

Paige Keeps Faith in Spite of Freight Shortage

With the demand the strongest it has ever been, but with transportation difficulties causing an manner of obstacles, the Paige-Detroit Motor Car Company has been put to the test to keep faith with its dealers and the public. Extraordinary efforts, however, have been made to meet the situation and by means of winter drive-away days and other devices to meet abnormal conditions, the Paige has succeeded not only in keeping promises to dealers and the public, but in making its best record for a month's business.

RHEUMATISM usually yields to the purer blood and greater strength which

SCOTT'S EMULSION

creates. Its rich oil-food enlivens the whole system and strengthens the organs to throw off the injurious acids. Many doctors themselves take Scott's Emulsion and you must stand firm against substitutes.

ARE BATHS NECESSARY?

This looks like a foolish question in this enlightened age, but there are nearly a million Americans who knew nothing of the value of a bath a few years ago and are now eager to testify that they are fully as essential to health as External Baths.

By a purely natural process of properly using warm water the "J. B. L. Cascade" removes ALL the poisonous waste from the Lower Intestine, which physicians agree is the cause of 95 per cent. of all human ailments. It instantly relieves constipation, properly regulates the bowels and prevents all the dragging down which Biliousness and Liver Troubles always create.

NO WAR CLAUSE

Why not buy your insurance where you get the most liberal contract? The Penn Mutual Life is still issuing policies without a war clause.

E. R. ECKENRODE 604 KUNKEL BLDG. GENERAL AGENT Phone 1316

The Stratford, Fairfield, Linwood, Brooklands and enclosed cars, the volume of business for these 31 days totaled \$2,755,000. This is not only the best March we have ever had, but it exceeds the record of any other month in our history. "We feel prouder of the fact that we succeeded in delivering the cars, and thus kept faith with the dealers, than we do of the record for volume of business. March is not an easy month at best, but never before have motor car manufacturers encountered such difficulties as those which prevailed during the month which has just closed. There was a hopeless chaos and freight cars and conditions became chaotic. We therefore determined that we would have to provide a solution ourselves and, as far as possible, make our own deliveries. In spite of the fact that the drive-aways are usually summer institutions and that March was generally a quiet month for us, making the roads horrible to travel over, we delivered a very large number of cars, under their own power, direct to dealers, and drive-aways became a daily feature. In some instances cars were delivered in this manner as far away as 700 miles. We will continue this method of delivery as far as possible, and thus keep faith with the dealers. It is in view of the facts I have just cited that we feel our March record is significant in more ways than one."

Jitney men All Assert Traction Service Inadequate in Certificate Hearing

The hearing of testimony in the case of the Harrisburg jitney men, applying for certificates of public convenience and the complaint of the Harrisburg Railway Company was continued to-day before Commissioner W. A. Magee of the Public Service Commission. Seventy-six jitney men have applied to the commission for certificates and testimony was taken in thirty cases up to a late hour this afternoon. It is expected to close the hearing late to-day.

NAMED TO FEDERAL POST By Associated Press Washington, April 12.—William C. Pitts, of Birmingham, Ala., was to-day nominated to be Assistant Attorney General. Mr. Pitts at present is a special assistant to the Attorney General and formerly was Attorney General of Alabama.

Don't be discouraged Resinol Soap will clear your skin

Many and many a girl has a clear, healthy complexion today because some friend came to her with that sound advice. Resinol Soap not only is delightfully cleansing and refreshing, but its daily use reduces the tendency to pimples, offsets many ill-effects of cosmetics, and gives nature the chance she needs to make red, rough skins white and soft.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you will breathe freely. No more dullness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night. Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

SHIRTS SIDES & SIDES

HEADQUARTERS FOR SHIRTS SIDES & SIDES

SOME OF UNCLE SAM'S FUTURE GENERALS

WEST POINT CADETS The cadet battalion at the United States Military Academy, West Point, N. Y., passing in review. It is from West Point that the United States gets its officers for its army. The present graduating class at West Point is to graduate several months ahead of time, in order to somewhat meet the demand for officers occasioned by the threatened war with Germany. In the event of war the term at the military academy will be shortened.

SOY BEANS A NOURISHING FOOD

Are Cheap but Contain Rich Supply of Valuable Nitrogen

Washington, D. C., April 5.—Soy beans, introduced into the United States more than a hundred years ago primarily for use as a forage crop, are in reality one of the most nutritious of the legumes when used as human food, according to specialists of the United States Department of Agriculture. These beans have been used for centuries as a staple article of diet in China and Japan and are coming to be used more generally in this country as consumers learn their food value and palatability. Since they furnish protein which contains nitrogen for muscle building, and valuable fat, they are especially important to turn to as an emergency addition to the usual dietary or as substitutes for other foods furnishing protein and fat. Moreover, the fact that they contain no starch makes them valuable for invalids who cannot eat starchy foods.

These beans may be grown easily in practically all sections of the country where corn is grown and give heavier yields than most other beans. Soy beans have been so important for other purposes that until recently they have attracted little attention for food purposes in this country. They are now coming into their own for that purpose, however, and the acreage of soy beans has increased steadily in recent years. The dried beans may be purchased now in a number of markets in various parts of the country, often under the name of togo beans, and should, with the increased acreage of the coming season, be more generally available. Soy bean meal, a by-product of oil making, is a valuable food and no doubt will come into more general use with the increased production of soy beans. Where dried beans are available they may be baked with or without pork like navy and other beans. They should be soaked over night and should be cooked longer than other kinds of beans. The cooking may be done economically in a fireless cooker or the sort provided with heating stones or plates; or on the ledge of the firebox inside the furnace if the house happens to be heated with one of this type. Dried soy beans have been canned in considerable quantities during the past season, baked with pork, and are on sale in this form in numerous markets. Canned green soy beans, which may be compared with Lima beans, also are on the market in some sections of the country. Both these canned products yield as high a proportion of energy and a higher proportion of protein than the canned beans with which they are most closely comparable, and so are more nourishing. Both are produced and handled usually at a lower cost than other beans and should, therefore, be obtainable at lower prices.

Corns Peel Right Off With "Gets-It"

2 Drops, and the Corn is a "Goner!" When you've got to walk on the sides of your shoe to get away from those awful corn-pains, there's only one corn-remover that will do it. Put 2 or 3 drops of "Gets-It" on the corn right away. Pain and inflammation will disappear, the corn will begin to shrivel from the instant it loosens and falls right off.

Use "Gets-It" Your Corns Won't Swell Later. Besides, They'll Shrive! Loosen and Peel Off!

There's no other corn-remover in the world that acts like "Gets-It." No new discovery has been made in corn-removers since "Gets-It" was born. Don't forget that fact. "Gets-It" does away forever with the use of salves that irritate, bandages that make a bundle of your toe, plasters that half do the work, knives and razors that draw blood. Use "Gets-It"—no more digging or cutting. "Gets-It" is sold everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill. Sold in Harrisburg and recommended as the world's best corn remedy by Clark's Medicine Store, W. H. Kennedy and Gottlieb Seal Drug Companies and Frank K. Kitzmiller.—Advertisement.

OXLAZE FOR ASTHMA AND BRONCHITIS

Brings quick relief. Makes breathing easy. Pleasant to take. Harmless. Recommended and guaranteed by George A. Gorges and other good druggists everywhere.

HELP FEED YOURSELF

Make Home Gardens and Back Yards Productive

Make every square yard of fertile, sunny soil produce food for your family. Make your ground work for you and the nation. Idle ground is waste; this is no time for waste or idleness. You can raise some vegetables for your family no matter how small a piece of ground you have. Somebody has to raise everything you eat—your share. Keep your soil working all season. 1. Keep your garden working all season. Hasten early crops by starting seed in boxes in the house, in herbbeds and old frames if the weather prevents outdoor planting. 2. Get your ground ready for planting as soon as the soil is dry enough to work. 3. Plant for early crops as soon as the weather permits. Make successive plantings of lettuce, radishes, beans, and other short season crops. 4. Start new crops between the rows of plants that are soon to be removed. 5. As fast as the ground is cleared of one crop start a new crop. 6. See that your garden toward fall is full of potatoes, beets, turnips, cabbage and other staple foods that can be stored for the winter. Your children, too, can help. Boys and girls can help to make the soil in your gardens, back yards and vacant lots produce food for the family. Last year they raised in their gardens and helped to can more than 4,000,000 packages of valuable food.

WASTE NO FOOD

(a) When we eat more food than our bodies need for growth and repair and to supply energy for our work. Over-eating tends to poor health and fat instead of brawn, makes us sluggish and indolent in food, and wastes energy and resources. Eat enough and no more. Eat for physical and mental efficiency. (b) When food is burned or spoiled in cooking. Improperly prepared or poorly seasoned food will be left on the table and probably wasted. Buy food wisely and then prepare it carefully. (c) When too much food is prepared for a meal. Unserved portions are apt to be thrown into the garbage pail or allowed to spoil. Many housekeepers do not know how to use leftover foods to make appetizing dishes. (d) When too much food is served at a meal. Uneaten portions are left on the plate and later thrown into the garbage pail. Learn to know the needs of your family and serve each no more than you think he will want. (e) When anything edible is allowed to go into the garbage pail or allowed to spoil for lack of proper handling. (f) When food is handled carelessly. Buy clean food, keep it clean until used, and be neat in all details of cooking and serving. This lessens waste and is a valuable health measure as well. Food Waste of About \$700,000,000 For partial immediate relief, every individual and community should consider earnestly the matter of food conservation and the limitation of waste. As a nation we seem to have a disdain of economizing. In many homes there is a strong feeling that it is "only decent" to provide more food than is needed. Learn to know the experts of the Department of Agriculture report to me that the dietary studies made by them point to an annual food waste of about \$700,000,000. Of course, the waste in families of very limited means is slight, but the families of moderate and ample means waste in considerable amount. Even if the estimate were reduced by half, the waste would still be enormous. "The food waste in the household, ALMOST ALONE Well, how did you enjoy that swaggy lawn party? I felt kind of lonesome. 'Tis he only thing that got gummy with me was a potato bug. A LUCKY THING. Hallo, old man! Thought you were going to die. What saved your life? The doctors gave me up. Hard up!— This thing of always having an empty pocket is mighty monotonous. Ezyrete — Yes, it might be relieved by having a little change. PUZZLED. Bill Bee: Hey Buz, what kind of a hive is that?"

NAVY IN GREAT NEED OF OFFICERS

Enlisted Men Now Have a Chance to Enter Annapolis Naval Academy

The need for additional officers in the United States navy is being more keenly felt, with the commissioning of every new dreadnaught. One of the last acts of the Congress which ceased on March 4, 1917, was to provide that 100 midshipmen at the Naval Academy, Annapolis, Maryland, were to be drawn from the enlisted personnel of the navy. Every enlisted man under twenty years of age, with one year's sea service, is eligible for one of these vacancies, and the examinations are entirely competitive, the highest 100 young men receiving the appointments. The average young man in the navy, like the average young man in civilian life, has not had a high school education, and this fact is inducing high school boys to enlist in the navy, as it is practically certain that any young man with a ground work of two years or more high school training, who really desires to enter Annapolis, can do so. Naval authorities consider midshipmen with this preliminary training of particular value, as their knowledge of naval affairs gives such young men a much better grasp of the possibilities of their future career, and is held by the candidates appointed directly from civil life by Congressmen. The men appointed from the enlisted personnel must be recommended by their commanding officer, and an officer zealous of maintaining the best traditions of the naval service, will give preference to the ablest men under him. This places the highest honors of the naval service within the grasp of any young man who has "future fitness to win."

EVERY RAILROAD MAN SHOULD READ THIS

Peterson Bros. Dear Sirs: I was afflicted with what the doctors called rheumatism. I received little benefit until about five weeks ago I have been treated them for about a year and they are gone. With all the treatments that were prescribed to me by several doctors I received little benefit until about five weeks ago I have been treated them for about a year and they are gone. I know and dozens of people write me, says Peterson, that Peterson's Ointment also cures eczema, old sores, salt rheum, piles and all skin diseases and all druggists sell a big box for 25 cents."
