United Grocers Corporation TOLEDO, OHIO The United Grocers Corporation is a holding company, owning the securities of many other non-competitive companies, and by this method consolidates and amalgamates the manufacture, production and distribution of food merchandise.

Amalgamation and consolidation of diversified food manufacturers, packers, canners and brokers result in manufacturing and brokering profits, economical operation, quicker turn overs of merchandise and the consequent saving in cost of production, advertising and sales distribution.

Some of the companies whose securities the United Grocers Corporation has obtained in pursuance of the foregoing plans are: United Food Products Mfg. Company, Toledo, Ohio.

Wilkes-Barre Who. Grocery Company, Wilkes-Barre, Pa. United Printing Company, Toledo, Ohio.

The Rice Grocery Company, Scranton, Pa. Central Brokerage & Importing Co., Toledo, Ohio.

S. R. Smith Company, Grantham, Pa. Grantham Preserving & Pickling Co., Grantham, Pa.

York Wholesale Distributing Co., York, Pa. Considering the volume of business that is being done at the present time by the companies affiliated with the United Grocers Corporation, and those companies under contemplation of purchase, together with the improvements that are being installed in the company's plants, the volume of business that will be done annually by the combined consolidation should reach a very large and satisfactory total.

The United Grocers Corporation's plans of operation which combines manufacturing and brokering, with its sales organization and extraordinary distributive outlets, a conservative estimate on net profits on volume of business to be done should make the capital stock of the corporation a most satisfactory and profitable investment.

There is now and has been for some time, an actual shortage throughout the country of food products of the various varieties and kinds of United Grocers Corporation manufactures, packs, cartons, cans, handles, etc., through its subsidiary companies. The ever increasing demand and shortage for food products far exceed the capacity of existing American manufacturers.

SAFETY OF PROFITS There is no safer business than the food industry. The people of the world must be fed, and there could not be a more opportune time than at present to promote and engage in the manufacture, production and distribution of food merchandise.

It is a well known fact that concerns such as the Quaker Oats Company, Cream of Wheat Company, Heinz and many other similar companies have earned and paid enormous dividends to their shareholders for many years.
