### SHORT MARKET HAS **ACTIVE SUPPORT**

Tone Suggests Increasing Hope of Railway Labor Adjustment; Shippings and Industrials Rise From Two to Seven Points

New York, March 17.—The tone of cohol, American Smelting, Mexican to-day's short but active session suggested increasing hopes of an adjustment of the dispute between the brotherhoods and railway managers, although rails manifested uncertain tendencies. Shippings and industrials were foremost in the general rise with gains of 2 to 7 points in Marines, Atlantic, Gulf and West Indies and United Fruit, while Bethlehem Steel new stock made further strides.

Material advances were also recorded by United States Steel and related shares, U. S. Rubber, General Electric and Westinghouse, Industrial Al-Allis Chalmers ... 274, 274, Amer Beet Sugar ... 91% 92

SPEAKER WOULD **SCAN ESTIMATES** Plans to Attend the Meetings and to Hold Down the Ex-

> penses Everywhere "My idea of the paramount subject before the Legislature of Pennsylvania just now is the real need of appropriations for the State government and the various agencies to which the

general assembly grants money," said Speaker Richard J. Baldwin in discussing the session. The presiding officer of the House declined to hazard any guess as to the length of the session, but said that when it did adjourn it would have done its work well. Speaker Baldwin announced that it

well.

Speaker Baldwin announced that it was his intention to attend the meetings of the committees which will have to do with the ascertainment of the needs and the recommendation of new revenues and appropriations. "I am waiting now for the results of the consideration of the data before the Economy and Efficiency Commission, which has been called upon by a resolution to furnish an estimate of the appropriations," said he. "When this is in hand we will know what is sought and we can also inform ourselves as to why it is sought. My thought is to get down to the rock bottom of necessity. Every department probably has things which it considers as needs and my thought is that we should be sure about them. I will attend the meetings of the joint revenue and the ways and means committees and intend to be about when the appropriations committee holds its hearings. This is the biggest problem for us."

The speaker declared that he hoped the members of the Legislature would co-operate with him in his effort to keep the floor of the House clear of unauthorized persons and answer the questions of the sergeants-at-arms. "The rule excluding all persons not authorized from the floor of the House will be strictly enforced." said the Speaker, who added that he was going to take the chairs from the "side lines." STEVICK MAKES FAST TIME

Frank F. Stevick, the veteran bicycle rider of this city, yesterday afternoon rode from Middletown to Federal Square, a distance of nine miles in a trifle less than forty minutes. Mr. Stevick is contemplating a trip of a hundred miles on his sixty-first bitrhday, on November 26.

#### **ERIE DIRECTORS** TELL OF ITTNER

[Continued From First Page]

Company, Erie, a school director of that city, familiar with the work of Mr. Ittner there.

The letter is interesting because it sets forth something of the same kind of situation in Erie as has arisen here with respect to the choice of a local architect.

with respect to the choice of a local architect.

The Letter in Full
The letter in full is as follows:
Mr. J. H. McFarland, Chairman,
Municipal League of Harrisburg,
Harrisburg, Pa.:
Dear Sir—I am in receipt of your favor of the 6th, and it would have been answered sooner but the writer has been out of town for a few days.
Now in regard to Mr. Ittner. I consider him the best architect for school work in the country. Here in Erie we employed him about three years ago to prepare plans for two grade buildings, and those buildings have been erecte, and everybody, I believe, agrees that we have two very fine buildings.

erecte, and everybody, I believe, agrees that we have two very fine buildings.

After they were completed one of our local papers particularly took up the cry that we ought to employ home talent, but in a town of 80,000 people, like Erle, there has not been much demand to develop architects for large buildings, and particularly school buildings, consequently when, about a

#### Rooms For Rent

year and a half ago, we had to get up plans for a large high school building, the board again employed Mr. Ittner, and he got us up a set of plans. The contract has been let and the building is just being started, and I believe we are going to have one of the finest high schools in the country.

About six months ago the board again hired Mr. Ittner to draw further plans for a grade building and another high school. Consequently you will see we have employed him for five different buildings, three different times, and I think that speaks pretty well what the Erle board think of Mr. Ittner's work.

We have made a great many investigations of other architects and had a number come here, but we continued to employ Mr. Ittner. I have talked with some of our local contractors who figured on his plans and they tell me that his plans are complete in every detail.

In addition to this Mr. Ittner knows school work, as for a number of years he was connected with the St. Louis board of education, and he therefore is well posted on what should go into a school, and ho wbest to get it there.

Mr. Ittner has not only given us a good building architecturally, but they are well and conveniently arranged, and the heating and ventilating systemis, I believe, as good as can be gotten.

I have in addition made some personal inquiries of some architects that
