculiar goring and tailoring in their construction, and even then you will see why these unusual corsets can mould and hold the figure to such perfect lines with absolutely no effort either to the garment or to the wearer.

Last day of the Rengo Belt demonstration, to-morrow.
