FERRYBOAT HANDS STRIKE

FERRYBOAT AT MILLERSBURG NARROWLY ESCAPES SWAMPING

With Three People, Six Horses and Mules and Two Vehicles Big Flat Makes Dangerous Trip Across Susquehanna,

Millersburg, Pa., April 7.—During the heavy wind and rainstorm on Monday evening Ferrymen Hunter and Radel were caught in midstream with a large flat boat which was loaded with six head of horses and mules, two vehicles and three people beside the ferrymen. Before reaching this shore the craft was nearly swamped. The river is at a high stage and on account of the waves, which were from three to four feet high during the blow, the boat became unmanage able and shipped large volumes of water. After considerable labor the crew made a landing at the mountain just above the falls and more than a mile below the regular landing. All got off in safety.—Expert tree trim-

Can you wash your walls?

You have often wished that you could remove spots and stains from vour wall paper. Perhaps the paper was almost new. In that case the marks must remain an eye-sore, or you must go to the expense of re-papering.

We can save you all such annoyances. We recommend that you use

in place of this unsanitary wall paper. It is an oil paint that gives to walls a beautiful, soft, water-color effect. If it becomes soiled, you can wash it with soap and water.

Besides being a thoroughly sanitary finish for your walls and ceilings, Devoe Velour Finish also offers artistic possibilities that cannot be attained by wall paper. Also, it is more economical—lasts longer than wall paper.

Devoe Velour Finish is not an experiment. We guarantee every can of Devoe we sell. Our customers tell us it gives them perfect satisfaction and that it is very easy to apply.

Port of Philadelphia to Close After Nightfall

By Associated Press
Philadelphia, April 7.—The port of Philadelphia will be closed indefinitely liereafter from 6 o'clock in the evening until 6 o'clock in the morning, according to orders received this morning from the commandant of the ing from the comma Fourth Naval District.

The Light Brahma, sometimes Brahmas in the New England States called the "king of poultry," though which have been exceptionally well of Asiatic origin, is the first product of the American fancier's skill. Those fowls were first brought to America Brahma were expected to England, the first of them going to the late Queen Victoria. Shortly after they became very popular on both sides of the Atlantic. Their great size, strength and vigor, and exceptionally fine qualities as table poultry endeared them to fanciers and commercial poultrymen alike.

There are several strains of Light to attain full development.
