STRENGTHEN AFRICAN FORCES

London, April 16.—The corps of African military workers behind the lines in France is to be very largely increased this spring. By summer it is expected that the native labor army will be multiplied to many times its original size. The experiment, according to army reports, has been a brilliant success. The chief fear, when the first detachments of natives were sent to France was that climatic conditions would prove an obstacle, particularly the rigor of the European winter. The mortality last winter, however, was very low, and the disease that was most dreaded, pneumonia, hardly existed among them.

MAID OF ALL WORK

Make things pleasant for the maid of all work if you would keep her services, we are told in the Woman's Home Companion, and see that the kitchen is to her liking.

First of all, put simple washable curtains at the windows, and provide a pretty table cover and a shaded lamp for evening use. If you can also have one or two comfortable chairs with washable covers, your kitchen ought to be a very homelike place.

Stomach Upset? Stop Indigestion, Gases, Sourness—Pape's Diapepsin

Instant Relief! Neutralize stomach acidity and stop dyspepsia, pain, heartburn, belching. Try it!

Wonder what upset your stomach—what portion of the food did the damage—do you? Well, don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belching and acids and eructate undigested food; usual food on tongue coated—just take a little Pape's Diapepsin to help neutralize acidity and in five minutes you wonder what became of the indigestion and distress. Millions of men and women to-day know that it is needless to have dyspepsia. A little Diapepsin occasionally keeps the stomach sweetened and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless relief is Pape's Diapepsin, which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops fermentation and acidity and sets things straight, so gently and easily that it is really astonishing.
