quate appropriation.

It is quite necessary to do the grading so that the planting of trees and shrubbery may not be delayed. This grading will include the terracing along Walnut and Third streets, which highways will be increased in width by the elimination of the present brick sidewalks and the establishing of walks under the trees in the park at the top of the terrace.

All out for the big patriotic parade. Reading had 20,000 in line, and we can't take second place to Reading.

CALL TO SERVICE

THE President, in an address to the people of the country as a whole, and the Governor, in a nessage to the people of Pennsylva nia, almost simultaneously have issued urgent calls to national service. Both appeal to the very best there is in Am erican citizenship-just now, above all other times, it must be one for all and all for one if the nation is to come through triumphant. Every man and woman owing allegiance to the United One has to have his little footstool States must lend a hand in the emergency. None is exempt.

We are slowly awakening to the gravity of the situation that has been thrust upon us. We are beginning to best jewel we have .- Mary E. Wilkins. understand that each of us, whether or not we shall don the uniform of the army or navy, bust "do his bit;" that the safety of the nation does not prevail among the members of lie solely with the government, but the Legislature regarding final as well with the individuals that make adjournment indicates the probable up the government. We had come too action of the law-making body as to much to look toward the forces at the date, there yet remains less than Washington and the officials at Harof the important business that must risburg to perform all the services have consideration. There is no gen- of government for us, but we are now have consideration. There is no care of the at a time when each one must become laws, but there are certain measures a voluntary contributor to the efficiency of the government. For the providing a constitutional amend- sake of the country as a whole we must be content with small profits and reasonable wages. The man who tries to take advantage of the war to wrest the failure to give it a place on the high prices from his customers or extortionate wages from his employer is at heart a traitor to his country, corporate interests are opposing the proposition on the score that it might nterfere with their plans to exploit his fellows. It will go ill with the man communities for their own benefit. who uses the necessity of the present

Politics in Pennsylvania

MENTS IN THE

12TH SECTOR

By the Ex-Committeeman

The national crisis is not to be per mitted to interfere with the manufacture of campaign thunder by the Democratic state machine and it is now the plan of the State ringmasters' committee to take out of cold storage another proposed law designed to make trouble for the Republicans and to upset the present systems of appropriating money if possible. The Democratic bosses and legislators have been pointing with considerable eagerness to the differences among the Republicans lately and insisting that it is dreadful to have anything but harmony at this time.

To-day it is announced that the ringmasters will present another of the series of tried and rejected bills as a contribution to the general disturbance. The bill to be presented to the series of tried and rejected bills as a contribution to the general disturbance.

Within two or three weeks, recently two important things happened in the advertising profession, and they the of the publicans and the cost of the public and that, of course, means all of us. The first of those two was a deceive of the Associated Advertising clubs of the World to make a most searching investigation into the relationship between advertising and the cost of living, and th

line.

-According to some articles from Wilkes-Barre which are being printed in the newspapers there is a division in the State administration forces in Luzerne over patronage, and it may be reflected in the primary fight for county offices this year. It would also seem that some appointments sought in Luzerne have not been going that way.

Spring Fret

I do not feel like fighting Fritz,
And would not, save in self-defense.
But he will shoot my peace to bits
If I don't teach that guy some sense.
And think of it! He chooses spring To sail in and upset my plan: Just when the birds begin to sing And I get strong with Mary Ann

The fishing and the swimming, too,
They're getting good—and there's
the game!
Old Fritz, you don't know what you

do—
The way you spoil sport is a shame!
Doggone you, Fritzie, anyhow!
You ivory head; you heart of stone!
You've got me peeved—I'll teach you,

To let a peaceful guy alone!

Let the Staff Decide [Kansas City Times]

Act, and Act Now!

[New York Sun]

The planting season is already well advanced.

There remain not more than a few weeks for getting the seed into the ground. The period may be counted in days.

The farmers, handicapped by shortage of seed and of fertilizer, are now faced by lack of labor. They cannot get the help they must have to prepare the ground and provide for the fall harvests.

These facts are of vital moment to every American. They are of paramount importance to every soldier of the allies, to every worker in the shops and laboratories who labors for the downfall of Prussian autocracy. They are the prime factors in the struggle in which the United States has entered. Unless they are faced and the problems they set are solved now the outlook will be dark.

Despise Not the Poor

My brethren, have not the faith of olor. Lord Jesus Christ, the Lord of glory, with respect to persons. For if there come unto your assembly a man with a gold ring, in goodly apparel and then come in also a poor man in tyle raiment; and ye have respect to him that weareth the gay clothing, and say unto him, sit thou here in a sand say unto him, sit thou here in a sand say unto him, sit thou here in a sand say unto him, sit thou here in a sand say unto him, sit thou here in a sand say unto him, sit thou here in a sand say unto him, sit thou here in a sand say unto him, sit thou here in a sand say unto him, sit thou here in a sand say unto him, sit thou here in a sand say unto him, sit thou here in a sand say unto him, sit thou here in a sand say unto him, sit thou here in a same and staff bill providing for universal 'training and service was framed by men who understand the defensive needs of the nation in the definite and the advented of the the army needs and they know the as from our own past experience that they cannot be obtained by voluntary enlistment. fruit and vegetables are wasted in Pennsylvania farms every summer and fall because there are not enough people to gather the products and to take care of them. All of this can be saved and should be secured this year," declared State Dairy and Food Commissioner James Foust in a statement issued here to-day on ways to conserve the food supply. "The trouble is that the farmers and growers can not take care of it and it rots on the ground. It strikes me that people owning automobiles, grocers or food dealers ought to make it their business to find out when the tomatoes, potatoes, apples and other things are ripe and when they are being harvested and go out and buy up what they can. And then they should preserve it. The Dairy and Food Commissioner said that the State had lists of the farms and orchards and that people could learn where they were located in their neighborhoods very easily. He said that many farmers were only too glad to get extra hands when things were ripe and that the amount of produce that was lost because it could not be gathered or cared for would go a long ways toward increasing the food supply if made available. "There ought to be a revival of the old canning and preserving days," said the Commissioner. "People ought to can everything they are able to secure this summer, not in pint or quart cans, but in gallon vessels. Put up everything eatable this summer and go out and buy it in the country when possible. You will get right prices then and you will be glad of it next where."

Probably the last of the big cases in which John G. Johnson appeared ruit and vegetables are wasted in Pennsylvania orchards and on Penn-

get right prices then and you will be glad of it next winter."

Probably the last of the big cases in which John G. Johnson appeared in court outside of Philadelphia and Wilmington was in the test of the full crew law in the Dauphin county court. It was the first action to be brought against the act of 1911 and the noted lawyer made a terrific attack upon it, his speech being one of those famous constitutional arguments that have made him famous. Pitted against him were Attorney General John C. Bell, the chief legal officer of the Tener administration which had approved the bill, and James Scarlet, special counsel of the railroad brotherhoods. It was a two-day battle, one of the most notable ever waged in the Dauphin county court and the audience was composed of lawyers from every county in this section. In fact, outside of the railroad officials and men who were the interested parties and newspaper correspondents, the audience was made up almost entirely of lawyers, some of whom had to sit in spectators benches for the first time in their lives. Judge Kunkel upheld the constitutionality of the act and although Mr. Johnson promptly appealed, the higher courts sustained the Dauphin jurist. During the trial there was considerable jesting across the counsel table and a couple of times Messrs. Johnson and Scarlet were so busy with each other that the witness was quite lost sight of.

These are the dandelion days and the way men, women, boys and girls

ness was quite lost sight of.

These are the dandelion days and the way men, women, boys and girls are combing the fields and cutting out the weed which forms such a fine and healthful "side dish" makes one wonder whether there will be any of the yellow flowers this summer. The last few pleasant days have caused hundreds of people to take to the grass patches and to the fields about the city to dig up the young and tender plants. Dandelion does make fine eating at this time of the year and probably a couple of hours' pending over and cutting does give an appetite for it. People were to be seen along every road leading in or out of Harrisburg and Steelton Saturday, and even yesterday, cutting out dandelions.

The new home of the Country Club of Harrisburg has been an attraction for a good many visitors these afternoons. The clubhouse is showing its proportions and when completed will be one of the finest in this part of the State. Work is being rushed on the building and also on the grounds and the opening will be one of the events of the summer in Harrisburg social life.

Production of iron in Dauphin county will be on the greatest scale in its history within a short time when the Central Iron and Steel Company starts its remodeled No. 2 furnace. The activity at Steelton where the Bethlehem Steel Company has six furnaces at work is unprecedented and furnaces at work is unprecedented and the tonnage being turned out is prob-ably double what it was ten years ago.

ably double what it was ten years ago.

There is a great deal to the suggestion of a Philadelphia man connected with Governor's public safety committee that persons embarking in gardening or truck patching should learn all about seeds first of all. He points out that there is a limited supply of seeds and that many of them will probably be lost because of lack of care in handling them. It would seem to be an excellent idea for the people in charge of schools or of organizations which are backing gardening projects to have some talks on the characteristics of seeds and how to make garden. Gardening looks éasy, but the percentage of losses is pretty high in any event, to say nothing of what it will be when persons who do not know much about it take up the job.

The River Basin

The River Basin

The dam at Paxton street has done wonders for our river basin. From time to time there have been suggestions made to clear the river of dangerous rocks as far north as the Rockville Bridge. At least two channels should be cut to Rockville. This would furnish a fine run for motor boats. Every person who was fortunate enough to participate in or see the Kipona Carnival last fall will be heartily in favor of such a movement.
