MANY HEAD THE CALL TO FARM

[Continued From First Page]

Among the seniors there is a movement to join the military organizations, while with the undergraduates the tendency is toward the farm.

The sentiment at Tech is to place their services above all other activities of the school.

At a meeting of the agricultural committee of the chamber, late yesterday afternoon it was decided that the Chamber of Commerce, for the Pennsylvania Committee of Public Safety, will take complete control of the system of placing schoolboys and those under military age, not otherwise employed, on Dauphin county farms.

The placing of high school boys was the principal question for discussion.

1—A wage of \$1 per day for boys sixteen years old and 75 cents per day under sixteen years old, including board and lodging.

2—Not more than eight (8) hours of work per day to be required during the first two weeks' employment.

3—No work to be required on Sunday, except necessary chores.

U. S. Warned of Economic War That Will Follow Declaration of Peace

Washington, May 2.—Administration officials have been told by members of the British and French missions that, despite reports to the contrary, German industries turned out for two years after the war began enormous quantities of raw material to be dumped into the world's markets when peace comes.

As a producer, it is asserted, the German to-day is worth two Americans. For cheapness of production it is contended that the Germans will compete with the Chinese.

The French government is said to have proof that Germany is now constructing merchant fleets to carry on the commercial program after the war.

Raw coffee? Never! "Toasted" coffee Every time! THE thing that makes your morning coffee so delightful is the flavor produced by "toasting": (coffee experts, of course, call it roasting). Think of it. Hot, fragrant, delicious. Coffee is not the same, raw. Not much! Toasting gives flavor. And toasting tobacco gives it more flavor, every time. So we toast the Burley tobacco for the new Lucky Strike cigarette. (You know Burley—you buy it in a green, blue or red tin). Toasting tobacco develops flavor—seals in the Burley flavor, tight. It holds: the Lucky Strike cigarette is flavor-sealed, and delivered to you fresh: not dry, not moist—just right. Join the Lucky Strike Smoke Circle. You'll like the Lucky Strike cigarette because— It's toasted! 20 for 10c. Guaranteed by The American Tobacco Co.
