IS NOW ON THE JOB HUSTLING

"My nerves were all shot to pieces from overwork," says W. H. Bruce, a salesman who covers this territory for the Randall Mfg. Co., 1232 S. 53d St., Philadelphia.

"I have had a hard season, hustling to beat the band; jumping from one town to another and hardly taking time to eat or sleep. And it got me."

"I began to feel the strain, I was ragged out all the time. I couldn't sleep and I just felt on the ragged edge. I found I was slowing down. I wasn't getting the business I expected."

"I know it was up to me to get back into form right quick and I heard so much about Tanlac everywhere I went that I just got a bottle and tucked it in my grip and began taking it regularly."

"Well, sir, that little king of medicines just fixed me up in no time at all. Just seemed to blow away my troubles like smoke."

"My nerves straightened out, stomach was soon batting 1000 and I'd go to bed at night and sleep like a kid. I got back my old punch before you could say Jack Robinson, and now I'm right on schedule and making big sales. If anybody's skeptical about Tanlac, just refer them to me."

Tanlac, the famous reconstructive tonic, is now being introduced here at Gorgas' Drug Store, where the Tanlac man is meeting the people and explaining the merits of this master medicine.—Adv.

Germany Hopes Loss of American Vessels Will Teach U. S. Lesson

Amsterdam, via London, March 21.—Count Von Reventlow writing in the Deutsche Tages Zeitung, says with reference to the sinking of the American steamers City of Memphis, Illinois and Vigilance: "It is good that American ships have been obliged to learn that the German prohibition is effective and that there is no question of distinctive treatment for the United States. In view of such losses there is only one policy for the United States, as for the small European maritime powers, namely, to retain their ships in their own ports as long as the war lasts."

MANAGER COCKILL TO HAVE WINNER

can win and according to his belief to-day, that one team is Harrisburg. The local manager waxed enthusiastic over the season's prospects. Manager Cockill said: "Promises Good Baseball. 'Everybody has a right to say what they please about their team. I will be ready in ten days to make public my lineup. You had good baseball in Harrisburg last season, and you are going to get something better this year. There will be some fellows here fooling me any. No trouble to find good players. Baseball all over the circuit will be better this season. 'There will be fourteen good men on the Harrisburg team when the time arrives to get busy. The squad will in all probability start work at Bucknell on or about April 18. Facilities are better up there because we have a gymnasium for indoor work in case of bad weather. The team will include five pitchers, one a southpaw, two catchers and the required number of infielders. To start with we will have Volz and Parsons as pitchers. Next comes two catchers. I did not think Wheat would get back to the minors. However, there will be a good man in his place. Downey, Healey, Elliott and Harrison are certain. It will not be difficult to pick the balance of the team. I am not sure of Walter Blair, but he was here last night and went to Pittsburgh where he will attend a banquet of letter men. He will coach the University of Pittsburgh squad."

Lift Out Your Corns

ICE-MINT THE NEW DISCOVERY ENDS ALL Foot Troubles

This new discovery, made from a Japanese product, certainly wonders the way it draws out inflammation from a pair of swollen, burning, aching feet. It takes the soreness right out, then the corn or callous shrivels and lifts off.

Hard corns, soft corns or corns between the toes, just shrivel up and lift off so easy. It is wonderful. Just think! Not one bit of pain while applying Ice-mint or afterwards. It doesn't even irritate the surrounding skin.

You will never have to cut a corn again and run the risk of blood poisoning. Buy good-by to your old corn salve, plasters and bundling tape for that pet corn of yours is sure to be a goner! It ever feels the magic touch of Ice-mint.

It imparts such a delightful, soothing, cooling feeling to the feet that you will sigh with relief. Ice-mint is the real Japanese secret for the health of your feet. It prevents foot odors and keeps them sweet and comfortable. It is greatly appreciated by women who wear high heel shoes.

Just ask in any drug store for a little Ice-mint and give your poor, suffering, tired, swollen feet the treat of their lives. Costs little and there is nothing better.

Party Leaders Plan to Hurry Back to Capital

Washington, D. C., March 21.—Calls for all party leaders in Congress to hurry back to Washington went out immediately after President Wilson's call. Plans for the party caucuses will be immediately readjusted. A call is out for a Democratic House caucus on April 12. The Republicans had tentatively planned a caucus for April 14. The dates of both will be advanced. At the Capitol those congressmen already here agreed that granting of emergency authority in some form will be the first business after organization of the House. Some members favor maintaining the present organization temporarily to expedite emergency business on which there are no party lines, thus avoiding a political fight. Outside of all emergency legislation the four failed supply bills—army, military academy, general deficiency and sundry civil—which include some legislation of vital importance to national defense, will be pressed for quick enactment.

SHE WRITS CHECK FOR 60 TRILLION

a little thing like that didn't worry her one little bit. Why should a bank bother about carrying money in their tinkey old musty vaults when all they needed to do was just to print paper money as they needed it. Silver and gold, of course, she knew were different, but banks had to send to Washington for that, but paper money, why no in' to it. Why not print nice new bills for customers. Husband Owns a Whole Bank. "I forgot all about the money, assuring Captain Thompson that she didn't need to worry about it. Her husband owned a bank and if no one else would make her money, she would make it herself. Why worry about a little thing like a few millions of dollars? Columbus, Bonaparte and Washington Just to prove that she had noble family connections, she endeavored to give the captain a short history of her genealogical tree. The farthest back she was able to trace was Christopher Columbus, Napoleon Bonaparte, however, was related by marriage, although she couldn't be sure she was directly descended from him. George Washington nevertheless had been related to her great-grandmother. Her husband the banker, was also of noble lineage, but the Captain didn't have time to listen to both sides of the family history.

Don't Blame "Spring Fever" For That "Down-and-Out" Feeling

Your blood needs a thorough cleansing just now. As Spring approaches, the impurities that have been accumulating in the system throughout the winter begin to clog up the circulation, causing a general weakness and debilitated condition that is generally known as "Spring fever" and "Spring breakdown." Children just at this season are peevish and irritable, and become puny and lifeless. This whole condition is but the result of impurities in the blood that have been accumulating and make themselves felt more distinctly with the change of seasons. They show that nature needs assistance in giving the system a general housecleaning. Everybody just now needs a few bottles of S. S. S., the great vegetable blood remedy, to purify their blood and cleanse it of impurities. It is good for the children, for it gives them new strength and puts their system in condition so they can more easily resist the many ailments so prevalent in summer. S. S. S. is without an equal as a general tonic and system builder. It improves the appetite and gives new strength and vitality to both old and young. Full information and valuable literature can be had by writing to Swift Specific Co., 73 Swift Laboratory, Atlanta, Ga.
