What President Wilson Expects of Each Citizen

Personal responsibility for the outcome of the war is brought home to every man and woman of the United States by President Wilson's appeal to enlist in the great civilian army, without whose whole-hearted services, "mere fighting would be useless."

"This plea to the American people," declares the Washington Evening Star, "is the most important stroke yet delivered in the battle of preparedness," and the Philadelphia North American remarks that "never before in history has a nation received so sobering a summons at the beginning of a war."

In THE LITERARY DIGEST for April 28th, the leading article gives a complete description of how the great army of industry is being mobilized throughout the country. It shows the movements that are under way to increase the cultivation of the land, the proposals to solve the problem of a scarcity of farm labor, and numerous other activities. While Germany hails with delight the President's appeal, seeing in it a declaration of weakness because of a lack of supply of food-stuffs, no red-blooded American who reads this article will for one moment be convinced that there is any truth in Professor Wygodzinski's statement in the Dusseldorf General Anzeiger, that "on the American wheat-field the war will be decided in our (Germany's) favor."

Other articles of scarcely less importance in this number of "The Digest" are:

The Orgy of Destruction That Follows a German Retreat

Detailed Descriptions By Eye-Witnesses

- T. R.'s Plan to Beard the Kaiser
- What England Expects As Our Duty
- The Kaiser Blocking Reform
- Psychology of the "Hunch"
