

THIS CITY BIG INDUSTRIAL COG

Club to-day. Mr. Patchin discussed this country's present and future attitude toward foreign trade with the introduction of statistics that showed clearly how important it is for our businessmen to maintain our industrial strength throughout the period of international difficulty both for our own commercial salvation and that of weaker nations whose fate is interlocked with our own.

Good Health

good appetite, good spirits—mean no discord in the body. To keep the organs in harmony—when there is need—use

BEECHAM'S PILLS

Baby Keeps Well Taking Father John's Medicine

Sending in this picture, the baby's mother wrote: "When my baby William was about a year old he was very sick with bronchitis. I had my doctor come to see him but he did not seem to get any better, so I tried Father John's Medicine and it did him good. So I have given it to him every time I see a slight cold commencing and he has not had any trouble since. I think it is the safest and cheapest dollar I ever spent. So much good has been done for all my family through taking Father John's Medicine that I have had his picture taken especially for you. (Signed) Mrs. P. J. Sullivan, 29 Beacham St., Everett, Mass.

At this time of the year Father John's Medicine is of special value for the family because of its nourishing body building elements which give strength and help to build new flesh. Begin taking it now as the safest spring body builder. Remember, it contains no alcohol or dangerous drugs.

Dr. Ferdinand King, New York Physician and Medical Author Says: EVERY WOMAN EVERY MOTHER EVERY DAUGHTER NEEDS IRON AT TIMES To put strength into her nerves and color into her cheeks. There is a beautiful health-creating iron, checked women without iron. The trouble in the past has been that when women needed iron they generally took ordinary metallic iron, which caused constipation and corrosion of the stomach and did far more harm than good. To-day doctors prescribe organic iron—sustained iron. This particular form of iron is easily assimilated, does not blacken or inflame the teeth nor irritate the stomach. It increases the strength and endurance of weak, nervous, irritable, careworn, haggard-looking women 100 per cent. in two weeks' time in many instances. I have used it in my own practice with most surprising results. (Signed) Dr. Ferdinand King, M. D.

SPECULATIVE ISSUES ON UPWARD CLIMB

Munitions and Equipments Again Leading the Advance; Gains Made by Shippings, Metals and High Grade Rails; Bethlehem Scores

Washington, including \$3,000,000,000 loan to entente powers. To keep it up and bear its own vast war expenses the United States must adopt the sound motto, "Business as usual." Modern war is economic as well as military. "One of the most important problems now before the United States is that of maintaining our foreign commerce, particularly with neutral countries, during the war," Mr. Patchin said. "The credit resources which constitute the chief strength of the United States for war rest upon the gold reserve which has been expanded by the vast excess of exports over receipts since August 1, 1914. This has given us one-third of the world's total gold, enabled us to buy back \$2,500,000,000 worth of American securities held by Europe and to extend in loans and credits \$2,000,000,000 more to belligerents and neutrals. It is that situation which makes possible the present financing of a \$7,000,000,000 war finance program at

Philadelphia, April 12.—(Wall Street)—Yesterday's rally in speculative issues was resumed at the opening of today's market, munitions and equipments again leading the advance with shippings, metals and some of the high grade rails, notably the transcontinentals. Lackawanna Steel rose more than 2 points, with a point or better for Bethlehem Steel stock. Republic Public Iron and Steel, preferred, Ohio Gas and Industrial Alcohol, the latter, however, soon reacting. U. S. Steel gained a substantial fraction with Virginia Carolina Chemical, Central Leather and others.

Foreign shipping available for American trade is, through war losses and impairment, decreasing more rapidly than American tonnage is expanded. "The manufacturers of Harrisburg and Pennsylvania generally can render no more patriotic service than to aid in shipping tonnage in early delivery of the materials necessary for this unusual vessel construction. The program is really more engine building than shipbuilding proper, and provision for the rubber cup probably be more quickly obtained and put together than the machinery. The expedient is frankly an experiment, however, it is not the one to be recommended unless the normal commerce, and it would be unfortunate after the war if they were to be employed by the government in economic competition with private shipping enterprise. Meanwhile, however, every wooden ship that can be put into the Trans-Atlantic trade may be thought of as a vital element in domestic prosperity. At the Foreign Trade Convention in Pittsburgh a few weeks ago he paraphrased it to read, "No enduring prosperity without foreign trade."

Urge Better Tariff System "Against the possibility that a future shrinkage of American foreign trade will decrease the present abundance of prosperity, it is sincerely to be hoped that coincident with its war policies the Government will develop the following commercial policies, endorsed by several national foreign trade conventions and by sound business and economic thought: 1. Conservation of merchant tonnage, protection of dollar exchange, and foreign investment in order to maintain established foreign trade during the war.

Sound Foreign Policy "A sound national foreign trade policy is as important as a sound military policy. Its object should be to obtain and maintain America's rightful equity in the world's commerce. That equity is the share in international trade to which our productive resources, enterprise and skill entitle us, because of their usefulness to the rest of the world. No American citizen, thoughtful American citizen, desires more nor will be content with less. We require a sound foreign trade policy in order that our rights of equity in treatment may be assured. Not for selfishly unfairness the commerce, or blocking the industrial destiny of any people, we should in friendly competition stand out prominently among other cities in its co-operation with the Foreign Trade Council by sending its representatives to New Orleans, Washington and other cities for councils and conferences, contributing largely to profitable discussion and deliberations at such meetings," said Mr. Patchin.

headquarters to-day that the impression seems to have become widespread that joining the Red Cross makes one liable for actual war duty. This is incorrect, according to officers of the society. It was said, however, that nurses who wish to go to the front may sign up at the Red Cross headquarters at 208 Walnut street. Miss S. M. Murray, a Red Cross nurse, will address a meeting of the local chapter on Friday evening at 8 o'clock at the Harrisburg Academy of Medicine. All graduate nurses are urged to attend. The colors of the entente allies entwined with the Stars and Stripes bespeak the passerby to enter the lists of the Red Cross workers at the headquarters of the Harrisburg chapter. The flags of the allies and America were flying from the bannisters of the walls of the big room where the loyal legion of workers is turning out munitions for the hospitals.

Membership Fees The annual membership fee is one dollar, half of which is kept in Harrisburg for local work and half sent to the national fund; the subscription membership is \$2 including the magazine, 50 cents of which is kept in Harrisburg, 50 cents sent to the national fund. The money raised will be used for the purchase of all kinds of local Red Cross supplies and for the benefit of the needy families of soldiers at the front.
