Revolt Approved by Russ Army and Navy

Washington, March 20.—Complete cooperation of both the Russian army and navy with the new revolutionary government was reported to-day by Ambassador Francis to the State Department. The ambassador stated he had received his information from official sources and confirmed it to his own satisfaction unofficially. The fact that he mentions no disorders leads officials to believe that good order prevails.

The question of the recognition of the new government by the United States is becoming increasingly important. Officials say the receipt by the State Department from the Russian ambassador of Foreign Minister Milkoff's statement to the world does not constitute such recognition nor will such action by England, France and Russia's other allies hasten the decision of the United States. It is possible, however, that action may be taken shortly and that even if it is not, Congress may pass resolutions felicitating the new government after it convenes April 15.

At present there is a position open on the business staff through the withdrawal from school of Harold Wisniewski. The position will be filled next month.
