Evangelistic meetings conducted in

Evangelistic meetings conducted in the Market Square Presbyterian Church by Dr. Robert M. Russell are growing in attendance and interest and it has been found necessary to hold the meetings in the main auditorium instead of in the lecture room.

Dr. Russell's address last night on "The Confession of Christ as a Condition of Salvation," held the interest of the large audience. As the base of his talk he gave three reasons for confessing Christ: "The Privilege of Confession," "The Duty of Confession" and "The Confession of Christ in the Face of Current Obections."

The third study of "The Acts," based on "The Outworking of Power," was the subject at this afternoon's meeting. This evening at 7.30 o'clock Dr. Russell will preach on "The Value and Importance of Special Drawing Near to God."

Paterson, N. J., March 21.—There was a stir in the Passaic County Court yesterday when Anna Hoppe, aged 10. burst into the courtroom, dragging a struggling boy a year her junior. Before Probation Officer Mahoney she released her coat-collar hold. "There," she cried triumphantly; "this is my brother, Charlie."

She had promised the officer last week to search every day till she found the truant, who had left home, drawn by the lure of the movies. Mahoney smiled, agreed and told the little probation officer to do her best. After lecturing the boy, the Court ordered Anna to take him to school and be his mentor in the future.

#### Cocoanut Oil Fine For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

cocoanutoil(which ispure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moister your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to madage.

You can get mulsified cocoanut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

# BEFORE YOU EAT

Wash poison from system each morning and feel fresh as a daisy.

Every day you clean the house you live in to get rid of the dust and dirt which collected through the previous day. Your body, the house your soul lives in, also becomes filled up each twenty-four hours with all manner of filth and poison. If only every man and woman could realize the wonders of drinking phosphated hot water, what a gratifying change

would take place.
Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complex-ions; instead of the multitudes of "nerve wrecks," rundowns," "brain fags" and pessimists we should see a virile ontimistic throng of rosy,

cheeked people everywhere. well. Everyone, whether sick or should drink each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phos-phate in it to wash from the stomach, phate in it to wash from the stollach liver, kidneys and ten yards of bowels the previous day's indigestible waste liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach. Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drugstore which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

## \$3,000 DAMAGE AT J. M. HEAGY FIRE

Destroys Delivery Stable in Front Street

Fire of unknown origin early this morning damaged the livery stable of J. M. Heagy, Front and Walnut streets, to the extent of \$3,000. By good work the firemen were able to confine the conflagration to the brick structure where it started. Had it gained much headway it is probable several frame buildings adjoining would have been destroyed.

each ward to serve without pay and restores the veto power to the mayor. The idea is to create a force in charge of the various municipal department that shall be made up of men skilled in these particular lines who shall not be subject to disturbance every two years as is now the result of the biennial scrambling for the salaried commissionership jobs.

Mr. Beidleman Gives Reasons
"I have introduced this bill," said Senator Beidleman to-day, "in order to overcome the evils of the Clark act. Under its provisions every two years we have a disgraceful scramble for council jobs on the part of those who want the places largely for the salaries attached. The result has been inefficient government. I believe that a small council, such as I have suggested, of men who will not serve for pay and who represent every part of the city, their legislative acts subject to the veto power of the mayor, would be of vast benefit to Harrisburg from the standpoint of good government. At present city councils are practically a law unto themselves. The Clark act has been productive of much log rolling which would be wiped out by such a law as I have proposed."

Voluminous Measure

Voluminous Measure

Senator Beidleman's bill is a voluminous measure, covering more than 150 pages and embracing every point of law relating to third class citles now in force. Many of the provisions are little if any changed. The elective officers under the Beidleman bill would be a mayor, one member of council from each ward, (which would give Harrisburg thirteen), a city treasurer, a city controller and three city assessors. Council is to be elected for the first time from even-interest and every two years from uneven numbered wards at the first election under the new act for four years, from uneven numbered wards at the mayor and even numbered wards. The mayor and other elective officers would each serve four years.

The bill also provides for the election of three city assessors, also for four years' terms.

No Pay For Councilmen
Council is to meet at least once a month and is to be a continuous body. The members have power of administration and legislation, subject to the veto of the mayor and they are to serve without pay.

The members have power of administration and legislation, subject to the veto of the mayor and they are to serve without pay.

The mayor is to be the chief executive magistrate of the city and in all cases where terms do not expire the first Monday of January, 1918, their salaries are to remain the same as at present. In cities the size of Harrisburg mayors elected under the act would receive a salary of \$3,000 a year. Mayors are to be clothed with all the police powers of sheriffs and shall be committing magistrates. The mayor is also to have the appointive power of all subordinate officers created by ordinance except the city clerk and any clerks of council or of other departments of the city government, subject to the confirmation of council. Thus he would have the naming of the police force.

The salary of the city treasurer and city controller is to be fixed by ordinance, as is also that of the city engineer who is to be elected by council. The same applies to the city solicitor. Each is to serve four years.

Council is to fix the number, rank and pay of all policemen, but the nominating power as well as the power of dismissal lies with the mayor, and he also is entitled to choose his chief and other officers from among those confirmed. Council is also to provide such other officers and employes as required.

The board of health

The board of health

The board of health is to be of five members elected for four-year terms by council and is to serve without pay, who are to hire the necessary operating and superintending forc. The various other departments are left to the discretion of council.

The bill provides for the registration of all real estate in the city and penalties for violation. It goes at great length into all the elements of municipal government, the repeal of laws in conflict and the details of the operation of council and the departments.

Central Pennsylvania Association Elects Officers; Unequaled Strides in Mem-bership Reported

At the annual meeting of the Central Pennsylvania Association of Life Underwriters held at the Engineers club Monday, Albert A. Wert, district manager of the New England Mutual Life Insurance company, was elected president for 1917-18.

Being one of the original organizers of this association in 1912, Mr. Wert has been one of its most enthusiastic members and untiring supporters and to him is due no little credit for its success. At the St. Louis convention last September, the Central Pennsylvanja Association came in for national recognition when the Metropolitan district loving cup was awarded the local body in competition for increase in membership with cities like Philadelphia, Baltimore, New York, Washington and others.

Flavel L. Wright, general agent of the Northwestern Mutual Life, was elected vice-president, and Elmer K. Espenshade, of the Equitable Life of New York, was elected secretary and treasurer. These three men, with J. Ralph Morrison and John T. Shirley, constitute the executive committee. During the past year the membership increased from 34 members in 1916 to

### LOCAL OPTION ADVOCATES ARE HERE IN FORCE FOR HEARING ON VICKERMAN BILL AT CAPITOL

tion-wide temperance movement more and more and that it will be the big issue in the next four years.

To Present Issue

Plans for energetic presentation of the local option issue to the voters of the state next year were made last night at the annual meeting of the Local Option Committee of Pennsylvania.

The committee empowered the executive committee to proceed immediately to organize local option committees in every county in the state and to have every candidate for the Legislature pledge himself to vote not only for county local option but for statutory state-wide prohibition. The committee will also endeavor to have congressional candidate named favorable to national prohibition. The executive committee was also empowered to call a convention of delegates representing all anti-liquor organizations in the state and to organize employes against the liquor traffic.

J. Denny O'Neil, State Insurance Commissioner, was elected chairman of the state committee; Dr. Isaac Sharpless, Haverford, vice chairman; John W. Vickerman, Bellevue, treasurer, and R. C. Hassrick, Philadelphfa, secretary. The executive committee, in addition to the officers, will be composed of Rev. Dr. George W. Shelton, Dr. G. A. Dillinger, Pittsburgh; Horace Geiger, Philadelphia; Milton W. Shreve, Erie; Dr. William A. Granville, Gettysburg, and R. W. Thompson, Lewisburg.

The State Committee

The following members of the State committee were announced: Dr. Chas. T. Aikens, Selinsgrove: Ciyde V. Alley, New Castle; W. D. B. Ainey, Montrose; Geo. E. Alter, Pittsburgh; Paul T. Arnold, Ridgway; Norman C. Ball, Clarion; Wallace J. Barnes, Honesdale;

This is local option's annual rally day in Harrisburg. The advocates of local self-government in regard to the liquor traffic are here in force to attend the hearing on the Vickerman bill at the Capitol this afternoon and to outline the plans for vigorous presentation of the cause.

While the number of people here this session is not as great as in 1915, there is a general feeling that Pennsylvania is commencing to feel the nation-wide temperance movement more and more and that it will be the big issue in the next four years.

## **BUT IT DOESN'T**

Many Have the Erroneous Idea That Fat Makes Fat

One Reason of Cod Liver Oil's Popularity

Nevertheless a Decidedly Wrong Impression

Fat taken into the stomach does not make fat, according to the opinion of many eminent physicians. Thousands of physicians have prescribed cod liver oil for wasting diseases and all troubles that show themselves in a decline of weight. Physicians know that the fat or grease is not what is necessary to make fat or tissue. They also know that it is one of the main things that makes cod liver oil impractical in many cases. The fat is too rich to be digested by a stomach weakened by disease.

digested by a stomach weakened by disease.

When cod liver oil is given, often the oil passes from the body in exactly the same state in which it is received. The reason doctors prescribe cod liver oil is that it contains certain curative properties. It is to take advantage of these same curative properties that they have so often tried to force their patients to take this horrible, greasy, vile-smelling, nauseating remedy.

There are but few people who have not had experience in one way or another with cod liver oil, and even the thought of its smell is enough to cause a shudder. When we think of these things it is not strange that every one in our city is sounding the praise of Vinol.

things it is not strange that every one in our city is sounding the praise of Vinol.

Vinol, which the Harrisburg druggists whose names are appended to this article are handling, is the solution of an embarrassing puzzle that physicians have had to contend with for years. Much has been said in the past of this wonderful discovery and yet it would be impossible to say too much in its praise.

Just remember that in Vinol you can procure all the medicinal properties or curative principles that make cod liver oil famous, but without the greasy fat. To this is added beef peptones, iron and manganese peptonates and glycerophosphates in a delicious rich wine making a rare strength creator of wonderful tonic properties. Vinol contains just the right amount of the active medicinal properties of the code's liver that is necessary for the cure of such diseases as cod liver oil has been prescribed for.

This is a subject that everyone should become familiar with and we recommend that you make inquiries of the Harrisburg druggists whose names are appended to this article, who have associated themselves with
