Frontier Day. Lefever sat sidewise on the edge the table. His subdued whistle. Spain more or less, despite his endeavor not to be irritated. It was like the low singing of a teakettle, which, however unobtrusive, indicates steam within. In fact, John Lefever, who was built not unlike a kettle, never whistled except when there was some

The warm sun came streaming through the windows of the private office of the division superintendent at Sleepy Cat, a railroad town lying almost within gunshot of the great con-tinental divide. De Spain, tilted back in the superintendent's chair, sat near Lefever-Jeffries had the mountain division then—his feet crossed on the walnut rim of the shabby, cloth-topped table. His chin lay on his soft, open collar and tie, his sunburnt lips were shut tight, and his nervous brown eyes were staring at the dull finish arrel of a new rifle, that lay across Lefever's lap. At intervals Lefever took the rifle up and, whistling softly, examined with care a fracture of the lever, the broken thumbpiece of which ay on the table between the two men. His companion answered gently-Lefever's patience was noted even among contained men—"Henry," he re-monstrated, "I sent for you because I thought you could shoot."

De Spain's expression did not change under the reproach. His features were so regular as to contribute to this undisturbed expression, and his face would not ordinarily attract attention but for his extremely bright and alive eyes-the frequent mark of an out-ofor mountain life—and especially for a red birthmark, low on his left cheek. disappearing under the turn of the jaw. #### For Itching Scalp

You do not want a slow treatment or itching scalp when hair is falling and the dandruff germ is killing the air roots. Delay means—no hair. Get, at any drug store, a bottle of emo for 25c or \$1.00 for extra large ize. Use as directed, for it does the tork, quickly. It kills the dandruff erm, nourishes the hair roots and imacdiately stops inching scalp. It is pure, reliable, antiseptic liquid, is not reasy, is easy to use and will not stain. loaps and shamp os are harmful, as hey contain alkali. The best thing to see for scalp irritations is zemo, for it is safe and lalso inexpensive.

## **SUPPLY OF NATION** AIM OF WOMEN

Suffragists Receive Call to Mobilize For Farming and Gardening

A new national defense force is to make its advent throughout the country—a force which is described by Assistant Secretary Carl Vrooman, of the United States Department of Agriculture, as one which will be of as much value in times of peace as in war. It will operate under both federal and state supervision.

This new force will be feminine in gender and suffragistic in efficiency. In addition it will have an important integral part in Pennsylvania. In fact, it will carry women back to the land, wherever that land is—in rural, urban or suburban districts.

State Burcaus

wherever that land is—in rural, urban or suburban districts.

In brief, the movement described is the mobilizing by the National American Woman Suffrage Association, the Pennsylvania Woman Suffrage Associations of their entire membership to work under a "Department of Suffrage Agriculture" to increase the national food supply by gardening and farming and the elimination of waste. Members, in all probability will adopt a simple uniform, and, following an enrollment which is to take place immediately, will inaugurate in detail a great department having a central unit in every state in which it will operate and local bureaus in various sections of the states.

The new "department" is the direct result of a note sent to the President and government February 25, which was accepted by the Secretary of War. This note was forwarded by the executive council of the National Association and offered the entire machinery of that organization to the President in event of hostilities between this and any other country.

The general plan of organization includes:
Chairmen for each state to have charge of suffrage agriculture with an executive committee to assist her.
Co-operation with State Department of Agriculture to map out and put detailed plans into effect.
Organization of local leagues to have suffrage agricultural chairman, who will enroll women into non-dues-paying farm-garden-and-vacant-lot clubs. Pledging each woman member to farm or plant a vegetable garden on her own lot or on land to be secured.
Co-operation in a movement for cultivating vacant city lots.

Studying courses in gardening and farming.

Distribution of national and state agricultural bulletins.

Public lectures with speakers from county farm bureaus and State agricultural department and colleges.

Suffrage agricultural booths at county fairs.

Agricultural automobile campaigns.

Prizes to be awarded for best vegetables.

Canning centers in charge of trained women from agricultural schools.

Instruction of canning volunteers.

Already in the Ranks

Farming and gardening as directed by the "Department of Suffrage Agriculture" throughout the country will not be a novelty so far as nearly two million women are concerned.

The census of 1916 shows that an army of women farmers and gardeners already exists, listed as follows:

Farmers ... 257,706

Farm laborers ... 1514,423
