Equipments, Munitions, Metals and Shippings Lead Senator Knox Declares It Is Active Dealings; Steel Hardens, but Rails a Crime Not to Take Are Uncertain

By Associated Press

New York, May 1.—(Wall Street).
—Industrials of the equipment and munition groups, metals and shippings led the active dealings of today's early market, all being in demand at advances ranging from material fractions to over a point. The inquiry for United States Steel comprised several individual lots up to 117%, an overnight gain, of almost a point. Marines, Atlantic, Gulf and West Indies and prominent coppers and motors rose in a way to suggest additional short covering this being indicated also in the further advance of industrial Alcohol. Steels hardened with other specialties but rails were uncertain.

Almost without exception market leaders recorded advances of one to two points before profit taking became effective. Shippings and motors also increased their early advantage. Rails gave promise of general improvement, but sold off abruptly on word from Washington that the Interstate Commerce Commission advises extreme conservatism respecting dividend returns during the war. Union Pacific, St. Paul, Atchison and Reading reacted an average of a point and other important stocks were disposed to ease. Partial railies at noon were again forfeited. Bonds were firm, although U. S. Coupon 3's lost 1'4 per cent. on single sale. ost without exception market
