STARTS WORK

proceedings. Spencer C. Gilbert, a resident member of the State Com-

proceedings. Spencer C. Gilbert, a proceedings. Spencer C. Gilbert, a resident member of the State Commission appointed by Governor Brumbaugh, presided during the preliminaries, and set forth clearly the various steps that have already been taken by George W. Pepper, the genéral chairman, and those associated with him. So far as possible the work of the various local committees will be outlined by the general committee at Philadelphia and in this way there will be effective co-ordination of the important matters to be worked out for the benefit of the State and the nation.

Other members of the General Committee present were: William Jennings, who was subsequently elected chairman of the local committee; Charles H. Bergner, E. J. Stackpole, James M. Cameron, Vance C. McCormick and W. M. Donaldson.

There was also a good attendance of the members of the local committee appointed by the Governor.

Secds Will Be Supplied

Seeds Will Be Supplied
After some general discussion as to
the expansion of the local committee
Chairman Jennings was authorized to
appoint such subcommittees as he
may find necessary for the prosecution of the work from time to time.
It was developed during the meeting that arrangements are being
made at the general headguarters at
Philadelphia for procuring seeds and
other materials for the general planting program which is being arranged.
Owing to the large scope of the work
to be done there has necessarily been
some delay in the organization of the
local bodies, but every precaution has
been taken to avoid overlapping and
waste effort.

Will Name Executive Secretary
An executive secretary in charge
of the local work will be appointed
soon and through his office the work
of the various subordinate organizations will be co-ordinated in the interest of effective co-operation. Secretary Brandt will immediately report the organization of the local
committee to the headquarters at
Philadelphia.

To Help Destitute Families
Mrs. Lyman D. Gilbert, who has
been doing admirable work as head
of the Harrisburg Chapter of the Red
Cross, states that a committee had
been appointed by that organization
for the care of those who will need
help when breadwinners shall have
gone to the front. It was also explained that the women will probably
have to take the places of many men
in those fields of endeavor for which
they are qualified. In the Department of Civic Relief there will be investigation of all cases in which
hardship results from the enlistment
of the chief wage-earner of the famfly. This committee will also have
charge of the investigation of all
ther social or economic consequences
of war conditions, especially with reference to moral problems incident to
the location of camps or bodies of
troops in the committee's territory.
For the present the activities will be
limited to an investigation and local
study of these problems.

Plan Farm Survey

Every effort will be made through
the local committee to minimize the
danger of food shortage. There will
first be a survey of agriculture and
labor conditions in this territory with
the hope of increasing cultivated
press during the season.

Already the local order of the Red
Cross has secured pledges from the
swners of automobiles for the use of
their machines in case of emergency.

It is probable also that the local committee and its subcommittees will take part in urging enlistment and in such other service of this character as may be necessary.

The Legislature is now authorizing an appropriation of \$2,000,000 for the national defense activities of the Albert Shenk, Hershey; Quincy Bent, Commonwealth and from this appropriation will be paid the cost of making an industrial survey and census.

ing an industrial survey and centus.

Lycoming county has prepared a father comprehensive and practical plan of operation, which includes a committee on agriculture and food supply, home gardening and canning, paneral crops and labor, animal husbandry and poultry and fruits and market gardening. In short, all who are interested in helping are urged to get busy in raising food of all kinds.
