SAYS BODY IS A POISON FACTORY

Urges everyone to drink glass of hot water before breakfast

Just as coal, when it burns, leaves behind a certain amount of combustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions of bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomain-like poisons are formed and sucked into the blood.

Gradually Be Taught

"For another thing they should be glad to make their living here and out of it pay their taxes here, but they should gradually be taught to appreciate it as a privilege to pay their taxes here instead of hoarding them up and every few months sending them back to the old mother country.
