"My whole system had been poisoned and defiled by chronic constipation," says Mattie Cook, of Steelton. Pa. "I always had the nastiest kind of a taste in my mouth, everything tasted as if it was rotten and I got so I was ashamed to talk to anybody because by breath was so foul that they would turn their heads away when I spoke to them."

"I felt downright miserable for I guess none of my digestive organs were working properly. My skin felt hot and dry all the time and I had lost all my energy and ambition.

"I had hunted and hunted for something that would help me but not one of the medicines I used did me a bit of good until I began taking Tanlac.

"From that very day I began to feel better and it wasn't long until the nasty taste in my mouth went away; I began to sit up and take a little notice and I found that I was on the mend.

"Now I am entirely freed from those disheartening afflictions and life is worth living once more."

Tanlac, the famous reconstructive tonic, is now being introduced here at Gorgas' Drug Store, where the Tanlac man is meeting the people and explaining the merits of this master medicine.

Laredo, Texas, April 10. — Communication between Mexico and Germany is being carried on secretly through a wireless plant located in Salvador, which was recently sent to that country from Mexico, according to Americans who have arrived here from Mexico. It is said that the plant was set up and is manned by Germans and that it is of sufficient strength to communicate direct with Berlin.

The wireless plants in Mexico, it is asserted, are not strong enough to communicate with Germany, but are efficient so far as the receipt and delivery of message to and from Salvador is concerned.
