Germany Now Is Waging War on United States

Statements by speakers at the Union League Club last night:

ELIHU ROOT — Germany is making war upon us, and we are all waiting to see whether we are to take it "lying down."

CHARLES E. HUGHES—There is now a state of war, and the United States should recognize that fact. Our citizens have been murdered—are being murdered.

JOSEPH H. CHOATE — The President said two months ago. "On the brink of war." Well, we can't stay on the brink forever. We have tumbled in—that is what has happened—we have fallen in.

"The situation is a very extraordinary one. Germany is making war upon us. There may not be technically a war because it may be that it takes two to product hat; but Germany is making war upon us, and we are all waiting to see whether we are to take it lying down. It is either war or it is submission to oppression.

"What is there we can do? Only this: We can perform the duty of a free, self-governing people by speaking in clear and certain tones, so that the spirit and the purpose and the will of a free people may be heard in Washington and our government may know that the American people will be behind it, supporting it, approving it, sustaining it in maintaining the honor and the integrity and the independence and the freedom of our Republic.

Wilson Wants to Hear A bill defining fraternal benefit societies was introduced in the Senate by Senato Crow. It is designed to provide a specific method for the operation of societies working through the lodge system, and fixes a plan of operation so than all such societies can absolutely divided at the incontract. The act is similar to the laws of New York, Massachusetts, Connecticut and practically all of the Eastern States except Pennsylvania.

It requires all fraternal organizations to be under the direct supervision of the Insurance Department. The act is intended to discontinue insurance trouble due to insurance companies acting without being subject to supervision. It is expected that families left without any support whatever because of the insolvency of beneficial societies will hereafter be protected through the supervision of the Insurance Department.

"My diagnosis of the situation is that the President wants to hear from the people. He has said so many times. He wants to hear whether the people of the United States want him to go on and act. Let us answer to his want and tell him that the American people do want him not to discuss, not to plan, not to talk about what is going to be done, but to act."

"Mr. Hughes, in calling the meeting to order, said:

"We are here to record our convictions, to offer our service. It is the distinction of this club that it came into being as an instrumentality of national service, giving its pledge of unconditional loyalty. Its loyalty, of which we speak, is not a mere form of words. It is the loyalty that is fittingly expressed in the supreme service of sacrifice.

### CANNOT WORK OR PLAY

When you are run down in health so that it impairs the efficiency of your work as well as your power to enjoy the pleasures of life it is time that you gave Dr. Williams' Pink Pills a trial.

The condition that doctors describe as general debility when they describe it at all is outside of the experience of most physicians until the blood has become so impoverished that it can be called anemia. Unless this condition of bloodlessness has been reached you simply complain of failing energy, loss of appetite, constipation, lack of ambition and animation. If you are well-to-do your physician will probably advise a change of climate. If not, he will tell you there is nothing much the matter with you. He means that there is no organic trouble.

But the blood is thin and the whole system lacks tone. The blood goes everywhere, practically, and improving the quality of the blood by using Dr. Williams' Pink Pills, tones up the whole body, improves the appetite, quickens the step and puts a new punch in life generally.
