Springtime in the Shops. Milady's hat, collar, gloves and shoes—yes, even the spokes of the wheels of the new automobiles—testify to the vogue for a certain shade, variously termed beige, beige, straw or ivory, for slight variations are quite permissible just so the tone is maintained, and a new boot shown at the Walk Over Boot Shop, 226 Market street, combines fine French kid with a soft but firm glove-fitting cloth top in this new shade, which is known at this shop as Ivory. It is certainly a shade which blends beautifully with any color, and while it is one reason for its popularity in the new footwear, its delicate beauty and inconspicuous smartness give it an exclusive distinction. This boot has a Louis heel and high wave top and sells for \$11.00.

Easter Attire. So many charming Easter suits, coats and frocks are shown at Astor's, Fourth and Market streets, that one feels that at least half a dozen costumes must be selected from this assortment. They are showing those clever combination suits having a skirt of Scotch plaid in lightweight wools, with often a waistcoat to match, while the jacket is in a plain color trimmed with the plaid and tailored on the smartest lines. Just as good looking are the suits of jersey cloth for sports wear, which are the clever models in the new grays or blue serges embroidered and braided in most approved fashion, are just the thing for Easter wear. A feature of this showing is the varied and complete assortment of beautiful suits for \$25.00. Tempting Preserves. Have you ever tried Studebaker's loganberry jam? Of course you know that loganberries are a cross between blackberries and raspberries and the loganberry jam and preserves offered by the Studebaker Grocery Store (Mr. George Barnes), Second street at the crossing of State, has a piquant taste, and is as delicious as it is novel. Besides the usual kinds of preserves—which, however, this store offers in the unusually good, wholesome and cleanly made Ferndell brand—they have such novelties as delicious white cherries preserved in honey and black currant preserves and other appetizing combinations for the epicure or invalid.

William A. Credit, president of the Downingtown Industrial School for the Negro. The Rev. Howard Wayne Smith, extension secretary of the same institution, also addressed the ministers.

Child Labor Investigators Report on Rural School Attendance

A detailed report of a study of farm work and school attendance in seven counties in Kentucky in 1916 has just been published by the National Child Labor committee in the quarterly Child Labor Bulletin. Rural child labor has never received much attention, according to this committee, but recent studies in Colorado, Kentucky and other States show that there is a close connection between children's work on the farms and the poor school attendance and high percentage of truancy in rural districts. In the seven counties studied, the report states, the greatest number of absences from school in the four months studied were due to farm work. Furthermore, the children absent on farm work had a higher percentage of retardation in school than other children. Among white children only 13.2 per cent of the daily attendants were retarded, 23.8 per cent of the children absent for other reasons than farm work, and 46.8 per cent of the farm work absentees. Among negro children the percentage for daily attendants was 34.2, for other absentees, 49.2, and for farm work absentees, 72.6 per cent. One reason for this state of affairs is said to be that "farm work is steady whereas illness (as a cause of absence) is occasional; moreover, farm work occurs year after year, while illness may occur only once." The work the children do on Kentucky farms is chiefly in the tobacco fields, the investigators found, although other forms of farm work also exist. Considerable space is given in the report to a discussion of the economic condition of the tenant farmer, because it may be that under the customary arrangements of farm share products with the landowner, for borrowing money and obtaining credit at stores, the tenant farmer is unable to keep his children in school throughout the term on account of the demand of his work, and his inability to hire labor. A Kentucky school trustee is quoted as saying, "Give us a fair price for our tobacco, and I will guarantee that the farmers will send their children to school and illiteracy will be wiped out."

Part II—Grand Chorus in E Flat, Gullmunt; Solo, "Ave Maria," Gounod, Mrs. Cox; "Midsummer Caprice," Johnston; "Thanksgiving" (A Pastoral Suite), Demarest.

Forced to Kneel and Kiss Flag He Insulted

Kansas City, March 27.—William Powell and Eddie Smith, negroes, were before Police Judge Kiernan on a charge of disturbing the peace. "I had an American flag out in front of my house," said Powell. "This fellow come along and started cursin' it. Then we had a fight." "What's the matter with you, Eddie?" inquired Judge Keirnan. "Have you got that flag with you?" he asked the other man, and Powell produced it. "Lay it down on the floor," ordered the Court. Powell laid it down. "Now," said Judge Keirnan to Smith, "You get down on your knees and kiss that flag, and do it quick."

Find Missing Pastor Serving 90-Day Sentence

Pittsburgh, March 27.—The Rev. William R. Griffith, aged 50, pastor of the Walsh Baptist Church, Chatham street, missing since February 26, for whom a country-wide search has been under way, has been found in the Allegheny county workhouse. He was committed February 27 by Magistrate Sweeney, in Central Police Court, to serve a sentence of ninety days. Mr. Griffith was accused of making an attack on a fellow prisoner in a cell in the police station. Mr. Griffith was arrested on a downtown street. It was not until last week that he disclosed his identity to the officials at the workhouse.

Annual Meeting

Hearty applause greeted Dr. Credit when he finished his address. The Rev. Mr. Smith outlined the academic and industrial policy of the school. Both of the addresses were formally referred to the executive committee of the Ministerial Association, which instructions to take such steps as will provide the people of Harrisburg with information concerning the objects of the school and to create an interest in its work for the negro. The annual meeting of the Ministerial Association will be held next month on a date to be decided later. Officers to serve for the coming year will be elected at the meeting. The nominating committee consists of the Rev. S. W. Herman, chairman; the Rev. George Schaum and the Rev. A. J. Green. The association plans to hold a luncheon in connection with the annual meeting. The Rev. A. E. Hansen was appointed a committee of one to arrange for the luncheon and to secure after-dinner speakers.

ORDEAL

The defending troops are exposed to a far more terrible ordeal than those attacking. They are subjected for many hours to the intense and excruciating torture of the bombardment. By this they are driven into underground shelters, killed, buried alive, stunned, or driven mad. Then suddenly and swiftly breaks upon them the great irruption of furious attacking infantry. If this onrush cannot be stopped by such machine guns as are hastily destroyed by the fire of a sprinkling of surviving riflemen, the defenders in the area successfully assaulted are practically all accounted for. The motto they have on their banners is "The more they tend to remain crowded in their dugouts until the moment when it is impossible for them to emerge, the more they are killed." "Who Germany Must Lose," is Collier's.
