FARM AGENT IS NAMED TO DIRECT GARDENING HERE

H. G. Niesley Will Superintend in County; City Gardeners Are Hard at Work

Applicants who received Chamber of Commerce garden plots in the Bellevue Park section, were out before sunrise this morning busily engaged in putting the ground in condition to plant. Scores of the workers were at their plots long before Superintendent Shirley B. Watts arrived on the scene, and before noon nearly every plot in the section had been worked.

There are ninety-six plots in this section and more will be given out. These new plots will be ready to cultivate by Monday morning. Superintendent Watts is completing the staking off of lots in the Division street section donated by the Harrisburg Realty Company and the same will be distributed early next week. Twenty applications have already been received for plots in this section, and about forty will be available.

N. G. Niesley, a Cumberland county man, has been appointed by Dean R. L. Watts, of the school of agriculture of State College, as the Dauphin county farm agent. Mr. Niesley is a graduate of State College, and prior to entering the institution was a school teacher. He is an excellent public speaker, has had a great deal of experience along farming lines and is considered by Dean Watts, one of the ablest men appointed from State College in recent years. He will take up the work here some time next week.

Six other counties in the State have organized farm bureaus and appointments have been made as follows: Cumberland county—Paul L. Edinger; Lebanon county—A. C. Berger; Clinton county—M. H. Keeney; York county—G. G. Weber; Adams county—H. P. Hershey; Center county—R. H. Olmstead.

NEED NEW UNIFORMS A festival will be held on the evenings of May 4 and 5, by the membership of Friendship Fire Company, in an effort to raise enough funds to purchase a hundred new uniforms for their firemen.

Sold in 2, 5, 10, 25 and 50 lb. cotton bags and in 2 and 5 lb. cartons, packed at the refinery. Cocoa and Chocolate are delicious and nourishing beverages. A Franklin Sugar for every use Granulated, Dairy Lumps, Powdered, Confectioners, Brown

THIS DISTRICT RUNNING AHEAD IN RECRUITING

Leads State Always and Was Sixth in U. S. Last Month; Applicants For Reserve

The Harrisburg army recruiting district, in charge of Captain William F. Harrell, with headquarters in the Strouse Building, led Pennsylvania in army recruiting for March and was sixth of all the districts in the United States according to the official report received from the Adjutant General's office, Washington, late yesterday.

Captain Harrell announced this morning that his district enlisted 278 men last month, nearly as many as were enlisted from the other three districts in the State, which combined only furnished 291 men. One hundred and four of these were from Philadelphia, 100 from Scranton and 87 from Pittsburgh.

Watch Our Record This is an excellent showing for the local district, which is comparatively small. The six western districts, which led the Harrisburg district, are nearly three times as large. Of the districts in the State, Harrisburg is the smallest with a population of 1,720,000; Pittsburgh has 2,049,428; Philadelphia has 2,022,247 and New York has 4,772,000.

When congratulated on his fine showing this morning, Captain Harrell said: "The worst is yet to come. Watch our record next month. We have enlisted 1,050 men and would have had a larger number but we were held up by the added work for the Officers' Reserve Corps."

Yesterday recruiting fell off in the district but took an added boom in the city. Thirty men were added to Columbus Barracks and out of this number twenty-one were from Harrisburg and nine from Johnstown.

While the majority of the members of the Commonwealth Band cannot join the ranks they are not going to be idle and will assist their "bit" in assisting in recruiting here. Elmer Eshenour, manager and W. Fred Weber, leader of the band, offered the services of their organization to Captain Harrell in giving a free concert in an effort to stimulate enlistment. Arrangements will be made to give a concert within the next week and a number of patriotic citizens have volunteered their services to speak in behalf of recruiting on the night of the concert. Captain Harrell will assign a squad of his men to receive the applicants at the meeting.

Fought Under Villa Men and boys of all ages and types are besieging Captain Harrell and the recruiting office in an effort to secure a place among the 2,500 who will attend the Fort Niagara camp for the training of prospective officers from this section of Pennsylvania. The demand here and elsewhere has been terrific; in Philadelphia there is a long line of applicants constantly waiting to be accepted and a Harrisburg man, who went down there, said he saw people stand as long as three hours before their turn came. The indications are that there will be many thousands more applications received than will be accepted. It is understood that preference will be given to men of mature years, of previous military experience and good education.

One young man came in to the Harrisburg office yesterday with the information that he had recently spent some months in Mexico under Villa, before the American troops were sent to the border. He is a graduate of a western high school, spent a year or so at Michigan University, got tired of fighting with him and came north to work. He filed his application this morning.

Jackson Herr Boyd, of this city, who served some time at the trench front with the American Ambulance Corps, has made application for a commission in the Officers' Reserve Corps.

Detail Coming Quartermaster W. E. Quirk, in charge of the navy office sent Bertin East, State Engineer, to Philadelphia this morning. Chief Water Tender Charles Rive, who was assisting Quartermaster Quirk, here was called to Philadelphia where he will go on the receiving ship for detail duty. At the request of Captain W. C. Herbert, inspector of engineering materials for this district with headquarters in the Berner building and R. A. Bacon, the Camp Hill lad who enlisted in the Naval Coast Defense Reserve, Captain H. A. Bush, the commandant of the Fourth Naval District, Philadelphia, will send a detail of recruiting officers here to enlist men for that branch of the service.

FEAR OF STRIKE ROCKS GERMAN EMPIRE

[Continued From First Page.] in the great mining and manufacturing districts of Westfalen and Silesia. Finally there is another official announcement that a great coming out of the war industries is necessary and imminent to the German government. This gives the government any needed justification for sending to the front munition workers who yield to temptation. Men Needed at Front Some of the men taken from the industries will be sent to fill the gaps resulting from the tremendous casualties in the battles on the western front and others to permit the release of older men, particularly the fathers of families, while still others will serve as substitute skilled miners now with the colors but more urgently required in the coal mines. The newspapers markedly avoid any attention to the Swedish labor troubles, evidently concluding that these might serve as an evil example. The almost entire absence in the German newspapers of Wednesday afternoon and Thursday morning of dispatches regarding the Swedish disturbances is so significant that it perhaps indicates censorship on the subject. Masses in Ferment All in all a strong ferment is evident among the laboring masses, caused by food conditions, including the reduction of rations and the extreme cost of living, and feariness of war. This view is confirmed by an American businessman who has just succeeded in leaving Germany and who, though ignorant of the indications given in the German newspapers yesterday and to-day, told the Associated Press correspondent that Berlin was still seething with strike feeling and that an impression was widespread there that there will be another outbreak on May Day.

COUNCIL MEETS TO GO OVER ASH SURVEY

[Continued From First Page.] sioner Gross, asking him to make a definite recommendation at once to council so that action can be taken to provide for permanent relief from conditions which were endured during the last winter. The letter follows: "I am writing to ask if you can-

215 ASH COMPLAINTS RESULT IN FINE OF \$1075 BEING PLACED ON PENN'A REDUCTION CO.

As a result of the "post card complaint" campaign started by Commissioner E. Z. Gross, the city health bureau yesterday penalized the Pennsylvania Reduction Company \$1,075 for failure to make regular collection of ashes in various parts of the city.

A \$5-fine was imposed for each of 215 complaints which have been received by Commissioner Gross and the health bureau. The \$1,075 penalty will be deducted from the monthly check of \$2,625 which is paid to the Reduction Company for the collection work.

All the complaints will be turned over to the city solicitor who will be asked to notify the company of the action taken by the health officials. In case collections are not on schedule again Commissioner Gross declared he will make another appeal for complaints by post card and for each one received will ask the health officials to impose a \$5 penalty.

At the regular meeting of the bureau the date for Harrisburg's annual spring cleanup was set for Monday, May 14. Two weeks will be needed for this work, Health Officer J. M. J. Radnick announced. Regular schedules for collection of all ashes and refuse will be worked out and E. Tracy, president of the Health Board, said, to have many of the vacant lots in the city cleared of all rubbish.

not arrange to recommend something after the matter of an expert survey being made of the ash and waste disposal problem which was presented to Council, on February 27, two months ago.

"On April 13 we wrote and asked if you had arrived at some conclusion in the matter and although we have not received any reply to that effect we have from time to time noted statements in the newspapers that you intended to take some action at one meeting or another of Council."

"We are writing to kindly request that you make a report and recommendation in the matter of survey of the ash and waste disposal problem at once as we believe sufficient time has elapsed for the matter to be fully considered."

"We wish to again reiterate our belief that if a survey is not made at once so that the city can take whatever steps are necessary in the way of contracts, buildings and plant to safeguard its interests upon the expiration of the present contract that we will soon find ourselves without sufficient time to do anything before the contract is up."

"Inasmuch as time is the essence of protecting the public interest in this matter and two months of the year has already gone by, you can appreciate our keen desire for you to arrive at a conclusion in the matter. There seems to be only one conclusion in the matter to us, namely, that the city should have its ash and waste disposal problem investigated this time by experts so that it can act wisely and protect the public interest. The present improvements made in this manner and we firmly believe that the ash and waste disposal problem will always afflict the city until you take the action respectfully suggested. In the meantime we may not again request a report from you on this subject."

Council Considers Filling Two Vacancies at Informal Meeting This Afternoon

Filling of the two vacancies in Council will be taken up late this

130 TECH BOYS TO WORK FARMS

[Continued From First Page.] looked upon as being future mechanics, data secured shows that they now have over fifty acres of soil under cultivation—50 1-20, to be exact. Potatoes, corn and vegetables will be raised upon these garden and country plots this summer. The Maroon students made a good showing in every department except in the matter of fattening hogs; not one had a hand in fattening swine. If he does, he will not admit it. The questionnaire as sent out by the Department of Agricultural Education is as follows: Number of farm boys who will work on farms this summer, three. Number of boys who have enlisted in the army, one. Number of boys who have enlisted in the navy, two.

Great Chicken Raisers

Total acreage to be under cultivation by boys in your school this summer, 50 1-20. Total number of hogs to be raised or fattened by boys this summer, none. Total number of poultry to be raised or cared for during season by boys, 1,208. Number of boys who have enlisted in the army, one. Number of boys who have enlisted in the navy, two.

Look Young Be as Young as You Look Every woman glories in "Youth." Thus, La Resista corsets fitted with Spirabone command her admiration, for the Spirabone corset molds the youthful figure. Old-fashioned steel boning is stiff and rigid. Often, old-fashioned steel stays distort natural beauty. La Resista—Spiraboned corsets are different because Spirabone idealizes. It perfects slender, willowy lines. And so Spirabone distinguishes La Resista from the ordinary corset. 400,000 wise women wear La Resista—Spiraboned corsets. The picture shows why. Just see the difference between yielding Spirabone and the old-fashioned stay. See how Spirabone bends. Imagine the freedom it gives. All in the patented weave. You can only get Spirabone in one corset— La Resista. La Resista corsets re-adjust the flesh, as an artist would re-draw his subject. And as for style! La Resista, because of yielding grace; because of superb design, gives natural style. For every type of figure. Wear La Resista—Spiraboned corsets. Price, \$2.50, \$3.00, \$3.50, \$5.00 and up Wolfe Corset & Lingerie Shop 224 N. SECOND STREET
