

SAFETY OF U. S. DEPENDS UPON TILLERS OF SOIL

Gifford Pinchot in Letter Here Says Greatest Danger Is Starvation

The safety of the United States against foreign invasion hangs on the decision of the farmers of the forty-eight states, declares Gifford Pinchot in a letter to the HARRISBURG TELEGRAPH.

Mr. Pinchot points out the danger of overhauling this country should Germany's submarines succeed in starving England into submission.

The letter follows in part: "The two great weapons in this war are arms and starvation. The war against German arms will be won or lost in France—the war against starvation will be won or lost in America. The kaiser cannot whip the French and English armies and the English navy while England has food. But it is still possible that

How Fat Folks May Become Slim

GET RID OF TEN TO SIXTY POUNDS

To be excessively fat is very mortifying. People who are too stout are usually sensitive on this subject. Style and fat folks are struck. Therefore, people who are carrying around a burden of unbecoming and unsightly fat will be glad to know that they may reduce their weight without starvation diet or strenuous exercises. If you want to become thinner in a simple, safe and reliable way, here is a test worth trying. Spend some time daily in the open air, and get from the druggist a box of oil of korelin. Take one after each meal and one before retiring at night. Also follow the other directions that come with the box.

Weigh yourself once a week so as to know just how fast you are losing weight, and don't leave off the treatment or even skip a single dose until you are down to normal. Oil of korelin is absolutely harmless, is pleasant to take and costs little. A testing sample, with book, will be mailed free, in a plain envelope, if you write to Korelin Company, 1417 Arcade, East 28th Street, New York, N. Y.

Even a few days' treatment has been reported to show a noticeable reduction in weight, and the flesh firm, the skin smooth and the general health improved. If you are ten to sixty pounds over normal weight, you should give this treatment a trial. You will likely find just what you need.—Advertisement.

Mighty Poisons Accumulated Through the Winter Months Mean Disaster and Disease.

Says Rid the System With Sulphur Tablets Easily.

Springtime always brings with it joy and distress. The distress is in the form of catarrh, neuralgia, rheumatic pains, constipation, inactive kidneys and usually a feverish, sluggish etharg that is hard to throw off.

Do you remember how grandmothers fed you sulphur and molasses every spring to purify the blood? It was a good, old-fashioned, but nauseous remedy. Now you can take sulphur, cream of tartar and herbs in tablet form. A better remedy, easy and pleasant to take is Sulphur Tablets. Sold by all druggists. A laxative, blood purifier of unequalled merit for those who are constipated and suffering in any way from such pent-up poisons. Each package is guaranteed to give wonderfully satisfactory results. Be sure you get Sulphur Tablets (not sulphur tablets).—Adv.

the German submarines may be able to keep food enough from reaching England to starve her into submission.

Kaiser Would Be Master

"If the submarines win, the first item in the kaiser's terms of peace will be the English fleet. With the English fleet in his possession, the kaiser will be master of the world. "What will happen to us then? Every man who stops to think knows the answer. We shall have money, food, or land—everything that is desirable in the world except the power to protect what we have. Exports will be cut off. It will take us nine months to get ready to meet a German army of even 150,000 men, with modern artillery. Under such circumstances, would the Germans treat us better than they have already treated Belgium and France? "Even if the armies of our allies should crush the German military power this summer, before the shortage of food can reach the point of want, the world would still need vast quantities of American food. But if they do not, only one course can make us safe, and that is to grow food enough on our farms for ourselves and our allies, and to put ships enough on the sea to carry the food, in spite of the submarines, to the men who are fighting our fight.

"If the war lasts beyond this summer, it will be the American farmer who will win or lose the war, who will overcome militarism and autocracy, or allow them to spread and control the world, ourselves included.

"It is true that we can greatly increase the available food supply out of grain now used in making liquors, and by reducing household waste. But when these two things are done, and done thoroughly, they will not be enough. The final decision will still rest in the hands of the men who raise our food in the first place.

"The clear duty of the nation is to guarantee the farmer a fair price for their crops when grown, and a reasonable supply of labor at harvest. The clear duty of the farmer is to raise food enough to win this war for democracy against kaiserism.

"No such responsibility has ever rested on any class of men since the world began as rests to-day on the farmers of America."

Your last chance to buy the Encyclopaedia Britannica, printed on genuine India paper, ends in 2 or at the very latest 3 weeks from today.

We are close to the day when we must stop taking orders. The few remaining sets of the Britannica are selling so fast that if you want to be sure of getting a set, NOW is the time to order it.

And it is NOW or NEVER if you desire to own this great work in its most convenient form—the popular "Handy Volume" Issue, printed on genuine India paper.

These remaining sets are *the very last in the whole world*, printed on the famous India paper, that can be offered.

They are printed on the last India paper manufactured before the war made it impossible to get the special kind of flax from Belgium, Ireland and Germany and hemp from Russia for the making of India paper. No more of these raw materials is available, or will be procurable for years after the war, for the making of India paper.

And the only sets of the Britannica for sale anywhere in the world, printed on this beautiful paper, are right here in America.

Orders have greatly increased in the last month—the sales have jumped to an average of more than 2,000 sets a week. This fact makes it certain that the few remaining sets will not last beyond 2 or 3 weeks.

If you know the Britannica, know how useful it will be to you, and are quite sure you should own a set, order it immediately. This is your only assurance of getting it.

When the last day is announced on which we can accept orders with any prospect of filling them, it is reasonable to expect a great rush of orders to come in at the eleventh hour. This was shown last June when a slight increase in the price was made on account of the increase in the cost of bookmaking materials, and we received over 17,000 orders after the last day.

NOW or NEVER!

We are giving you warning NOW to save you any disappointment in never getting one of these *very last sets*.

In this case when the last set is gone you will not be able to buy a first-hand set of this great library of knowledge, printed on genuine India paper, at any price.

Today in England, Australia and other countries people who failed to buy the Britannica when they had the same chance that you have now are advertising for it and have to pay whatever premium may be put

on it by any owner who can be induced to sell his set.

Don't wait until the eleventh hour. Don't put off ordering until "tomorrow." Take the time today to send in the "reserve order" coupon and then you will be sure of getting a set.

You should satisfy yourself that the Britannica will be useful to you in your business or work, increasing your mental efficiency and earning power. You still have a chance to know what the Britannica is and what it will mean to you.

Dives, Pomeroy & Stewart

and examine the Britannica for yourself. You can there see a complete set, investigate its contents in your own way, run through the index of 500,000 facts and learn all about this great work. You can compare the large-size, higher-price Cambridge issue and the popular "Handy Volume" Issue, which sells for about 60% less. You can also select the style of binding you prefer.

We don't want any one to order the Britannica unless he is positive that it will be useful to him. We could sell many thousands more sets if more India paper for printing them could be obtained.

Hence we desire that every single one of the remaining sets shall go to men and women who will find the Britannica a practical everyday help.

Go at once and see the different issues. You can leave your order at the same time. But this is YOUR LAST OPPORTUNITY—remember, when the last one of these remaining sets is sold you will NEVER AGAIN have an opportunity to buy this valuable work printed on genuine India paper.

Facts about the Britannica Proving its Usefulness

This great work is a complete survey of all knowledge.

Its 29 volumes contain 41,000 separate articles, covering every branch of human thought and activity.

It contains 500,000 indexed facts.

It is cosmopolitan in its viewpoint, unbiased in its presentation and authoritative in every particular.

It is the work of 1500 world-famous scholars and experts, each chosen because of his special knowledge of the subject he wrote about.

It could not be written today because the war would make it impossible to obtain from the contributors, who represented every civilized country, the same calm, unprejudiced view of national and historical subjects.

It deals with knowledge in the broadest, most practical way, making this knowledge usable for any purpose that knowledge is necessary.

It is written in an attractive, entertaining style which appeals alike to the business man, the woman of the home and the college professor.

It is a work that interests children, helping them in their studies and providing the foundation of a practical education.

It is owned and used by more than 175,000 men and women in all vocations, this number including more than 100,000 business men and women.

Only a few sets are left and when these are sold no more can be offered printed on genuine India paper. Therefore, it is

NOW OR NEVER if you desire a set.

Those who cannot go to the store may use this reserve order form, which will be legally binding upon us to reserve one set for you, just the same as if you ordered it in person.
