OFFICIAL CHECK ON COST FACTS

Oregon College Pair Make Report on Figures New Buyers Seek

How much money for operating upkeep need the automobile owner expect to invest in running his car after he has bought it?

The table, which is to be put on file with motor clubs throughout the country at once, is of great value to men because of the figures it cites, while women will be much interested in the knowledge that Mrs. Seelye kept the books on the long trip.

Driving a Maxwell touring car, the Oregon fact-hunters traveled from the Pacific coast, in Oregon, to Boston, Mass., and then returned to the Pacific over a different route.

Every condition of travel was encountered, observed and statistics kept on it. All cost details, as it was felt these are sought by the intending motorcar owners, are given in the official tabulation.

The table accurately gives, Professor Seelye asserts, a statement of facts as to his Maxwell's operating economy and he is convinced that the record is sufficient to satisfactorily reinforce this car's championship of the industry in low operating expense.

SAXON ACTING AS TRAIL BLAZER

Little Car Finds South Land Is Ideal Motoring Grounds

Three weeks of the Saxon roadster's trail-blazing trip for the national boundary highway have demonstrated not only the power and endurance of the car, but also the beauties of a highway along the edges of the country.

From Washington, where the start was made, to the west coast of Florida, now in the location of the little car, the trail blazer has passed through several of the most historic places in the country and along some of the most beautiful highways in America.

before the war affords an ideal motoring spot, say the pathfinders. Only one thing is needed and that is a highway, suitably marked, so that the motorists can follow it.

The spring rains have followed the route of the little car since it left the Capitol, and day after day has been spent in driving over muddy roads.

Not one has proved impassable to Saxon roadster, except once when the car ran so close to the ocean that high tide inundated the road to a depth that caused the exhaust pipe to be under water.

Then the car was pushed only a few yards to a higher place, started again, and the journey was resumed.

All along the coast, the trail blazers report the States are filled with activity, due to the present war clouds, and everywhere there is a spirit of patriotism. It is expected that the trail blazer will be out of Florida inside of a week and will be traveling westward along the Mexican border.

What Is a Crispin MERIT Car?

It is a thoroughly reliable exchanged car which will give more actual service and satisfaction than any new car at the same price.

Come now—catch the distinction between a MERIT Car and the ordinary used cars which can be bought in any showroom.

The MERIT Cars have been accepted for sale because we know they are reliable and we know that they will give you real service in proportion to the price which you pay. At the price you want to pay, you can choose

here a dependable car which will give satisfaction long after to-day's new cheap cars are on the scrap heap. Suppose you don't wish to pay more than \$500 or \$600; which do you think will yield the greatest return on your investment; a car built to sell at such a low price or one worth \$1500 or \$2000 when new and now selling at your figure?

We have these cars on our floor overhauled, repainted—and there is one here at your price.

Stop in to-day and talk it over with us.
