Nobody can foretell all the byproducts of the war. Certain it is
that a new sense of the unity and
solidity of the two Americas will
eventuate. While war severs, it also
binds. This grave ordeal is teaching
the self-governing peoples of the
New World that they have a common mission and a common identity.
For weal or for woe, they are bound
together. Therefore the first and
most obvious obligation is for the
United States and Canada to seek
to understand us." Anybody who
reads the U. S. consular reports from seads the U. S. consular reports from
latin America knows that we have
made a record of arrogance, dictatorial methods and amazing provinceilism. There has been almost no
effort to enter into a systematic comprehension of the needs and tastes
of the people. In like fashion, we
need to approach the more basic
things of Latin-American life: their
spiritual lacks and longings. For
the only way to win men to religion
is to brother them into it.

Only a vital faith can make a vital

Gordon (Ralph Connor), author of "The Sky Pilot," and other well-known books, about real men in the backwoods of Canada. Major Gordon has recently returned from the trenches in France after two years' service. Two weeks ago he gave an address in New York's leading Babtist church, and so wonderfully vivid, was his delineation of Canada's entry into the war, without call from the mother country, that the fashionable audience unable to contain itself any longer, stood up on the seats of the pews and let itself out in cheer after cheer.

After the meeting mentioned above Mr. Byrne interviewed Major Gordon, for a New York news syndicate, and that interview will be described in full on Sunday afternoon. It will be well worth going to Carlisle to hear.

METRIC SYSTEM DOOMED

METRIC SYSTEM DOOMED

London, April 27.—The hope of
advocates of the metric system that
the system would be legalized for the
British empire at the present imperial conference has been negatived
by an official statement from the
government, which says: "It is unlikely that the imperial conference
will be able to consider the question
of the adoption of the metric system
after the war."

Red Blood For Pale People!

A big supply of red blood corpuscles is what helps to make any man or woman have a healthy, pink complexion and cherry red lips. Resort to paint and powder are totally unnecessary and besides that, are harmful. There-grain hypers are totally unnecessary and besides that, are harmful. There-grain hypers are to the property of the several months, seem to create a greatly added number of millions to the red and white corpuscles of the blood, and not only improve the color, but add increased flesh to the thin and frail body. These tablets promote assimilation, absorption and digestion, and this splendid aid to nature's forces transforms the complexion and figure. They are prescribed by physicians, but being of a perfectly harmless character, self-admany, who obtain them direct from any well-stocked apothecary shop.—Advertisement.

A Steadfast Course

Few of us respect the soap-box spell-binder. He is long on words and short on wisdom, and his knowledge of facts is nil.

So with newspapers. Have you noticed it?

But there is one newspaper that indulges in no verbal pyrotechnics; that pursues a level-headed, steadfast course; adhering strictly to the truth and leaving fiction to those who believe that thrills are more desired by readers than common sense.

The Philadelphia Record "ALWAYS RELIABLE"

is a newspaper that has much to recommend it to the substantial, worthwhile people of this community.

Its news is accurate, trustworthy, complete and thoroughly dependable.

Its editorials are powerful, sane, consistent and unbiased.

Its pages are unsullied by "sob sister" stories of profligacy, or humor that is an insult to your intelligence.

It is a newspaper of character—a newspaper in which you can place complete confidence—a newspaper that caters to the family as a whole.

SOME endurance in this WRIGLEY flavor! It lasts—I-a-s-t-s—L-A-S-T-S!

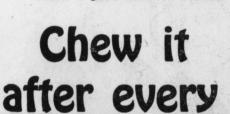

Speaking of endurance - two athletes walked an all-day race. One took light foods and liquids - the other took WRIGLEY'S.

The WRIGLEY boy came in at sun-down and said: "Let's go to the firemen's ball tonight" - or words to that effect.

The other boy went to bed.

WRIGLEY'S helps endurance. It makes a long day short. It sweetens, soothes and satisfies. It aids appetite and digestion.

That's a good deal for a nickel to buy.
