

OPEN UNION DOOR TO PROVIDE MEN FOR WAR WORK

Labor Barriers Lifted to Fill Ranks in Federal Shops and Yards

APPEAL TO LEADERS HERE

Efforts Being Made to Mobilize Harrisburg Boilermakers and Machinists

As a patriotic step, barriers between union and non-union labor all over the country may be swept aside so that the government will not be handicapped in mobilizing skilled artisans for Federal work.

Local labor leaders are in favor of the plan. They say that there could surely be no objections to opening the doors at this critical time in the nation's life.

Efforts are being made here to recruit machinists, boiler makers and artisans of all descriptions for work in government yards and arsenals.

Appel to Labor Leaders

George S. McCrone, secretary of the board of examiners of the United States Civil Service commission, with headquarters at the local postoffice, has sent out letters to all labor leaders in this section asking them to give him the names of all unemployed mechanics. The commission is compiling a list of mechanics not already engaged in government work, who would be willing to accept employment with the government at once and also a list of those who would not accept immediate employment, but would accept in case the country urgently needs their services.

Positions are open to machinists, boiler makers and artisans of all descriptions at the various arsenals and navy yards. Persons wishing to apply for present vacancies or to enroll subject to call by the government can secure the necessary papers from George S. McCrone, secretary of the board of examiners at the local postoffice.

Philadelphia Responds Promptly

Applicants will not be required to appear before a board of examiners but will be rated upon the evidence in the application papers. Papers will be rated by the commission at once and if satisfactory the applicant will be notified to report for duty.

LOCAL RED CROSS IS WORKING HARD ON MERCY TASK

Making Wonderful Strides Despite Lack of Funds and Workers

ALL KINDS OF SUPPLIES

Everything For Comfort of Wounded Being Manufactured

[By Anna Hamilton Wood.]

The meaning of the great American Red Cross Society is expressed in two words, "Humanity" and "Neutrality." It carries as its insignia the precious emblem of the hope of the human race dyed in the blood of all mankind. It recognizes no creeds or nationalities but follows in the footsteps of the Great Physician. It has been a blessing to the war-scarred countries of Europe during the past three years, but now, at the home call, it has arisen and is answering valiantly.

The National Red Cross is appointed by Congress and the Proclamation of the President of the United States of August 23, 1911, the agency which must make preparations in time of peace to assist the Medical Departments of the Army and Navy in time of war.

All over the country base hospital units are being organized under its auspices.

Ten Die and Many Are Lost in Sinking of Ship by Submarine

London, March 30.—The British steamship Alnwick Castle has been torpedoed in the Atlantic ocean. Some persons are reported dead and others are missing.

The Admiralty has informed the Associated Press that the Alnwick Castle was torpedoed without warning March 19, in the Atlantic, 329 miles from the nearest land. On the previous day the steamship had rescued the crew of another British steamship that also had been torpedoed.

The passengers and crews of both vessels abandoned the Alnwick Castle in five lifeboats. These boats landed on the Spanish coast. It originally contained twenty persons, including a stewardess and a child, but five of them died. All the survivors in this boat were rescued from the wreck.

Three other boats also were picked up during the week, one containing twenty-seven, another twenty-nine, and the third twenty survivors. In these boats there were five dead. The fifth boat that put out from the vessel has not yet been accounted for.

The British steamship Alnwick Castle measures 5,999 tons gross and was owned by the Union-Castle Mail Steamship Company, of London. She was 499 feet long and was built in Glasgow in 1901. There have been no recent reports of the whereabouts of the Alnwick Castle and she probably was in the service of the British Government.

"We Are Americans or Not Americans," Foreign Born Citizens Are Told

Salt Lake City, March 30.—More than a thousand German and Austrian residents of Salt Lake last night accepted the invitation of Governor Simon Bamberger to attend a mass meeting for the purpose of non-partisan, non-sectarian discussion of the international crisis.

"The time has come," said the Governor, in opening the meeting, "for us to call a spade a spade. A man or woman is or is not an American. His or her right to freedom is governed by no half-way course. The time for silence is gone and the time for the expression of faith is here."

Resolutions pledging the faith and allegiance of Americans of German and Austrian birth or parentage were adopted unanimously and ordered transmitted to President Wilson through the Governor.

Walks 25 Miles to Take Up Arms For Uncle Sam

Newark, N. J., March 30.—Andrew Miller, a young farmer who is on his way to-day to join the United States marines at Charleston, S. C., walked twenty-five miles to enlist because he had no money and was too proud to beg a ride.

"I want to fight," he told the recruiting officer. "I was working in a field when a fellow came along and said the Germans had declared war on the United States and were bombarding New York city. I dropped my hoe and didn't even wait to get the money that was coming to me. I don't need a uniform; all I want is a gun."

CITY'S LATEST CONTRIBUTION TO UNCLE SAM'S FIGHTERS

Recruits still continue to swell the splendid sum total that the Harrisburg Recruiting Office is sending to what may be "The First Line of Defense." F. J. CITY IS IN GRIP OF GREAT BUYING FEVER

Harrisburg has a real epidemic on its hands. The "buying fever" that has been developing the last few days has spread all over the city. The big rummage sale, the source of the contagion, got in its deadly work yesterday and tightened its grip on the purse of the people.

The 3,000 that caught the spendthrift germ yesterday transmitted it to additional thousands in all parts of the city.

WAR SYSTEM OF WOUND-TREATING TO BE INSTALLED

Hospital Physicians Studying Carrol-Dakin System Preliminary to Adoption

To learn the latest developments in the use of the Carrol-Dakin method of treating antiseptic wounds, Dr. Carson Cooper, 233 Pine street, has gone to Pittsburgh to make a study of the various hospitals where it is installed. It will probably be installed at the Harrisburg Hospital.

The Carrol-Dakin method of treatment, a result of the present war, is used extensively on the battlefields of Europe. It consists of an elaborate arrangement whereby a wound is soothed and healed by a constant flow to an antiseptic solution. Wonderful results have been attained.

The system of treatment has been explained in detail before the Dauphin Medical Society recently by Dr. William O'Neill Sherman of Pittsburgh, and Dr. Piper, who was with the American Corps in France. It has been also experimented with at the Harrisburg Hospital with success.

Berlin reports that the Germans gave way on the front indicated after an engagement with stronger British forces.
