Bathe Internally And Keep Well

Nature has mightily equipped us all, old and young, to resist disease—but she requires that we give her a chance. We give her no chance if we permit the Lower Intestine to be more or less clogged with accumulated waste. Yet that is a universal condition to-day, as is proven by the number of laxative drugs that are consumed.

You can help Nature in Nature's most effectual way by Internal Bathing and in an easy, non-habit-forming way keep the Intestine as sweet and clean as Nature demands it to be for perfect health and surer defense against contagion. Over half a million keen, bright, healthy people testify to its results.

Mrs. Roy W. Bisalaki, of Lancaster, Pa., writes:
"I have derived much benefit from the use of the 'Cascade' which I purchased last fall, and think the whole-some advice given in 'The Royal Road to Health' would alone bring a satisfying comfort to many sufferers. Yours truly."

Just call at Croll Keller, 405 Market street and Geo. C. Potts, Drug Store, in Harrisburg, and request free booklet, "Why Man of To-day Is Only 50 Per Cent. Efficient." The most efficient device for Internal Bathing, the "J. L. Cascade," will also be shown and explained to you if you so desire.

Don't suffer longer from Catarrh, Clogged Nostrils, Droppings in Throat, Chronic Colds, Raising of Mucus or any other catarrhal symptom.

Things That Interest a Woman

"The Philadelphia Record" was the first newspaper in this country to publish a Woman's Page daily, and though many have since followed its example none has yet succeeded in producing one possessing such a community of woman's interests, or that offers its feminine readers such a splendid page of news pertaining to their interests.

MRS. BRAINY. Twice a week it is devoted to . Domestic Science, pointing out practical ways to reduce the cost of living; giving appetizing menus that make it easy to plan three satisfying meals a day; showing how to do this, that or the other thing more easily; delving deep into all of the difficulties of housekeeping and successfully solving many of its knottiest problems.

This department, as well as the Domestic Science Page on Sunday, is under the personal supervision of Mrs. Nevada Hitchcock, the famous dietician, lecturer and instructor in Domestic Economy.

On the other days of the week this page is devoted to general feminine activities. Fashions are sketched by our own artist in Paris, at Palm Beach, in New York, in Philadelphia's shops, so that the latest quip and turn of the mode is quickly pictured and described.

Society is in the capable hands of Miss Agnes Repplier, 2d, probably one of the best-known social writers in this country, and she gives you the latest news of society's events in a most enjoyable and entertaining fashion.

And all other woman's activities receive similarly generous attention, making this a page that is invariably of unequaled interest in every particular.

Why not notify your newsdealer to deliver "The Record" to your home regularly? Or if more convenient notify us and we will attend to it for you.
