New York Capitalists to Have Millions of Acres Under Cultivation

By Associated Press. New York, April 19.—A number of wealthy residents of Long Island, including J. P. Morgan, Robert Bacon, W. K. Vanderbilt, Harry Payne Whitney, August Belmont, Benjamin F. C. Yoakum and others have formed a food reserve battalion. Their purpose is to furnish money, labor and ideas that will convert some 2,000,000 acres of untilled soil within a few miles of New York City into fields of potatoes, beans and corn.

Holders of big estates in the suburbs will be asked to release for the performances of ordinary farm work employees ordinarily engaged in tending flower gardens, clipping hedges and doing similar work not absolutely necessary. Many wealthy men have agreed to give up their chauffeurs to be used in handling tractors.

McClain Is Honored by the Newspapermen

Lieutenant Governor Frank B. McClain was last night elected to honorary membership in the Pennsylvania State Legislative Correspondents' Association, being the fifth man to receive that honor since the newspapermen who "cover" the Legislature formed their organization here thirty years ago. Mr. McClain was elected in recognition of his championship of newspapers in the days of the press "muzzler" and of efforts in behalf of better conditions for correspondents at the Capitol. It was also brought out that the Lieutenant Governor has written considerably in his own city newspapers.

The election took place at the dinner given by the correspondents to the retiring president of the association, R. Goshorn, of the Pittsburgh Dispatch, an elaborate affair, which was held at the Columbus. A number of former legislative correspondents were present and Mr. McClain was the only guest. Among the men who have "covered" former sessions who were present were: Peter J. Hoban, for years with the Philadelphia Public Ledger; John E. Short, now a Clearfield editor; Robert W. Herbert, editor and publisher of the Greensburg Tribune, and who was for years connected with Pittsburgh papers; John P. Dohoney, of the Public Service Commission, formerly a correspondent; Thomas J. Walker, Philadelphia Ledger; Lee Ellmaker, formerly of the Philadelphia Press, and others.

Petrograd Press Criticizes Socialist Peace Efforts

Petrograd, April 19.—The Petrograd papers severely criticize a speech made by one of the returned Socialist exiles, Lenin, in which he advised the provisional government to solicit peace with Germany. The Ruskoye Volia says there is no difference between Lenin and Sturmer, both of whom sought to impose on Russia a shameful and disadvantageous peace.

ACADEMY. Mr. Phipps, tennis coach of the Academy, announced yesterday that all the entries in the spring tennis tournament, both singles and doubles were open. All the matches will be before Friday evening so that lots can be drawn and the lists posted. Two silver cups are awarded to the players, who win the championship in the doubles. In the singles, the winner receives a silver cup and the runner up also one. Owing to the fact that the limestone courts need repairing, it may be necessary that some of the players must use the clay courts, but the limestone courts will be put in playing condition as soon as possible.

A SAFE AND SURE WAY TO PROVIDE FOR OLD AGE

In the Woman's Home Companion Albert W. Atwood says: "Probably the best method would be for you to ask one or more life insurance companies to suggest a suitable form of annuity. One company, which calls this particular sort of annuity an 'income bond,' will pay you \$40 a month after you have reached the age of fifty-four for the rest of your life, in return for payments on your part up to the time you are fifty-four years old of \$54.88 every three months. If you should die before you are fifty-four, the sum of your payments will be returned to any person you name the sum of the payments you have made, or, if you should die after receiving one or more installments of monthly income, and if at that time the sum of the payments received by the company exceeds the sum of the payments of monthly income to you, the excess will be turned over to your heir. This is an absolutely safe method of providing for the future."

WON FAME AND GRATITUDE BY BECOMING AN EXPERT KICKER

In the Woman's Home Companion we read the story of a woman who won respect and admiration for herself by learning to stand up for her rights in a scientific manner. "I am, I suppose, as successful a 'kicker' as anyone who ever wrote a letter of complaint, or filed a protest, written or verbal, over an annoyance or injury," she tells us. "Kicking, in this fashion, has become an established habit with me, and when I think of the gratitude that has been poured out to me by department store heads, railroad officials, and other Great Powers, and of the apologies that have been my portion after my kick has been duly registered, I feel that the habit of kicking is a good one and that it should be a duty as well as a habit with every right-minded citizen."

WHITE LIES AND BLACK

In the Woman's Home Companion one woman accuses another of "living dishonestly," saying: "Did you not tell Mrs. Brown that the presence of callers prevented your keeping the engagement with her yesterday afternoon? The seamstress coming to plan out your week's work could hardly be designated as a 'caller,' could she? And you let your best friend think your new dress was silk when it is merely a very clever imitation. Norma cannot afford to dress as well as you do, and you knew by her silence that she felt out-of-date and uncomfortable in her old gown. "When little Mrs. Fayne came in so happy because the Huntleys had asked them to go to the races on their yacht, do you remember how subdued she looked when you answered: 'Yes, they asked us last week to go, but we could not get away.' "They did ask you to go for a day's picnic, but not to the races. It was only half a truth at best, and yet you allowed her to go away with a feeling that they were asked merely to 'fill in.' "My dear, it isn't the way to begin life, believe me. You do not enjoy that sort of treatment from your friends. Do not subject them to it. It is not necessary to wear an ugly gown because you cannot afford a genuine silk, neither need you tell everyone what it is. But do not let the dear, dear friend believe something about you which is not true. Only real friends deserve something truer and sweeter than that for their friendship."
