"Mr. President:

"Standing firmly upon our solid Catholic tradition and history from the very foundation of this nation, we reaffirm in this hour of stress and trial our most sacred and sincere loyalty and patriotism toward our country, our government and our flag.

"Moved to the very depths of our hearts by the stirring appeal of the President of the United States and by the action of our national Congress, we accept whole heartedly and unreservedly the decree of that legislative authority proclaiming this country to be in a state of war.

"We have prayed that we might be spared the dire necessity of entering the conflict. "Acknowledging gladly the gratitude we have always felt for the protection of our spiritutal liberty and the freedom of our Catholic institutions under the flag, we pledge our devotion and our strength in the maintenance of our country's glorious leadership in those possessions and principles which have been America's proudest boast.

"Inspired neither by hate nor fear, but by the holy sentiments of truest partiotic fervor and zeal, we stand ready, we and all the flock committed to our keeping, to co-operate in every way possible with our president and our national government, to the end that the great and holy cause of liberty may triumph, and that our beloved country may emerge from this hour of test stronger and nobler than ever.

Germans Mass Troops For

New Drive on Petrograd

Petrogfad, April 20. — German preparations to attack the northern front, supported by a German fleet, reports of which appear to be well founded, bear out the War Office warning recently issued that the enemy means to march on Petrograd. The preparations consist of the massing of troops on the Dvinsk-Riga front and the concentrating of transports, warships and shallow-draft ships in Baltic Sea ports. A portion of the German fleet is reported to have moved from Kiel to Libau.

It is regarded here as extremely probable that the plan is to cut off Petrograd from the active army. The German efforts to spread discontent in the Russian army have developed an ingenious device of loading shells with copies of Chancellor von Bethmann-Hollweg's Reichstag speech of March 29 and firing them into the Russian lines.
