**TO STUDY DUTCH**  
The Hague, Netherlands, April 3.—Signs are not wanting that, partly as a consequence of the war, the Dutch language is to take a more prominent place in the world than it has done in the last century. Plans on foot to establish a chair in the Dutch language, literature and history at London University, a movement that has attracted the more interest in the

British metropolis because of the numerous and growing Dutch-speaking population that now forms part of the British empire, as citizens of United South Africa.

**WANT TO PAY TAXES**  
Stockholm, April 3.—A sudden rush of delinquents to pay up back taxes has been the immediate result of a new regulation providing that passbooks entitling the holder to buy intoxicating liquor will not be issued to persons on the delinquent taxroll. Loss of the electoral franchise until their taxes were paid had not prevented hundreds of delinquents from neglecting to square accounts with the tax collector, but the threat to make it impossible for them to obtain intoxicants has brought some thousands of crowns into the city treasury.

**MICE IN TRENCHES**  
Rome, April 3.—A young officer, son of General Spingardi, former minister of war, writes that, in his part of the front, the trenches are overrun with mice. "We have devised," he writes, "a splendid system for catching these little pests. We cut the corner off a sack and prop it open, putting inside cheese. We hide ourselves and watch the mice entering through the hole. At the opportune moment we pull a string which suddenly closes the hole. We rush to see what has we have made and sometimes we have found as many as 200 tiny prisoners."

**ITALY TO EAT BY TICKET**  
Rome, April 3.—The government is now organizing a system throughout Italy for the distribution of the neces-

sities of life by means of tickets in order to suppress the inequalities which heretofore have existed in the 69 provinces of the kingdom. In the province of Mantua each individual has been allowed to have less than two ounces of sugar every ten days, while in the neighboring provinces there is no limitation on the purchase of sugar.

**WHAT PROSPERITY IS**  
During 1916 the biggest chain of five-and-ten-cent stores in this country scored a 30 per cent. increase in total sales, mostly from steady customers. One of the standard shirt companies more than doubled its usual profits. That's what prosperity means for most of us; not mountains

of pig iron and a universe of bank clearings, but some more little things for the missus and the kids and a new shirt for the old man. We don't all ride in limousines.—Collier's.

**ADDRESSES MINISTERS**  
The Rev. J. A. Hollenbaugh, of Carlisle, presiding elder of the Carlisle district of the Central Pennsylvania Conference of the United Evangelical Church, read a paper entitled "Some Things a Presiding Elder Would Like His Preachers to Do" at the meeting of the United Evangelical Ministerial Association of Harrisburg in the Young Men's Christian Association conference room this morning.

**SELLS AUTO FOR \$35,000**  
London, April 3.—An automobile which was built in Germany for the personal use of Emperor William and which had been sent to London just before the war to be fitted with an English body, has just been sold for \$35,000 to a Danish shipowner. The car has been in the hands of the body-builders ever since it was finished and was ordered sold by the courts to satisfy their charges. It is called by English experts the most luxurious automobile ever built, and the price paid for it at auction is believed to be a record for a car for personal use.

**FRENCH RESUME RACING**  
Paris, April 3.—Racing in France will shortly be resumed at both Chantilly and Maisons-Lafitte, but the races will only be in the interests of breeders. There will be no betting and the public will not be admitted.
