

### WHISTLES SOUND AT FLAGRAISING

#### Ten Large American Emblems Run Up on Poles by Patriotic Railroads

On a signal blast from the whistle at the Pennsylvania Railroad shops today, ten large American flags were raised on as many poles. It was a memorable "Flag Day" for the 600 employees who participated. The big patriotic demonstration took place during the lunch period, starting at 12:30 and closing at 1 o'clock.

Flags were raised on the paint, tank, cabinet, boiler, machine, and pipe shops, erecting department No. 1, erecting department No. 2, enginehouse No. 2, storage warehouse, and power plant. Each flag was 8x12 feet in length, and cost \$1. The money was raised among the employees who up to date, in addition to paying for the flags raised to-day, have expended \$800 for smaller flags which were used in decorating the interior of the shops.

### STATE EDITORS PLEDGE SUPPORT

(Continued From First Page)

tue of authority of their representatives in Congress, have formally declared war upon the Imperial Government of Germany and have joined the cause of the allied peoples of Europe in their war to exterminate Prussianism and free all the peoples of the world from the frightful effects of the doctrine of might upon the individual rights of humanity and peoples of the world to govern themselves, therefore, be it

"Resolved, That we, the members of the Pennsylvania State Editorial Association, the Pennsylvania Associated Dailies and the Pennsylvania Weekly Newspaper Association, in joint meeting assembled do hereby heartily endorse and approve all that has been done by President Woodrow Wilson and the Congress of the United States in upholding the dignity and rights of the American people and in tendering their support with all that they have and all that they are, to the cause of the Entente Allies, and, further, be it

"Resolved, that we tender to the President, so that he can command us at any time, our fullest support individually and collectively in whatever manner we can serve our country in this, the greatest war since the beginning of time, which now involves the whole world, to the end that the United States may continue its great and enviable independence for all time to come and forever be a shining example and mentor for all overburdened peoples who have joined with the democracies of the world in our mighty effort to establish perpetual peace for all mankind."

#### GERMAN LINES ARE WAVERING

(Continued From First Page)

describes the importance of the Vimy heights. "They are admittedly the bastion of the enemy's western line. Whatever else has been allowed to go he held Vimy ridge with grim resolve and lavished upon it all the arts in fortifications and defensive skill that the war has taught him. Upon it hinges the whole strategy of the enemy's retreat in the west.

#### Vimy Important

"With Vimy firmly held he can swing his line farther south and back, until each part of it reaches the position where he has a mind to stand, and he can cover the French industrial district upon which he depends much for supplies. But with Vimy gone the defense of these districts can hardly be maintained. The pivot of the whole retreat shifts and gives backward and is in instant risk of fracture."

The issues depending upon British ability to hold the ridge are therefore immense. At the moment there is nothing to suggest a doubt that the ridge will be held, but the battle is still fiercely continuing and there is little disposition here to indulge in confident predictions.

#### Look For Retirement

Nevertheless the opinion is expressed that if the Germans are definitely driven from the ridge without hope of re-attacking, they are likely enough to be compelled to acknowledge defeat and retire to what is called the Meuse line, running from Verdun through Mezieres, Maubeuge and Lille.

In the meantime the fighting goes on over a front of about fifty miles, roughly from Lens to St. Quentin, the core of attack being around the north of Arras. As far as information goes everything is going well for the British and justifies their sanguine hopes, but the comments to-day generally including a warning not to allow these hopes to run too high. The enemy is known to have great reserves at hand and an iron compulsion binds him to make every effort to avoid defeat. The papers warn the country that it should await the event in a spirit of sober expectation and that it is not the time for exuberant boasting.

#### PREPARING BONDS

City Solicitor John E. Fox is preparing bonds to be filed so that further proceedings may be started in settling the appeals of property-owners in the Hardscrabble district. It is probable that bonds totaling twice the awards of viewers in each contested case will be filed.

#### MARINES GO TROUGH

### FOOD GAMBLERS HIT HARD BLOW

#### Suggestion of Meatless Days and Government Control Causes Price Drop

Chicago, April 10. — J. Ogden Armour's suggestion of meatless days and government control of foodstuffs was said to have influenced a sensational break in prices on the Board of Trade at the opening to-day. Part of the initial loss was subsequently recovered. Wheat declined five cents and provisions from 55 cents to \$1.55.

May wheat, which sold at \$2.15 last Saturday added five cents to yesterday's decline by dropping to \$2.02 on early sales. July sold at \$1.80 and September at \$1.65. July corn declined 5 cents to \$1.22. July pork which closed yesterday at \$37.35 a barrel declined \$1.55. July lard dropped \$1.50 from the previous final figures of \$30.50. July ribs lost 55 cents.

Notwithstanding that hog prices had risen this morning to a new record breaking figure, the provision market began to tumble as soon as trading opened.

#### Postal Clerks and Carriers to Turn Out in Patriotic Parade

All postal clerks and letter carriers will turn out in uniform for the "Everybody's Patriotic Demonstration" to be held in Harrisburg April 25. This announcement was made by Chairman Henry M. Stine from Postmaster Frank C. Sites to-day.
