Only Successful Remedy for Treating Gall Stones

Fruitola and Traxo Brought Relief After Doctor Said Nothing but Operation Would Help.

MR. W. C. DILLEHAY

In the opinion of Mr. W. C. Dillehay, 513 Morton St., Nashville, Tenn., Fruitola and Traxo is the only successful remedy for gall stone trouble. In a letter to the Pinus laboratories Mr. Dillehay says, "After a leading Nashville physician had failed to relieve my wife, and we were told an operation was necessary, I heard of Fruitola and Traxo and we decided to at least give it a trial. I gave her this medicine as directed and after four doses she was relieved of nearly a quart of gall stones, conclusive evidence that an operation was by no means necessary." Fruitola and Traxo are compounded from the original Edsall formulas at the Pinus laboratories in Monticello, Ill., and can be purchased in drug stores; a doctor's prescription is not necessary. Fruitola is a pure fruit oil that acts as an intestinal lubricant and disintegrates the hardened particles that cause so much suffering, discharging the accumulated waste to the sufferer's intense relief. One dose is usually sufficient to indicate its efficacy. Traxo is a tonic-alterative that is most effective to rebuild the weakened, run-down system.

A booklet of special interest to those who suffer from stomach trouble can be obtained by writing to the Pinus Laboratories, Monticello, Illinois.
