SENATE AGREES TO POLICE BILL

Passes Measure Adding to Force and Increasing Salaries

In the Senate last night the Buckman bill increasing the State police force by adding 16 corpals and 90 privates and raising the salaries so that the total appropriation for salaries is made approximately \$16,000 passed finally and goes to the house. The made approximately \$16,000 passed finally and goes to the house. The bill was made a special order for 10 o'colck. It was attacked by Senator Charles A. Snyder, who said he could see no reason for extravagant salaries. The Auditor General-elect asserted that the salary of the superintendent of police was greater than that of the major general and brigadier general of the army commanding 3,000 men. He could not see, he said, the wisdom of paying the superintendent \$6,000 per year for commanding 375 men.

Replying, Senator Buckman, the author of the measure, said that at one election Senator Snyder had been chosen to two offices, telling in detail the offices he would fill by virtue of his election as Auditor General and placing the emoluments at close to \$9,800 as senator. Senator Snyder offered amendments, reducing the salary of \$1,500 as senator. Senator Snyder offered amendments, reducing the salary of the deputy to \$2,500 and of the captains from \$2,400 to \$2,000.

The necessary unanimous consent to offer amendments was blocked by the objection of Senator Buckman and the bill passed by a vote of 33 to 11.

Arthur E. Brown and Henderson Gilbert Retire

The annual election of officers and directors of the University Club for the ensuing year will be held Monday evening. April 2 at 8 o'clock. The terms of the twelve directors elected when the club was incorported last eyar will expire and twelve new directors will be elected, the four members receiving the highest number of votes will serve for a period of three years, the next highest four for a period of two years, and the next four a period of two years, and the next four a period of two years, and the next four a period of two years, and the next four a period of two years, and the next four a period of two years, and the next four a period of two years, and the next four a period of two years, and the next four a period of two years, and the next four a period of two years, and the next four a period of two years, and the period of the years, and the years, and years, and

Boy Scouts Prepare to Perform Deeds of Aid

With the approach of war Boy Scout activities have gained new im-petus. There are five troops in the city under the direction of as many local churches, and two more troops are forming, one at the Second Reform-ed and another at the Coxestown Meth-odiet Church

ed and another at the Coxestown Methodist Church.

In time of war the Scouts would put to practical use their first aid knowledge and perform other deeds of kindness. Troop 4, of Emmanuel Prespyterian Church, under the leadership of Garfield McAlister, last night at a drill gave a demonstration of first aid to the injured, knot-tying and general work.

OFFER \$2,500 REWARD

New York, March 27.—An offer of \$2,500 reward for information leading to the recovery of jewelry taken from a house on Seventy-ninth street, revealed to-day that jewels valued at about \$40,000 were stolen Thursday from the bedroom of Mrs. William McNair. Descriptions of the gems have been sent to the police of other cities.

******* Prepare This for a Bad Cough-It's Fine

Cheaply and Easily Made, but Does the Work Quickly.

The finest cough syrup that money can buy,—costing only about one-fifth as much as ready-made preparations,—can easily be made up at home. The way it takes hold and conquers distressing coughs, throat and chest colds will really make you enthusiastic about it.

Any druggist can supply you with 2½ counces of Pinex (50 cents worth). Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. Shake thoroughly and it is ready for use. The total cost is about 54 cents and gives you a full pint—a family supply—of a most effectual, pleasant tasting remedy. It keeps perfectly.

pleasant tasting remedy. It keeps perfectly.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the inflamed or swollen throat membranes, and gradually but surely the annoying throat tickle and dreaded cough will disappear entirely. Nothing better for bronchitis, spasmodic croup, whooping cough or bronchial asthma.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, combined with guaiacol and is known the world over for its prompt healing effect on the throat membranes.

trated compound of genuine Norway pine extract, combined with guaiacol and is known the world over for its prompt healing effect on the throat membranes.

Avoid disappointment by asking your druggist for "2½ ounces of Pinex" with full directions and don't accept any-thing else. A guarantee of absolute sat-isfaction or money promptly refunded goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

PROMINENT MEN GIVE MILITARY

G. Creighton Webb, of New York City,

To the parents of America these

questions are to-day put: Do you want your boy to die a perfectly useless and unnecessary death in the field or in the hospital, or do you want him to go forth with a reasonable chance of

The choice rests with you! Under the Constitution of the United States and under the national defense act of June 3, 1916, the President of the United States

tional defense act of June 3, 1916, the President of the United States is authorized in case of war to call into military service all citizens of a fighting age.

As your boy will have to go to war anyway if his services are needed, it is up to you to decide:

Whether if he goes—and go he must—he shall go trained, hardened and alive to the dangers that he is to meet, or untrained, soft and ignorant of military matters and dangers, half awake and fearful of the unknown;

Give Him a Chance

Whether he shall go a marksman, knowing how to attack and defend, how to take care of himself in the field, how to keep himself in vigorous health, how to look after his feet, his skin, his teeth, or whether he shall go ignorant as a child of all the things that he needs to give him a chance to survive and win out alive;

Whether he shall go to war with a reasonable chance of returning therefrom, or to deadly certain disaster;

Whether he shall go with all the possibilities that lie in his receptive young mind and active young body fully developed for

MILITARISM AND
MILITARY TRAINING In arguments about military training, one hears a good many adjectives used, and some pretty sharp nouns. It's a pity. We have a problem on our hands, and calling the neighbors hard names doesn't help to solve it. "Militarism" is one of these words that is being bandled about. An efficient system of military defense, such as Washington and all constructive American statesmen have favored, is one thing; the militarism against which the French, British and Belgian democracies are battle is quite another.—From "Comments on Congress," in Collier's. his own safety, or undeveloped, blindly ignorant of these things that may save him.

In a campaign the chances of trained men for ultimate safety are vastly superior to those of raw recruits.

To send untrained troops meet troops trained in modern warfare is sheer murder. They would die like sheep.

would die like sheep.

It is up to the parents.
Will they choose the wiser course and have their boy if he is called to the front go there alert, hardened, drilled, disciplined, awake to all possible dangers and prepared to meet them—a typical soldiers of the republic; or are they going to deny their boy that training and knowledge to which he has as much right as he has to the life tha your gave him, that training and knowledge which you cannot, but the government can and will gladly give him if you but say the word?

Crime to Deny It

To deny him this chance for his life would be a crime, for it is his right.

Congress is about to meet agan.

life would be a crime, for it is his right.

Congress is about to meet agan. It will seek to avaid this issue because it will fear—what?

The father's vote, the mother's thoughtless condemnation of a measure that she does not under stand. It is you that Congres fears. Nine months hence will be too late. Then your boy may have alreadys been called to the army, soft and helpless as he is now. If you want to give him a chance telegraph to your senators and congressman urging them to pass a universal training bill before Congress adjourns and before it is too late.

Act now! The future safety of your son rests in your own hands.

INCUBATOR LOSSES OF CHICKS
MAY BE REDUCED BY CARE

Various agencies like crowding, improper feeding, brooding and housing may cause heavy mortality among incubator chicks. Such troubles may be overcome by preventative rather than curative measures.

Leg weakness is a common aliment of chicks up to six months of age. Improper feeding, by which the weight is increased faster than the strength, is the most important cause of this disease. A change of diet, as for instance the substitution of bran, catmeal or pinhead eats for corn and cornmeal, will often correct leg weakness. Plenty of green feed should also be given and a little skimmilk is beneficial.

Gapes is another chick trouble com-
