cil's action.

The State's proposition is to build the road under its supervision with the borough and State bearing the expense. If the Council wishes to build the road with its own force of men and purchase the material permission will be granted to do so, but only under the State's supervision can the road be built with the State bearing part of the expense, it is said. This question will be decided by Council.

AID SOCIETY ENTERTAINED Wormleysburg, Pa., March 29.—The Ladies' Aid Society of St. Paul's United Brethren Church entertained its members and the board of trustees at the home of Mr. and Mrs. E. F. Arney on Tuesday evening. A victrola program and a comic auction furnished entertainment, after which refreshments were served.

Musterole is a clean, white ointment, made with oil of mustard. It penetrates to the seat of pain and drives it away, but does not blister the tenderest skin. It takes the place of the mussy, old fashioned mustard plaster.

Musterole is recommended for bronchitis, croup, asthma, pleurisy, lumbago, neuralgia, sprains, bruises, stiff neck, headache and colds of the chest (it often prevents pneumonia).

The tangible results of the campaigns are very interesting. In Hangchow the campaign paved the way for a smallpox vaccination crusade. In Kaifeng, where the meetings were held in a large theater turned over to the committee, a Public Health Society was formed, having as its leaders the eight government physicians, who had the responsibility of caring for the health of many thousands of soldiers.

In another city, the campaign was followed by a "clean-up week." In Changsha, Hunan Province, where thirty-six meetings were attended by 30,000 people, the results of the campaign are now taking form in a \$20,000 hospital for tuberculosis and contagious diseases, erected by public subscription.—The Christian Herald.
