Employes May Raise Vegetables; Many Accept the Opportunity

The Pennsylvania Railroad Com-

The Pennsylvania Raliroad Company will give to its 150,000 employes means to combat the high cost of living by making available for them for farming purposes thousands of acres of land along the raliroad lines that hitherto have lain dormant and untilled.

A series of gardens where raliroad men can till the soil and raise vegetables will stretch at intervals along and near raliroad ties from Chicago to the Atlantic seaboard.

While there is no land within the Harrisburg city limits, plots at Rock ville, Enola, and along the line of the Philadelphia and Middle divisions will be given over to employes.

Already a number of Harrisburgers who have summer cottages along the Susquehanna river have taken over gardens. Hundreds of employes on the eastern lines, east of Pittsburgh, in Delaware, New Jersey, Maryland and Pennsylvania have expressed their intention of obtaining plots, unavailable at present for railroad purposes, where they may produce food. Scores of others who own little gardens and homes near the railroad jurposes, where they may produce food. Notices Posted

Notices have been posted by the Pennsy at points along the railroad lines notifying the men that land which is not to be taken within a year for agricultural purposes. The procedure will be to apply to the division superintendent for a plot. The products of the soil will be the tiller's, for use by his own family or to sell.

Thomas W. Hulmes, real estate officer of the Pennsy, in conjunction with Elisha Lee, general manager, will have direct charge of parceling the land. The offer, it is believed, will be particularly taken by the railroad men living in the country or in small towns.

Extension of Immense

Credit of the Allies

Planned by America

By Associated Press

Washington, April 7.—Plans for financing the war were discussed today by Secretary McAdoo with members of the House ways and means committee and with Chairman Simmons, of the Senate finance committee.

The \$3,400,000,000 already asked for the army and navy is expected to suffice in addition to the regular appropriation bills, until June 30, 1918.

The step considered most important now is the extension of an immense credit to the entente allies—probably at least \$2,000,000,000—as an indication that the nation is going into the war to the limit with the resources most readily available.

Bonds under such a plan would be issued to take over bonds of the allies, making them in effect security or those obligations. Most of the noney derived from such bonds, it is spected, would be spent in the United ates.

Details of that sort of a bond issue we not been worked out but it is extended to congress in the question.

expected, would be spent in the United States.

Details of that sort of a bond issue have not been worked out but it is expected legislation to provide for it will be presented to Congress soon.

On the question of taxation, Congress leaders feel that the burden of the war would be about equally divided between taxation and bond is sues. It was said to-day there would be no attempt to drain the wealth of the country by enormous increases in the income and corporation taxes and a higher tax on excess profits, but it was declared wealth will be forced to share its portion of the burden. "The young men of the country," said Chairman Simmons, "are going to risk their lives in this war and the wealthy who may not be able to risk theirs should contribute from their wealth."

Two aliens this morning toc's the first papers announcing their larging and three others took out see papers. They were granted to vani Terrante, a machinist at St. Stefan Kuhn, of Enhaut, a native Hungary. Terrante said he intended to share its portion of the burden. "The young men of the country," said Chairman Simmons, "are going to risk their lives in this war and the wealthy who may not be able to risk theirs should contribute from their wealthy."

Washington, D. C., April 7.—Post-master General Burleson to-day suspended mail service to Germany during the war and also instructed all post offices to refuse as well any mail destined for Austria, Hungary, Luxembourg, Bulgaria and Turkey, as it cannot be despatched at present with from the countries last named which may be received in the United States will be sent forward to destination.

Why go limping around with aching, puffed-up feet — feet so tired, chafed, sore and swollen you can hardly get your shoes on or off? Why don't you get a 25-cent box of "TIZ" from the drug store now and gladden your tortured feet?

"TIZ" makes your feet glow with comfort: takes down swellings and draws the soreness and misery right out of feet that chafe, smart and burn. "TIZ" instantly stops pain in corns, callouses and bunlons. "TIZ" was slightly injured this morning when he was knocked from his bisect. No more shoe tightness — no more foot troubles.

EASTER WILL BE

Churches Will Add to

Easter this year witnesses the rebirth of a new spirit in Harrisburg—and the Nation. For both Church and State the month of April has sacred anniversaries and precious memories alike of sacrifice and triumph, and on the morrow, while the greatest event of Christianity is being celeprated, the hopes of civilization and democracy will be rekindled.

The Easter musical services in Harrisburg will strike a peculiar note of patriotic joy and gladness. The pulpits will bear messages pointing out the obligation of the citizen to his country as she enters a holy war for righteous purposes. The lily and the flag will join in animating the thousands in the pews with the spirit of self-sacrifice.

The day promises to be a pleasant one. The official forecast states that the weather will be fair with continued cold this evening and to-morrow. Bran — Scarce and firm; soft winter, per ton, \$45.00@45.50; spring, per ton, \$45.00@45.50; spring, per ton, \$44.50@45.00. Refined Sugars—No market.
