## Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a sub-Dr. Edwards Olive Lablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients, and are a purely vegetable compound mixed with olive oil. You will know them by their olive

olor.

To have a clear, pink skin, bright yes, no pimples, a feeling of buoyancy ke childhood days you must get at

the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects. They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists. Take one or two nightly and note the pleasing results.

initial gains were lost in the first half hour's trading.

Speculative conditions ruled during the dull first hour, the erratic course of prominent industrials being typical of the general list. U. S. Steel, which opened unchanged at 116 ½, soon rose a substantial fraction, only to fall back almost a point from which it rallied, relapsing again later. Other steel shares were variable under yesterday's final prices, while United Fruit, Ohio Gas, Industrial Alcohol and Maxwell Motors were 1 to 2 points lower. Trading became more active in the second hour on a fresh spurt in steel which advanced to 117¼, with more moderate gains in metals and rails. Bonds were irregular.

## STATE COMMITTEE FAVORS DRAFT

CHICAGO CATTLE

Philadelphia, Pa., April 27.-With this sentence from Washington's farewell address as its slogan— "Heaven can never smile on a na-'Heaven can never smile on a nation that disregards the eternal rules of order and right'—the Executive

tion that disregards the eternal rules of order and right"—the Executive Committee of the Committee of Public Safety to-day made public the first report of its organization and activities since its appointment by Governor Brumbaugh.

The function of the committee is to provide for the safety of the Commonwealth in time of war. An adequate discharge of this duty may necessitate a wide range of activities and a large expenditure of money and effort.

Perhaps the most serious aspect of

Perhaps the most serious aspect of the food supply problem to be considered by the committee is the shortage of agricultural labor. Where the farm and the farmer are unable to attract laborers, the appeal of patriotism may succeed. A call to men to enlist for necessary labor may be made as compelling as a call to arms. It is possible that it will become the duty of the committee to make such a call. It is also possible that the committee may be of use in co-operation with the local labor exchange and with such agricultural intelligence bureaus as may be developed to inform producers of points where their produce is most needed and to inform consumers where their needs are most likely to be met.

where their needs are most likely to be met.

An industrial Survey must take account of the productive capacity of all the plants in the Commonwealth which are or may be engaged in food supply or in the production of things needed by an army in training or in the field. It is not enough to know that great quantities of munitions can be produced in this State. The question is to what extent weapons can be produced which are in accordance with the War Department standards and how fast ammunition can be supplied which fits the guns with which our national army is to be equipped.

Military Service

The Executive Committee affirms with confidence that a compulsory military system, having due regard to the necessity of continuing in their present occupations those who can thus render their best service to this nation is the only democratic, fair and effective system upon which the defense of the country can be planned.

The primary duty of the military

defense of the country can be planned.

The primary duty of the military department will be co-operation with the Federal government in the creation of the national army. The precise form which this activity will take cannot be determined until Congress has acted. In any event there must be recruiting for the officers' reserve corps and for the camps in which applicants for commissions in the corps are expected to be trained while the national army is in process of being raised. Once the plan of national defense has been determined by Congress the duties of this department will become active and urgent.

Rally to Country

This order followed a meeting of the regiment at Lansford on April 22, when the services of the organization were offered to the President. The following resolutions were adopted at the meeting.

"Resolved: Whereas this country has declared war on the Imperial German Government, caused by the violation of principles held sacred by all true lovers of liberty;

"And whereas the Government of the United States has through its president issued a call for able-bodied men, citizens between the ages of 15 and 40 years, to enlist in the regular military forces of the government, and believing that the members of our beloved order, which has for its motto "God Our Country and Our Government," should be the first to
