Police Club Serves As **Extension For Pistol**

A policeman's club, which is so made that it can also be used as an extension to a pistol barrel, thereby changing the latter into a sort of rifle, has been invented by the Sheriff of Alameda county, Cal. The extension has the outward appearance of an ordinary hickory club, but contains a steel barrel so fashioned at one end that it can be quickly attached to a pistol's nozzle. It is said that it more than doubles the range of the firearm and makes possible greater accuracy in aiming. It is fourteen inchesiong and weighs a pound.—Popular Mechanics Magazine.

THORPE NOT TO GO TO LOUISVILLE

By Associated Press

Louisville, Ky., March 22, — According to news reaching here to-day from Athens, Ga., training camp of the Louisville American Association Baseball club, James Thorpe, star athlete, will not become a member of the Louisville club.

Military Spirit Abounds in Southern Camps

Preparedness and patriotism have hit the baseball world together. Captain Huston, having decided to train the Yankees in military tactics, Charley Ebbetts was not to be outdone, and, as the photograph shows, has caused American flags to be placed upon the uniforms of all the members of the Brooklyn team.

Home Study Better Than

"Evening study at home is not nearly so wearing on eyes and nerves show," declare officials of the Bureau of Education in the May Mother's Magazine. "A quiet evening spent in reading or study around the family

table will help the child much more than the evening spent at the popular amusement. Healthy children of eleven or twelve years do not suffer the slightest injury from a period of evening study following a leisurely supper and a work or play hour.

"It is not the study, but the conditions sometimes surrounding it that work harm. For example, there is small benefit in home-study when the child feels irritated or frightened by his lessons, when parents do not give intelligent and sympathetic guidance, or when there is noise and interruptions. Of course, little children cannot profitably study at home. Afternoons are needed for play and bedtime should come not later than eight o'clock."

Chalmers 7-Passenger Touring Car Price \$1350 Detroit

Full Value for Every Dollar In this Chalmers, 7-Passenger Touring Car

Scan the list of other 7-passenger cars for the equal of this Quality Chalmers. You will not find it. Only in this Chalmers are combined so many real values. You may pay \$300 to \$500 more and find nothing better.

Only a builder of long experience and with a yearly output of thou-sands could produce this car at so low a price. Only thus can quality of materials and of manufacturing be combined with economy of production. Because Chalmers this is the reason why this Chalmers 7-passenger Touring Car has no competition at anywhere near its price of \$1,350.

These Prove Quality Claims

Chalmers claims a motor of unexampled smoothness, of unusual power. Prove it by examining Chalmers Lynite pistons, 1/3 the weight of the usual cast iron. These give smoothness, less strain on bearings, admit of higher power. Compare the Chalmers crankshaft with others. It is one-piece, special steel, drop-forged, balanced in mo-tion to a fraction of an ounce.

See the Chalmers Transmission

Gears are crucible nickel steel, case-hardened and heat-treated.

They shift easily, without clashing, and properly used are practically indestructible. The Chalmers type of dry-plate, disc clutch is far in advance of other designs. Chalmers rear axle is the same as used in expensive foreign and American cars. It is silent, efficient, economical.

A Big Beautiful Body

Big-122 inch wheelbase. Beautiful—because graceful in form, hand-finished in Chalmers shops, upholstered in genuine pebble-grain leather, with new Scotch "fluted" finish. Auxiliary folding seats, Pantasote top, curtains open with the doors, fasteners are the "lift the
